Pires, 2021-07-08 Volume 2 of History of Construction Cultures contains papers presented at the 7ICCH - Seventh International Congress on Construction History, held at the Lisbon School of Architecture, Portugal, from 12 to 16 July, 2021. The conference has been organized by the Lisbon School of Architecture (FAUL), NOVA School of Social Sciences and Humanities, the Portuguese Society for Construction History Studies and the University of the Azores. The contributions cover the wide interdisciplinary spectrum of Construction History and consist on the most recent advances in theory and practical case studies analysis, following themes such as: - epistemological issues; - building actors; - building materials; - building machines, tools and equipment; - construction processes; - building services and techniques; - structural theory and analysis; - political, social and economic aspects; - knowledge transfer and cultural translation of construction cultures. Furthermore, papers presented at thematic sessions aim at covering important problematics, historical periods and different regions of the globe, opening new directions for Construction History research. We are what we build and how we build; thus, the study of Construction History is now more than ever at the centre of current debates as to the shape of a sustainable future for humankind. Therefore, History of Construction Cultures is a critical and indispensable work to expand our understanding of the ways in which everyday building activities have been perceived and experienced in different cultures, from ancient times to our century and all over the world.

Annals of His Time Domingo Francisco de San Antón Muñón Chimalpahin Cuauhtlehuanitzin, James Lockhart, Susan Schroeder, Doris Namala, 2006 The premier practitioner of the Nahuatl annals form was a writer of the early seventeenth century now known as Chimalpahin. This volume is the first English edition of Chimalpahin's largest work, written during the first two decades of the seventeenth century.

Codex Chimalpahin don Domingo de San Anton Munon Chimalpahin

Quauhtlehuanitzin, 2016-02-05 The Codex Chimalpahin, which consists of more than one thousand pages of Nahuatl and Spanish texts, is a life history of the only Nahua about whom we have much knowledge. It also affords a firsthand indigenous perspective on the Nahua past, present, and future in a changing colonial milieu. Moreover, Chimalpahin's sources, a rich variety of ancient and contemporary records, give voice to a culture long thought to be silent and vanquished. Volume Two of the Codex Chimalpahin represents heretofore-unknown manuscripts by Chimalpahin. Predominantly annals and dynastic records, it furnishes detailed histories of the formation and development of Nahua societies and polities in central Mexico over an extensive period. Included are the *Exercicio quotidiano* of Sahagun, for which Chimalpahin was the copyist, some unsigned Nahuatl materials, and a letter by Juan de San Antonio of Texcoco as well as a store of information about Nahua women, religion, ritual, concepts of conquest, and relations with Europeans.

The Report: Kuwait 2016 Oxford Business Group,2016-09-16 Home to the largest per capita reserves and fourth-largest total reserves of crude oil within OPEC, Kuwait's public finances have suffered in 2016 following the rapid decline in oil prices, which drove oil revenues down from \$108.6bn in 2013 to \$51.8bn in 2015. Despite this Kuwait has resisted significant budgetary cutbacks: spending levels in 2016 were cut by just 1.6%, and the considerable financial buffers built up from budget surpluses in the years leading up to 2014 are expected to cushion the budget deficit. The country continues to push ahead with key public investments, with Parliament allocating \$155bn to the Kuwait Development Plan 2015-20 to fund infrastructure, utilities and housing developments. The plan focuses on further integrating the private sector into areas of the economy traditionally under state control and aims to raise the non-oil sector's GDP contribution to 64% in 2015-20, up from an average of 45.1% in 2010-13. Elsewhere promising moves are being made to cut state subsidies, with the government opting to liberalise diesel and kerosene prices and reduce subsidies on aviation fuel in January 2015, generating savings equal to 0.3% of GDP.

Batcats Jack Sikora, 2003-11-10 Written by men who flew the missions and gathered together the recollections of their comrades, this is an account of the political, social, cultural, technical and combat context of an extraordinary side of the Vietnam conflict. An account touching on topics ranging from Thai supernaturalism to high tech warfare, it is also the very human story of American airmen obliged to keep heady secrets and perform demanding tasks under menacing conditions. A good read for aviation enthusiasts, students of the Vietnam War, veterans and those wishing to learn more about Southeast Asia, this book is more than a history. It is a holistic portrait of a little known and less understood aspect of the Vietnam era.
