Actors' Yearbook 2013 - Essential Contacts for Stage, Screen and Radio Hilary Lissenden, Simon Dunmore, 2013-03-14 Actors' Yearbook is an established and respected directory that enables actors to find work in stage, screen and radio. It is the only directory to provide detailed information for each listing and specific advice on how to approach companies and individuals, saving hours of further research. From agents and casting directors to producing theatres, showreel companies and photographers, Actors' Yearbook editorially selects only the most relevant and reputable contacts for the actor. Articles and commentaries provide valuable insight into the profession: auditions, interviews and securing work alongside a casting calendar and advice on contracts and finance. This is an incredibly useful professional tool in an industry where contacts and networking are key to career survival. The listings detailed in this edition have been thoroughly updated alongside fresh advice from industry experts.

Screening Reality Steve Wharton, 2006 Between 1940 and 1944 in German-occupied France, the previously disregarded documentary or film de complément took on a new and more prominent role for cinema audiences. Film programmes were obliged for the first time to show documentaries as well as the main feature. Vichy Government support and encouragement made documentary a vehicle for the palatable promotion of policy whilst ostensibly appearing neutral and didactic. Key to this task was the fostering of a climate in which documentary film could be appreciated in its own right, and so it was that special series of high quality documentaries were screened first in Paris and then across France. In 1943 a Government-sponsored Documentary Film Congress acknowledged that these screenings were « au service de la France et du Maréchal ». This book relates the films to their historical context with reference to other propaganda materials of the period, to indicate how this might have been achieved.

Adolescent Screening: The Adolescent Medical History in the Age of Big Data E-Book Vincent Morelli, 2019-05-09 In this comprehensive look at adolescent screening and holistic health in the technology age, Dr. Vincent Morelli reviews the history of the adolescent health screen, what is being used now, and what needs to be considered in the future. An ideal resource for primary care physicians, pediatricians, and others in health care who work with adolescents, it consolidates today's available information on this timely topic into a single convenient resource. Covers the history of the adolescent medical history and the need for an update of the biopsychosocial model, which has not significantly changed since 1977. Discusses nutrition screening, sleep screening, exercise screening, adverse childhood experiences (ACEs) screening, educational screening, behavioral and emotional screening, and more. Presents the knowledge and experience of leading experts who have assembled the most up-to-date recommendations for adolescent health screening. Explores today's knowledge of health screening and discusses future directions to ensure healthy habits in adolescents, including education and self-efficacy.

The People's Pictures James Caterer, 2011-08-08 When John Major launched the UK's National Lottery in 1994 he christened it "the people's Lottery" and handed it to the mythical stewardship of the Everyman. But when the proceeds began to be distributed to worthy causes, including the British film industry, this populist rhetoric came under increasing strain. If Lottery funding is used to produce the type of British films which the public want to see, such as romantic comedies, then many question whether the market deserves such subsidy. Short films and low budget, experimental cinema - which often require state support - tend to go unwatched by large swathes of the Lottery ticket-buying public. This book explores the debates which were sparked by the arrival of "the people's pictures", and places them in historical context by examining their many precedents. Is public patronage a boon or a burden for filmmakers? And how do institutional cultures or political buzzwords affect the finished films? Case studies include the popular hits Billy Elliot (2000) and Shooting Fish (1997); art-house releases such as Love Is The Devil (1998) and Gallivant (1997); short films by Lynne Ramsey and David MacKenzie; and artists' film and video work by Bill Viola and Tracey Emin.

Screening Shakespeare from Richard II to Henry V Ace G. Pilkington, 1991 This book applies the videocassette to the study of Shakespeare on television and film. The result is that the films become texts, and Shakespeare in performance can be examined with the scholarly care that has been reserved for printed books.

Diagnosis, Screening and Treatment of Abdominal, Thoracoabdominal and Thoracic Aortic Aneurysms Reinhart Grundmann, 2011-09-12 This book considers mainly diagnosis, screening, surveillance and treatment of abdominal, thoracoabdominal and thoracic aortic aneurysms. It addresses vascular and cardiothoracic surgeons and interventional radiologists, but also anyone engaged in vascular medicine. The high mortality of ruptured aneurysms certainly favors the recommendation of prophylactic repair of asymptomatic aortic aneurysms (AA) and therewith a generous screening. However, the comorbidities of these patients and their age have to be kept in mind if the efficacy and cost effectiveness of screening and prophylactic surgery should not be overestimated. The treatment recommendations which will be outlined here, have to regard on the one hand the natural course of the disease, the risk of rupture, and the life expectancy of the patient, and on the other hand the morbidity and mortality of the prophylactic surgical intervention. The book describes perioperative mortality after endovascular and open repair of AA, long-term outcome after repair, and the cost-effectiveness of treatment.

Farm data: Serving smallholder farmers in a digital age CTA, 2018-08-28 Spore magazine 190: Farm data: Serving smallholder farmers in a digital age Increasing amounts of agricultural data are being produced at faster speeds, using a greater variety of technologies and innovations than ever before. Essentials of Health Justice Elizabeth Tobin-Tyler,Joel B. Teitelbaum,2018-04-04 Essentials of Health Justice is a short stand-alone text or supplemental primer for a wide range of undergraduate and graduate public health, health policy, medical, nursing, health administration, and other health profession courses that focus on or include content on the social determinants of health, underserved populations, health equity, and the relationship between social justice and health. Essentials of Health Justice will serve to enhance discussion of the many legal, structural and policy issues underlying health disparities; the various public health and health care interventions geared toward improving access and better outcomes for vulnerable populations; and the ways in which the nation can better achieve health equity and justice.

The Trouble with Trauma Michael Scheeringa,2022-03-08 The Trouble with Trauma is the story of how the idea of psychological trauma appeals to the human mind. Trauma impacts many people psychologically, but the evidence on the long-term physical effect is incomplete. Theories that psychological trauma can permanently damage your brain, cause physical disease, and change your essential character have become staples of human thought worldwide. Dr. Scheeringa explains how those theories are widely believed whilst not being true, and at the heart of the story is an explanation of how humans choose to ignore scientific evidence and practice self-deception based on heuristics for survival. Heuristics is a rapid and efficient method to make judgments about threatening situations, which may be especially relevant during an epidemic and the spread of misinformation. But The Trouble with Trauma is more than a critique of social policy. This is a book for anyone who wants a better understanding on how groupthink and herd mentality works and improves our ability to understand scientific fact. Dr. Scheeringa sheds light on why we choose to ignore scientific evidence while engaging the reader in a lively conversation on how we come to believe.
