The teaching guides (Prep - 6) include the following features: Outcomes and indicators clearly stated; Key vocabulary and material requirements; Detailed guidance on introducing and teaching the mathematical concepts and skills; Two photocopiable activity cards for each unit; The Activity Bank supplies a range of differentiated activities for consolidation, practice and extension; Easy-to-manage assessment with an assessment work sheet for each unit. -- Back cover.

100 Days of Money, Fractions, & Telling the Time Humble Math, 2022-04 100 days of practice counting money (Australian Currency), learning fractions, and telling the time. Three core maths topics that students often need additional help to master. (Answer Key Included) Start by counting groups of coins that have a value of a dollar or less. Slowly learn to count greater amounts of money that include small and large notes too. Add and subtract values, and even learn to make change. Learn fractions one step at a time. Start with simple fractions and eventually learn to add and subtract mixed numbers. Telling the time is one of the more difficult concepts for children to learn. Gradually progress from learning to tell hours, to quarter hours. Eventually tell time in five minute and minute increments. This is a great workbook to start out with. Most students will grasp the concepts within each of the three sections. If a student still needs more practice, Humble Math has workbooks that provide additional practice for these concepts too.

Primary Grade Challenge Math Edward Zaccaro, 2003-06-01 Offers a higher level of material that goes beyond calculation skills for children in the primary grades.
