Sport Mega-Events in Emerging Economies Gonzalo A. Bravo, David J. Shonk, Jorge Silva-Bórquez, Silvana González-Mesina, 2019-05-09 Chile and the South American Games of Santiago 2014 offers an interesting case to examine an event of sizeable magnitude in a country with little history of hosting sport mega-events (SMEs). This case study will expand the readers understanding of third-order SMEs like the South American Games and highlight the circumstances under which they occur. It also contributes to advance and challenge our knowledge as to what extent previous findings made on impact, legacies, justifications, and challenges identified on larger scale SMEs hosted in the developed world, inform the process and outcomes of second or third-order SMEs organized in less developed countries. This monograph is suitable for scholars and practitioners who want to expand their knowledge on sport event planning outside the rim of the global north. It is an essential read for scholars and graduate students in policy studies, sociology, international business, sport and event management, and tourism and hospitality. Likewise, it is an important resource for event planners, government officials, event rights holders, and sport destination marketers involved with the planning of sport mega-events across the world.

Authoritarian Capitalism Richard W. Carney, 2018-04-26 Since 1945, the liberal-democratic model of capitalism spread across the globe, ultimately prevailing over communism. Over the past two decades, a new statist-authoritarian model has begun diffusing across East Asia. Rather than rejecting capitalism, authoritarian leaders harness it to uphold their rule. Based on extensive research of East Asia's largest corporations and sovereign wealth funds, this book argues that the most aggressive version of this model does not belong to China. Rather, it can be found in Malaysia and Singapore. Although these countries are small, the implications are profound because one-third of all countries in the world possess the same type of regime. With an increasing number of these authoritarian regimes establishing sovereign wealth funds, their ability to intervene in the corporate sectors of other countries is rapidly expanding.

Asian Corporate Governance Toru Yoshikawa, 2018-03-22 This Element aims to achieve three objectives. First, it explores some key institutional characteristics of several Asian economies that are relevant to corporate governance practices. Second, it reviews corporate governance codes or rules in those economies and examines levels of requirements in terms of formal rules. Third, this Element looks at recent trends related to corporate

governance such as executive compensation and a proportion of independent directors on boards of large listed firms.

The Olympian Craig T. Williams, 2010-10 I dare greatly, and I shall live my life as no ordinary man bound by a game of chance. John Baxter Taylor Running is his sacred ritual. As his legs gracefully carry him around the track at the University of Pennsylvania, he feels the wind in his face and freedom at his back. It is 1905, and John Baxter Taylor Jr. is three years away from representing the United States at the Olympic Games in London, where he will become the first African American Gold Medalist in Olympic Game history. Taylor does everything in his power to live an uncommon life and overcome the barriers that block his path. As he transforms himself from a skinny boy who pushes his fellow athletes to their limits to one of the best quarter-milers in the world, he beats not only his competitors on the track, but his detractors in the classroom. He earns a degree in veterinary medicine; he becomes a member of the first black fraternity; he wins Olympic gold. Whatever paths he treads, John Taylor Jr. transcends prejudice of race and social class to earn his place among those rare people we call champions. This compelling historical novel the story of one man's unyielding determination to achieve his dream despite seemingly insurmountable obstacles will inspire you to remember that glory does not die, but is passed on to the next person willing to carry the torch in their heart.

A History of American Sports in 100 Objects Cait Murphy, 2016-10-11 Beautifully designed and carefully curated, a fascinating collection of the things that shaped the way we live and play in America What artifact best captures the spirit of American sports? The bat Babe Ruth used to hit his allegedly called shot, or the ball on which Pete Rose wrote, I'm sorry I bet on baseball? Could it be Lance Armstrong's red-white-and-blue bike, now

tarnished by doping and hubris? Or perhaps its ancestor, the nineteenth-century safety bicycle that opened an avenue of previously unknown freedom to women? The jerseys of rivals Larry Bird and Magic Johnson? Or the handball that Abraham Lincoln threw against a wall as he waited for news of his presidential nomination? From nearly forgotten heroes like Tad Lucas (rodeo) and Tommy Kono (weightlifting) to celebrities like Amelia Earhart, Muhammad Ali, and Michael Phelps, Cait Murphy tells the stories of the people, events, and things that have forged the epic of American sports, in both its splendor and its squalor. Stories of heroism and triumph rub up against tales of discrimination and cheating. These objects tell much more than just stories about great games—they tell the story of the nation. Eye-opening and exuberant, *A History of American Sports in 100 Objects* shows how the games Americans play are woven into the gloriously infuriating fabric of America itself.

