This new edition of *Getting Things Done* will be welcomed not only by its hundreds of thousands of existing fans but also by a whole new generation eager to adopt its proven principles.

Ready for Anything David Allen, 2004-12-28 In his bestselling first book, *Getting Things Done*, veteran coach and management consultant David Allen presented his breakthrough methods to increase efficiency. Now "the personal productivity guru" (Fast Company) shows readers how to increase their ability to work better, not harder—every day. Based on Allen's highly popular e-newsletter, *Ready for Anything* offers readers 52 ways to immediately clear your head for creativity, focus your attention, create structures that work, and take action to get things moving. Make Time Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of *Sprint* comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (Insider, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake

and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Take Control of Your Productivity Jeff Porten, 2020-03-25 Increase Productivity and Reduce Stress! Version 1.1, updated 03/25/2020 Being productive is never as simple as putting items on a calendar or to do list and checking them off. Most of us struggle with too much to do, too little time, and only a vague idea of how to plan each day so we can achieve the best results with the least stress. If that sounds like you (and especially if you've tried a bunch of productivity systems and found them lacking), Jeff Porten's expert guidance may be just what you need. As a professional technology consultant and an early adopter of both hardware and software, Jeff has tried nearly every productivity management system out there, and experimented with dozens of implementation styles. He brings his decades of experience to this book, helping you create a customized strategy that's ideal for your needs, and—crucially—avoid common mistakes. Whether you're a productivity junkie or someone who has struggled for years with a cobbled-together, informal task-management system, this book will help you get a much better grip on your personal and business time. In this book, you'll:

- Review the principles of successful planning—whether for immediate projects or for long-term and someday goals.
- Understand your natural working style and preferences, including comfortable habits that may not be productive but that you don't want to change, and create a more effective workflow that fits you.
- Discover the best ways to think about projects, tasks, events, due dates, flags, contexts, and more.
- Choose a task-management app that's appropriate for your needs, no matter what devices and operating systems you use, and that integrates with your calendar, reminders, notes, and the apps you use to actually do things.
- Develop a step-by-step process for tracking all your events and tasks and ensuring that everything happens in the right order.
- Transition from an old system to your new system without worrying that anything will fall through the cracks.
- Learn exactly how to keep track of all the things you need to remember throughout the day.
- Improve your time-estimation skills when planning how long future tasks and projects will take.
- Solve the problem of “10-minute tasks” that become all-day projects because they have a dozen things you discover you need to do first.
- Get better at managing other people (and their expectations of you).
- Review how well your productivity system has worked over time, using feedback loops and suggested best practices to continually improve your workflow.
- Fail successfully! If something goes wrong—from a derailing large project to a life-changing crisis—learn how to recover gracefully and improve your system the next time around.
- Know when and how to make changes to meet any new needs you have, and to ensure that what you do every Tuesday at 2 PM contributes to your overarching goals and most important roles in life.

Although many of the examples in the book refer to Mac productivity tools, the advice is platform-neutral. The book contains tips applicable to any combination of operating systems, and a companion webpage provides additional details on apps running on Mac, Windows, iOS, Android, and the web.
