Green Street Park USCCB Department of Justice, Peace, and Human Development,2015-02-26 Award-Winner in the Children's Picture Book: Softcover Fiction category of the 2015 International Book Awards Green Street Park contains colorful pictures and an engaging story that helps children understand important lessons of how to work for justice and peace and to help those in need. This is a story about Philip who loves his neighborhood. However an area of the Green Street Park is in need of improvement. Philip learns about how St Francis of Assisi loved God’s world and cared for it. His teacher, Sr. Mary Clare, challenges Philip to act as St Francis would. As you listen to the story, think about how you would feel and what you might do if you were Philip. Blackline Masters for Green Street Park include lessons for grades K, 1, and 2.

Torsors, Reductive Group Schemes and Extended Affine Lie Algebras Philippe Gille,Arturo Pianzola,2013-10-23 The authors give a detailed description of the torsors that correspond to multiloop algebras. These algebras are twisted forms of simple Lie algebras extended over Laurent polynomial rings. They play a crucial role in the construction of Extended Affine Lie Algebras (which are higher nullity analogues of the affine Kac-Moody Lie algebras). The torsor approach that the authors take draws heavily from the theory of reductive group schemes developed by M. Demazure and A. Grothendieck. It also allows the authors to find a bridge between multiloop algebras and the work of F. Bruhat and J. Tits on reductive groups over complete local fields.

The Logic of Action: Applications and criticism from the Austrian School Murray Newton Rothbard,1997 The second volume of The Logic of Action, this text is a selection of Rothbard's scholarly articles. It was his ambition to show the scientific status of the Austrian School and, at the same time, demonstrate the theory's radical, free-market implications for government policy.

The Understanding of Causation and the Production of Action Peter Anthony White,2018-10-24 This text is an attempt to trace out a line of development in the understanding of how things happen, from origins in infancy to mature forms in adulthood. There are two distinct but related ways in which people understand things as happening, denoted by the terms causation and action. This book is concerned with both.; The central claim and organizing principle of the book is that, by the end of the second year of life, children have differentiated two core theories of how things happen. These theories deal with causation and action. The two theories have a common point of origin in the infant's experience of producing actions, but thereafter diverge, both in content and in realm of application. Once established, the core theories of causation and action never change, but form a permanent metaphysical underpinning on which subsequent developments in the understanding of how things happen are erected. The story of development is therefore largely the story of how further concepts become attached to integrated with the core theories. Although the developmental and adult literatures on causal understanding appear at first glance to have little in common, in fact this appearance is illusory, and the idea of two theories helps to bring the two literatures in contact with each other.; The book begins with a survey of the main philosophical ideas about causation and action. Following this, the possible origins of understanding in infancy are reviewed, and separate chapters then deal with the development of understanding of action and causation through childhood. This is then linked to the adult understanding of action and causation, and the literature on adult causal attribution and causal judgement is reviewed from this perspective.

A Civil Action Jonathan Harr,2011-08-10 #1 NATIONAL BESTSELLER • NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • The true story of one man so determined to take down two of the nation's largest corporations accused of killing children from water contamination that he risks losing everything. The legal thriller of the decade. —Cleveland Plain Dealer Described as “a page-turner filled with greed, duplicity, heartache, and bare-knuckle legal brinksmanship by The New York Times, A Civil Action is the searing, compelling tale of a legal system gone awry—one in which greed and power fight an unending struggle against justice. Yet it is also the story of how one man can ultimately make a difference. Representing the bereaved parents, the unlikeliest of heroes emerges: a young, flamboyant Porsche-driving lawyer who hopes to win millions of dollars and ends up nearly losing everything, including his sanity. With an unstoppable narrative power reminiscent of Truman Capote’s In Cold Blood, A Civil Action is an unforgettable reading experience that will leave the reader both shocked and enlightened. A Civil Action was made into a movie starring John Travolta and Robert Duvall.
