Ionic Attraction D.R. Rosensteel,2020-01-06 Zach's got a secret. The only reason he's agreed to an internship at the Mastermind Complex, a high-tech academy for teens, is to use their supercomputer to find the person who framed him. He never stole anything but was locked up in juvie anyway. Now he's out, he's got a plan, and nothing will get in his way...not even the girl he's been partnered with, who excels at proving opposites attract. Jane's got a secret. She was the informant who led to Zach's arrest. Did she mean for that to happen? No way. And now she has to work with him to save the world. Because an "internship" at the Mastermind Complex is actually a program to train super-geniuses as soldiers in a war of the minds. Zach's and Jane's intellectual skills complement each other, making them an unbeatable pair. She can't resist their ionic attraction, but if he ever discovers the truth, she'll lose him forever. And worse, breaking their partnership would mean sacrificing all the innocent lives depending on them.

Predator - The Unofficial Guide to the Movie Franchise Nick Naughton, 2023-10-20 Predator is a product of the last great era of Hollywood action films - the eighties. A decade of bone crunching blood splattered foul mouthed blockbuster epics (Robocop, The Terminator, Die Hard, Commando) that wouldn't know what a PG-13 rating was if it skewered them with a spear and ripped their spinal column out to keep as a trophy (as the Predator is apt to do on occasion). In this book we'll take a deep dive into the original Predator and all the sequels it spawned. We'll discuss all of these films in this book and we shall also - of course - discuss the two AvP pictures too. We'll look at the background of each film, the development of them, and discuss worked and what didn't in the actual movie.

That's just one of numerous ad lib or almost accidental elements added to the film which make it such a memorable modern classic. When Die Hard premiered in July 1988 John McClane didn't just become a fly in Hans Gruber's ointment, he heralded in a new era of action movies, inspired countless knock-off action movies best described as Die Hard in a or Die Hard on a copcats, and created a franchise that spanned five decades (if you include the 2020 Die Hard battery commercial). Six-Gun Law - Westerns of the 1950s: The Classic Years Barry Atkinson, There are no two ways about it-the 1950s was the decade in which the American Western flourished and attained an absolute peak of perfection. So cowboy, saddle up, strap on your shooters, grab your rifle, and get ready to ride into a hot, dusty and highly dangerous universe populated by not-so-good guys bent on vengeance, cowardly townsfolk, bad hombres, rebellious Native Americans, glamorous dames in distress, evil land-grabbers, corrupt saloon owners, masked raiders, outlaw gangs, rustlers, psychotic villains, bank and stage holdups, train robberies, wagon trains under attack, cattle barons

feuding with sheep farmers, ghost towns, gripping gunfights, bruising fistfights, crooked town officials, stand-alone lawmen, gun-toting ladies, cold-hearted killers, stampeding cattle and horses, comical sidekicks, cavalry battles, engaging 10-year-olds as tough as the adults, lone, trigger-happy strangers met with slit-eyed suspicion and towns where trouble lurks on every dusty street corner, all set against America's striking natural scenery and mostly shot with an expertise unknown to a generation of 21st-century moviegoers fed on a never-ending diet of CGI-dominated movies with nary a Stetson or horse in sight. The 1950s was the decade in which Western movies thrived and reigned supreme; this volume hopefully, and conclusively, sets out to prove it. Six-Gun Law 3 covers 446 movies, contains over 450 photos, and is an essential reference for every Western fan.

The Classical Hollywood Reader Steve Neale, 2012-11-12 The Classical Hollywood Reader brings together essential readings to provide a history of Hollywood from the 1910s to the mid 1960s. Following on from a Prologue that discusses the aesthetic characteristics of Classical Hollywood films, Part 1 covers the period between the 1910s and the mid-to-late 1920s. It deals with the advent of feature-length films in the US and the growing national and international dominance of the companies responsible for their production, distribution and exhibition. In doing so, it also deals with film making practices, aspects of style, the changing roles played by women in an increasingly business-oriented environment, and the different audiences in the US for which Hollywood sought to cater. Part 2 covers the period between the coming of sound in the mid 1920s and the beginnings of the demise of the 'studio system' in late 1940s. In doing so it deals with the impact of sound on films and film production in the US and Europe, the subsequent impact of the Depression and World War II on the industry and its audiences, the growth of unions, and the roles played by production managers and film stars at the height of the studio era. Part 3 deals with aspects of style, censorship, technology, and film production. It includes articles on the Production Code, music and sound, cinematography, and the often neglected topic of animation. Part 4 covers the period between 1946 and 1966. It deals with the demise of the studio system and the advent of independent production. In an era of demographic and social change, it looks at the growth of drive-in theatres, the impact of television, the advent of new technologies, the increasing importance of international markets, the Hollywood blacklist, the rise in art house imports and in overseas production, and the eventual demise of the Production Code. Designed especially for courses on Hollywood Cinema, the Reader includes a number of newly researched and written chapters and a series of introductions to each of its parts. It concludes with an epilogue, a list of resources for further research, and an extensive bibliography.
