Addiction by Design Natasha Dow Schüll, 2014-05-11 Recent decades have seen a dramatic shift away from social forms of gambling played around roulette wheels and card tables to solitary gambling at electronic terminals. Slot machines, revamped by ever more compelling digital and video technology, have unseated traditional casino games as the gambling industry's revenue mainstay. *Addiction by Design* takes readers into the intriguing world of machine gambling, an increasingly popular and absorbing form of play that blurs the line between human and machine, compulsion and control, risk and reward. Drawing on fifteen years of field research in Las Vegas, anthropologist Natasha Dow Schüll shows how the mechanical rhythm of electronic gambling pulls players into a trancelike state they call the machine zone, in which daily worries, social demands, and even bodily awareness fade away. Once in the zone, gambling addicts play not to win but simply to keep playing, for as long as possible--even at the cost of physical and economic exhaustion. In continuous machine play, gamblers seek to lose themselves while the gambling industry seeks profit. Schüll describes the strategic calculations behind game algorithms and machine ergonomics, casino architecture and ambience management, player tracking and cash access systems--all designed to meet the market's desire for maximum time on device. Her account moves from casino floors into gamblers' everyday lives, from gambling industry conventions and Gamblers Anonymous meetings to regulatory debates over whether addiction to gambling machines stems from the consumer, the product, or the interplay between the two. *Addiction by Design* is a compelling inquiry into the intensifying traffic between people and machines of chance, offering clues to some of the broader anxieties and predicaments of contemporary life. At stake in Schüll's account of the intensifying traffic between people and machines of chance is a blurring of the line between design and experience, profit and loss, control

and compulsion.

Responsible Gambling Howard J. Shaffer, Alexander Blaszczynski, Robert Ladouceur, Davis Fong, Peter Collins, 2019-09-02 Responsible gambling refers to a range of strategies, initiatives, and activities introduced by gambling regulators, policymakers, and industry operators to reduce gambling-related harms. There is an absence of agreement about the definition of responsible gambling among these parties, and stakeholders' experiences reflect varied and often conflicting positions about the development, implementation, and maintenance of existing responsible gambling programs. Complicating these issues further, there is little empirical evidence supporting the current crop of responsible gambling activities. Consequently, there is a pressing need to bring together key

similarities and differences associated with disparate stakeholder groups. Responsible Gambling: Primary Stakeholder Perspectives will inform and better ground both current and future debates focused on the topic of responsible gambling and its intended outcomes. Chapters address responsible gambling from the perspective of five groups of complementary stakeholders: scientists/researchers; clinicians; gambling operators; public policy makers/regulators; and recovering gamblers. Contributors address responsible gambling through the lens of the Reno Model, an approach that emphasizes the importance of stakeholders working together and using evidence-based methods to reduce gambling-related harms. Building upon and expanding the Reno Model and addressing conflicts and ethical compromises so that these programs can achieve their intended objectives (reducing the worldwide rate of gambling-related harms), Responsible Gambling will be of value to scientists, clinicians, policy makers, regulators, and industry operators interested in responsible gambling strategies and activities.

Mother of Sorrows Richard McCann, 2011-04-13 With the breadth and cumulative force of a novel, *Mother of Sorrows* presents ten interwoven stories of an American family starting out in the post—World War II suburbs of Washington, D.C., a world of identical brick houses and sunstruck, treeless lawns, a world of initial hopefulness from which shame and loss have seemingly been banished. This is the story of two adolescent brothers whose father has suddenly died, and of their beautiful and complicated mother, a mother whom the younger son worshipfully imagines as “Our Mother of the Sighs and Heartaches . . . Our Mother of the Gorgeous Gypsy Earrings . . . Our Mother of the Late Movies and the Cigarettes . . . Our Mother of Sudden Attentiveness . . . Our Mother of Sudden Anger.” This is the brother who narrates these tales as he looks back thirty years later, the only remaining survivor of a world he seeks both to leave behind and to preserve in words forever, a world

of sorrow that has held him spellbound even as he has attempted to create a life of his own. Suffused with the beauty of Richard McCann's extraordinary language, *Mother of Sorrows* introduces us to a voice that is urgent, contemplative, elegant, angry, revelatory, and like no other in contemporary fiction.

Lifeline Shireen Jeejeebhoy, 2007-10 Thirty-four-year-old Judy Taylor relished her simple, happy life. She had a loving husband, three young daughters, and a beautiful home. But after intestinal blood clots annihilated her digestive system, Judy was left with the certainty of starving to death in a cold Toronto hospital. The year was 1970, and most doctors still considered long-term intravenous feeding to be science fiction. As a last resort, Judy's surgeons turned to a radical young immigrant

doctor who had performed groundbreaking research on artificial feeding methods for humans. Together, Judy and Dr. Khursheed Jeejeebhoy agreed that Judy's only hope was to become a human test subject. For the next twenty years, Judy and Dr. Jeej worked to develop and hone the medical procedures for Total Parenteral Nutrition (TPN), which became the basis for modern intravenous feeding. With courage and determination, Judy raised her family and led a fulfilling life despite being the subject of experimental medicine. Lifeline tells her inspiring true story and intimately reveals the miraculous link between science and the resilience of the human spirit.
