Controlled Natural Language Norbert E Fuchs,2010-07-06 Controlled natural languages (CNLs) are subsets of natural languages, obtained by - stricting the grammar and vocabulary in order to reduce or eliminate ambiguity and complexity. Traditionally, controlled languagesfall into two major types: those that - prove readability for human readers, and those that enable reliable automatic semantic analysis of the language. [. . .] The second type of languages has a formal logical basis, i. e. they have a formal syntax and semantics, and can be mapped to an existing formal language, such as ?rst-order logic. Thus, those languages can be used as knowledge representation languages, and writing of those languages is supported by fully au- matic consistency and redundancy checks, query answering, etc. Wikipedia Variouscontrollednatural languagesof the second type have been developedby a n- ber of organizations, and have been used in many different application domains, most recently within the Semantic Web. The workshop CNL 2009 was dedicated to discussing the similarities and the d- ferences of existing controlled natural languages of the second type, possible impro- ments to these languages, relations to other knowledge representation languages, tool support, existing and future applications, and further topics of interest.

The Ethics of Identity Kwame Anthony Appiah,2023-10-03 A bold vision of liberal humanism for navigating today's complex world of growing identity politics and rising nationalism Collective identities such as race, nationality, religion, gender, and sexuality clamor for recognition and respect, sometimes at the expense of other things we value. To what extent do they constrain our freedom, and to what extent do they enable our individuality? Is diversity of value in itself? Has the rhetoric of human rights been overstretched? Kwame Anthony Appiah draws on thinkers through the ages and across the globe to explore such questions, developing an account of ethics that connects moral obligations with collective allegiances and that takes aim at clichés and received ideas about identity. This classic book takes seriously both the claims of individuality—the task of making a life—and the claims of identity, these large and often abstract social categories through which we define ourselves.

The Peel Sessions Ken Garner,2010-12-15 This is a story of teenage dreams, which, as any Peel fan knows, are hard to beat. Between 1967 and 2004 John Peel picked over 2000 bands to come and record over 4000 sessions to be played on his radio show. Many were young and had never been in a recording studio before, for some it was the start of an illustrious career, for others it was the only recognition their musical talent ever got. For over 35 years the cream of British musical talent made the journey to the BBC's studio in Maida Vale, from Pink Floyd to Pulp, the Small Faces to the Smiths. And because John Peel was so respected his sessions took on a legendary status - they were a rite of passage that every new band wanted to go through. Unfettered by commerical pressure the Peel Sessions were a unique British institution - an archive of music that reflects one man's passion for finding and encouraging new music. Includes a full sessionography listing songs, band members and broadcast dates. Jarvis Cocker writing about his first Peel Session aged 18 (Wayne the drummer was 15): 'We travelled down to Maida Vale in a van driven by a very strange man we'd contacted via a card pinned to the Virgin record shop noticeboard. We'd had to borrow lots of equipment from a band called The Naughtiest Girl Was a Monitor 'cause we didn't have enough stuff of our own. The session was to be produced by Dale Griffin, who used to be the drummer in Mott the Hoople; I seem to remember that he was wearing cowboy boots. I think the crisis point came when Wayne was attempting to get a home-made synth-drum to work that a friend of his at school had made out of a rubber burglar-alarm mat and an old electronic calculator - Dale Griffin looked at this 15-year-old kid crouching on the floor bashing what looked like a doormat with some wires coming out of it and just put his head in his hands. But to his credit, the session did get finished and after it, everything else started for me...'
