Find out how to integrate the infrastructure-as-a-service (IaaS) and platform-as-a-service (PaaS) models with your existing business infrastructure while maximizing availability, ensuring continuity and safety of your data, and keeping costs to a minimum. The book starts with an introduction to Microsoft Azure and how it differs from Office 365—Microsoft’s ‘other’ cloud. You'll also get a useful overview of the services available. Part II then takes you through setting up your Azure account, and gets you up-and-running on some of the core Azure services, including creating web sites and virtual machines, and choosing between fully cloud-based and hybrid storage solutions, depending on your needs. Part III now takes an in-depth look at how to integrate Azure with your existing infrastructure. The authors, Anthony Puca, Mike Manning, Brent Rush, Marshall Copeland and Julian Soh, bring their depth of experience in cloud technology and customer support to guide you through the whole process, through each layer of your infrastructure from networking to operations. High availability and disaster recovery are the topics on everyone’s minds when considering a move to the cloud, and this book provides key insights and step-by-step guidance to help you set up and manage your resources correctly to optimize for these scenarios. You’ll also get expert advice on migrating your existing VMs to Azure using InMage, mail-in and the best 3rd party tools available, helping you ensure continuity of service with minimum disruption to the business. In the book’s final chapters, you’ll find cutting edge examples of cloud technology in action, from machine learning to business intelligence, for a taste of some exciting ways your business could benefit from your new Microsoft Azure deployment.

Disease Signs In The Iris Theodor Kriege,A.W. Priest,2011-11-30 Disease Signs in the Iris is intended for those who already have knowledge of the basic principles of irisdiagnosis. Part 1 is a translation from the German of the original work on iris interpretation by Theodor Kriege: Krankheitszeichen in der Iris. The disease signs are considered and explained as shown in original iris photographs. With few exceptions the conditions depicted have been confirmed by special methods of diagnosis, such as radiographic and blood investigations, as well as by the findings of surgical operations. The monochrome photographs especially highlight the structural changes and contrast values. The original text has been translated by A.W. Priest, and in Part 2 he correlates the iris findings with appropriate herbal and biochemical medication.

Dao and Sign in History Daniel Fried,2018-10-29 Provides a new perspective on important linguistic issues in philosophical and religious Daoism through the comparative lens of twentieth-century European philosophies of language. From its earliest origins in the Dao De Jing, Daoism has been known as a movement that is skeptical of the ability of language to fully express the truth. While many scholars have compared the earliest works of Daoism to language-skeptical movements in twentieth-century European philosophy and have debated to what degree early Daoism does or does not resemble these recent movements, Daniel Fried breaks new ground by examining a much broader array of Daoist materials from ancient and medieval China and showing how these works influenced ideas about language in medieval religion, literature, and politics. Through an extended comparison with a broad sample of European philosophical works, the book explores how ideas about language grow out of a given historical moment and advances a larger argument about how philosophical and religious ideas cannot be divided into “content” and “context.” Daniel Fried is Associate Professor of Chinese and Comparative Literature at the University of Alberta, and is President of the Association of Chinese and Comparative Literature.
