These comprehensive, detailed statistics are organized by categories to help you assess what areas of your game you need to work on. In addition to standard stats like fairways hit, greens in regulation, and putts per GIR, many other stats give you a breakdown to help you evaluate your ball striking consistency and accuracy for different types of clubs, which types of putts you are sinking and missing, whether 3-

putts are a result of poor lags or poor short putting, how you handle birdie putts compared to par putts, which areas of your short game are strongest and weakest, where you are losing strokes to penalties, and how you can improve your mental toughness to shave strokes off your score. Average your statistics after every 10 rounds and compare your 10-round stats to see how your game changes over time.

*Lowest Score Wins* Erik Barzeski, David Wedzik, 2014-06-12 Golf is unique: it's the only sport in which the Lowest Score Wins. Golfers have been inundated for years with advice and sayings intended to help them shoot lower scores, like spend 50% of your time practicing your putting or you've got to be in the short grass. What if we told you that most of this popular advice was not true at all? That these myths are holding you back from reaching your potential and shooting the lowest score possible? That putting might be the least important skill in golf, that driving the ball far is much more important than driving it straight, and that Phil Mickelson might just be the best strategist on the PGA Tour? *Lowest Score Wins* is NOT your classic golf book. We show you the new

way to shoot lower scores -- immediately. You'll learn to use something called Separation Value to guide your practice and how you can use Shot Zones to help you determine your GamePlan for every shot you play. You'll discover why typical course management strategy fails (hint: it only covers half of the equation). This book is the first of its kind. It is your own personal roadmap to shooting lower scores tomorrow. What are you waiting for?
