In addition to these tricks of the trade, Journalism of Ideas features an extensive set of newsworthy, timely, and unorthodox story ideas to jumpstart your creativity. The conversation continues on the author's blog, College Media Matters. Reimold also shows students how to successfully launch a career in journalism: the ins and outs of pitching stories, getting your work published, and navigating the post-graduation job search. Race Against Time Jerry Mitchell,2021-02-02 “For almost two decades, investigative journalist Jerry Mitchell doggedly pursued the Klansmen responsible for some of the most notorious murders of the civil rights movement. This book is his amazing story. Thanks to him, and to courageous prosecutors, witnesses, and FBI agents, justice finally prevailed.” —John Grisham, author of The Guardians On June 21, 1964, more than twenty Klansmen murdered three civil rights workers. The killings, in what would become known as the “Mississippi Burning” case, were among the most brazen acts of violence during the civil rights movement. And even though the killers' identities, including the sheriff's deputy, were an open secret, no one was charged with murder in the months and years that followed. It took forty-one years before the mastermind was brought to trial and finally convicted for the three innocent lives he took. If there is one man who helped pave the way for justice, it is investigative reporter Jerry Mitchell. In Race Against Time, Mitchell takes readers on the twisting, pulse-racing road that led to the reopening of four of the most infamous killings from the days of the civil rights movement, decades after the fact. His work played a central role in bringing killers to justice for the assassination of Medgar Evers, the firebombing of Vernon Dahmer, the 16th Street Church bombing in Birmingham and the Mississippi Burning case. Mitchell reveals how he unearthed secret documents, found long-lost suspects and witnesses, building up evidence strong enough to take on the Klan. He takes us into every harrowing scene along the way, as when Mitchell goes into the lion's den, meeting one-on-one with the very murderers he is seeking to catch. His efforts have put four leading Klansmen behind bars, years after they thought they had gotten away with murder. Race Against Time is an astonishing, courageous story capturing a historic race for justice, as the past is uncovered, clue by clue, and long-ignored evils are brought into the light. This is a landmark book and essential reading for all Americans.

Lavender in Your Lemonade Chris Erskine,2020-08-29 Chris Erskine is the master of domestic dramedy. For three decades in the Los Angeles Times, Erskine's columns explored modern fatherhood and family life, from the absurd to the mundane, the sublime to the heartbreaking. Now, with Lavender in Your Lemonade: A Funny and Touching COVID Diary, he tackles the New Normal with his chronicle of daily life under the frustrating, terrifying, and sometimes antic strictures of a world-wide pandemic. No, it's not funny. And yet somehow, in Erskine's hands, it is. Or at least it feels more tolerable. With elegant prose and an eye for telling detail, Erskine draws simple truths from the infinite complexities of the human condition, eight hundred words at a time. In the great tradition of Erma Bombeck, Mike Royko, Dave Barry, and Bob Greene, Erskine shows us ourselves in a funhouse mirror.

**The Journalism Breakdown** Shane Tilton,2020-10-15 One of the issues facing journalists is a lack of training that focuses on creating editorial content with the changes to media platforms, economic models, and the mode of communicating with their audience. There is a lack of guidance on how to apply their storytelling style and lessons from college with newer content management systems and fragmented journalism workflows. There is a need for journalists to gain mastery in performing the series of non-routine tasks that will face them in the future. Journalists entering the job market must have a level of social intelligence to understand the changing nature of audiences and their news consumption habits. New journalists must also apply critical thinking practices and creative problem-solving skills toward the complex news-gathering process.The Journalism Breakdown integrates praxis and research

from journalism, social psychology, computer science, and visual communication along with the best practices from media organizations to provide skills and techniques to apply essential journalism practices to the dynamic and often chaotic world of the newsroom. Parts of the lessons from this book will teach the reader how to use flexible thinking, a growth mindset, solution-focused thinking, audience awareness, and community engagement to craft stories worth reading now and the future.

*College* Andrew Delbanco,2023-04-18 The strengths and failures of the American college, and why liberal education still matters As the commercialization of American higher education accelerates, more and more students are coming to college with the narrow aim of obtaining a preprofessional credential. The traditional four-year college experience—an exploratory time for students to discover their passions and test ideas and values with the help of teachers and peers—is in danger of becoming a thing of the past. In *College*, prominent cultural critic Andrew Delbanco offers a trenchant defense of such an education, and warns that it is becoming a privilege reserved for the relatively rich. In describing what a true college education should be, he demonstrates why making it available to as many young people as possible remains central to America’s democratic promise. In a brisk and vivid historical narrative, Delbanco explains how the idea of college arose in the colonial period from the Puritan idea of the gathered church, how it struggled to survive in the nineteenth century in the shadow of the new research universities, and how, in the twentieth century, it slowly opened its doors to women, minorities, and students from low-income families. He describes the unique strengths of America’s colleges in our era of globalization and, while recognizing the growing centrality of science, technology, and vocational subjects in the curriculum, he mounts a vigorous defense of a broadly humanistic education for all. Acknowledging the serious financial, intellectual, and ethical challenges that all colleges face today, Delbanco considers what is at stake in the urgent effort to protect these venerable institutions for future generations.

*Combustible/burn* Andrew Silver,2002 Combustible/Burn is the inspirational play about young people finding their faith challenged, finding their moral centers broadened, and finding their courage strengthened to defeat hatred at any cost. From 1948 to 1956, a small group of devout students at Mercer University in Macon, Georgia, attempted to topple segregation. Energized by a daring, visionary professor, G. McLeod Mac Bryan. they stood against fellow students, parents, community, and denomination in their support of desegregation in their school, in their town, and in their community. These remarkable students protested Klan meetings, broke segregation laws on buses and in parks, joined integrated communes and summer camps, invited African Americans into their classrooms and into their homes, and preached integration in black and white churches. For their active compassion, these idealistic Christian students found themselves disciplined, fired, and jailed.

*Edward Steichen in High Fashion* William A Ewing,Todd Brandow,2008-10-14 Steichen was already a famous painter and photographer on both sides of the Atlantic when, in early 1923, he was offered one of the most prestigious positions, and certainly the most lucrative, in photography’s commercial domain, that of chief photographer for Conde Nast’s influential and highly regarded magazines *Vogue* and *Vanity Fair*. Over the next fifteen years. Steichen produced a body of work of unequaled brilliance, putting his exceptional talents and prodigious energies to work dramatizing and glamorizing contemporary culture and its achievers, in politics, literature, sports, dance, theater, opera, and, above all, the world of high fashion. The Steichen archive at Conde Nast contains more than 2000 original prints. Several of the images are well known, prominently featured in various histories of photographs. Until now, however, no more than a handful of these prints has been exhibited or published. The 1920s and 1930s represent the high point in Steichen’s photographic career, and the work he did for *Vogue* and *Vanity Fair* encompasses some of the most striking creations of twentieth-century photography.--BOOK JACKET.