Contesting Identities Aaron Baker, 2003 Publisher's description: Since the earliest days of the silent era, American filmmakers have been drawn to the visual spectacles of sports and their compelling narratives of conflict, triumph, and individual achievement. In *Contesting Identities* Aaron Baker examines how these cinematic representations of sports and athletes have evolved over time—from *The Pinch Hitter* and Buster Keaton's *College* to *White Men Can't Jump*, *Jerry Maguire*, and *Girlfight*. He focuses on how identities have been constructed and transcended in American society since the early twentieth century. Whether depicting team or individual sports, these films return to that most American of themes, the master narrative of self-reliance. Baker shows that even as sports films tackle socially constructed identities such as class, race, ethnicity, sexuality, and gender, they ultimately underscore transcendence of these identities through self-reliance. In addition to discussing the genre's recurring dramatic tropes, from the populist prizefighter to the hot-headed rebel to the manly female athlete, Baker also looks at the social and cinematic impacts of real-life sports figures from Jackie Robinson and Babe Didrikson Zaharias to Muhammad Ali and Michael Jordan.

American International Pictures Rob Craig, 2019-02-19 *American International Pictures* was in many ways the missing link between big-budget Hollywood studios, poverty-row B-movie factories and low-rent exploitation movie distributors. AIP first targeted teen audiences with science fiction, horror and fantasy, but soon grew to encompass many genres and demographics—at times, it was indistinguishable from many of the major studios. From *Abby* to *Zontar*, this filmography lists more than 800 feature films, television series and TV specials by AIP and its partners and subsidiaries. Special attention is given to *American International Television* (the TV arm of AIP) and an appendix lists the complete AITV catalog. The author also discusses films produced by founders James H. Nicholson and Samuel Z. Arkoff after they left the company.

A Person-Centered Approach to Psychospiritual Maturation Jared D. Kass, 2017-10-06 This book addresses the need for maturational growth in undergraduate and entry-level graduate students as a foundation for professional and civic development. It presents an engaged learning curriculum for higher education, *Know Your Self*, which strengthens psychological resilience and interpersonal community-building skills through person-centered growth in five dimensions of self: bio-behavioral, cognitive-sociocultural, social-emotional, existential-spiritual, and resilient worldview formation. This growth promotes well-being and a positive campus culture, preparing students to build cultures of health, social justice, and peace in the social systems where they will work and live. This project emerged from Kass' professional work in humanistic psychology with Dr. Carl Rogers. Case studies and statistical data illustrate the formation of health-promoting, pro-social behaviors, culturally-inclusive community building, and secure existential attachment. This book will help faculty and student life professionals address the urgent need in young adults for person-centered psychospiritual maturation.

Making the American Team Mark Dyreson, 2024-04-22 Sport dominates television and the mass media. Politics and business are a-bustle with sports metaphors. Endorsements by athletes sell us products. Home run, slam dunk, and the rest of the vocabulary of sport color daily conversation.

Even in times of crisis and emergency, the media reports the scores and highlights. Marky Dyreson delves into how our obsession with sport came into being with a close look at coverage of the Olympic Games between 1896 and 1912. How people reported and consumed information on the Olympics offers insight into how sport entered the heart of American culture as part of an impetus for social reform. Political leaders came to believe in the power of sport to revitalize the republican experiment. Sport could instill a new sense of national identity that would forge a new sense of community and a healthy political order while at the same time linking America's intellectual and power elite with the experiences of the masses.

Olympic Pride, American Prejudice Deborah Riley Draper, Blair Underwood, Travis Thrasher, 2020-02-04 In this “must-read for anyone concerned with race, sports, and politics in America” (William C. Rhoden, New York Times bestselling author), the inspirational and largely unknown true story of the eighteen African American athletes who competed in the 1936 Berlin Olympic Games, defying the racism of both Nazi Germany and the Jim Crow South. Set against the turbulent backdrop of a segregated United States, sixteen Black men and two Black women are torn between boycotting the Olympic Games in Nazi Germany or participating. If they go, they would represent a country that considered them second-class citizens and would compete amid a strong undercurrent of Aryan superiority that considered them inferior. Yet, if they stayed, would they ever have a chance to prove them wrong on a global stage? Five athletes, full of discipline and heart, guide you through this harrowing and inspiring journey. There's a young and feisty Tidye Pickett from Chicago, whose lithe speed makes her the first African American woman to compete in the Olympic Games; a quiet Louise Stokes from Malden, Massachusetts, who breaks records across the Northeast with humble beginnings training on railroad tracks. We find Mack Robinson in Pasadena, California, setting an example for his younger brother, Jackie Robinson; and the unlikely competitor Archie Williams, a lanky book-smart teen in Oakland takes home a gold medal. Then there's Ralph Metcalfe, born in Atlanta and raised in Chicago, who becomes the wise and fierce big brother of the group. From burning crosses set on the Robinsons's lawn to a Pennsylvania small town on fire with praise and parades when the athletes return from Berlin, *Olympic Pride, American Prejudice* has “done the world a favor by bringing into the sunlight the unknown story of eighteen black Olympians who should never be forgotten. This book is both beautiful and wrenching, and essential to understanding the rich history of African American athletes” (Kevin Merida, editor-in-chief of ESPN's *The Undefeated*).
