Living-Learning Communities in Practice Karen Kurotsuchi Inkelas,Mimi Benjamin,Jody E. Jessup-Anger,2024-05-08 This book offers a roadmap for developing, growing, and sustaining living-learning communities (LLCs) that promote student success and enhance the undergraduate experience. Drawing on the Best Practices Model presented in *Living-Learning Communities That Work*, as well as updated research and rich, real-life examples from LLC administrators, the authors offer a revised and improved model for effective LLC practice. Nuanced typologies guide stakeholders in developing and growing their own programs, from the foundational, to the intermediate, and to the advanced level. This text features an extended section on the assessment of LLCs, complete with a logic model for integrating program assessment with student learning outcomes, and concludes with lessons learned from the COVID-19 pandemic and a look into the future of LLCs in higher education. At a time when colleges and universities struggle to create community for students, this book will be a valuable resource to practitioners, researchers, and institutional leaders to more effectively allocate resources to create and sustain LLCs and to realize the potential of these communities to improve undergraduate education. Identity in Supervision Roger 'Mitch' Nasser,2023-06-01 This book will discuss the intersection of personal identity, professional identity, and positionality with supervision techniques. The structure of the text will outline historical contexts to supervision, development of models, connection to identity, and impact of position while providing a framework for self-reflection. Various populations including new professionals, middle managers, senior administrators, faculty, and graduate students will connect to the themes of the text. Readers will benefit from self-reflection, review, and understanding. Identity in Supervision: Understanding Who Works for You and Who You Work for in Higher Education, will introduce faculty, staff, administrators, and graduate students in higher education to the intersection of identity and positionality to the supervision experience. Specifically, this publication centers on understanding the people behind the positions and how best to support them. The text is constructed in four sections. Section 1: Understanding Supervision in Higher Education contains chapters, which provide an overview of supervision. This overview is essential as later chapters examine specific populations and positions. Section 2: The Impact of Identity on Supervision in Higher Education includes chapters, which ask readers to reflect on how their own identities impact their supervision experience and the experience of their colleagues. Section 3: The Impact of Professional Experience on supervision reviews the specific needs of professionals at different experience levels. Readers will improve their understanding of both those they supervise and their supervisors. Finally, Section 4: The Impact of Functional Area on Supervision contains chapters reviewing the specific needs of professionals in positions in residence life, academic advising, judicial affairs, etc. Supervisors will find this section useful in understanding and supporting these professionals. Each chapter will conclude with two or three reflection questions supporting application. As a result of engaging with this text, readers will be better equipped to understand the impact of identity, experience, and functional area on supervision. They will learn techniques to improve their current practice, reflect on their own needs, and combine ideas from chapters to provide a better experience for all employees. ENDORSEMENTS: Higher education and student affairs professionals deserve skilled supervisors. Our organizations rely on excellence from professionals and yet, the preparation of supervisors has been sorely lacking in this field. Roger 'Mitch' Nasser, and the contributors of this text, weave together a compelling set of resources and insights that help supervisors and those who report to them to think through how to best build a good relationship. This text can and should be used by professionals at all levels to inform our practice. This resource balances theory, practice, story, and inspiration to progress the field into a new way of honoring the identities that inform the critical relationship between staff and supervisor. — Molly A.

From the sharing of personal narrative, to the deep review of theories on supervision, this book brings the perfect blend of theory and practice to the forefront of our work. It is a “must have” on your shelf for reference and use. — Laura L. Arroyo, University of Colorado Boulder

Changing Identities in Higher Education Ronald Barnett,Roberto Di Napoli,2007-09-12 In this timely and innovative book scholars from Europe, the UK, North America and Australia, explore their own sense of identity, reflecting both on their research and scholarly interests, and their work experiences. Taking the form of a debate, Changing Identities in Higher Education helps to widen the contemporary space for debates on the future of higher education itself. The book is split into three parts: part one presents a set of essays each on a set of identities within higher education (academic, student, administrative/managerial and educational developers). part two includes responses to Part one from authors speaking from their own professional and scholarly identity perspective part three illustrates perspectives on the identities of students, provided by students themselves. With its original, dialogic form and varied content, this book is of interest to all those concerned in current debates about the state and nature of higher education today and those interested in questions of identity. It makes especially useful reading for students of higher education, lecturers in training, academics and managers alike.

Flux April Rinne,2021-08-24 Discover eight powerful mindset shifts that enable leaders and seekers of all ages to thrive in a time of unprecedented change and uncertainty. Being adaptable and flexible have always been hallmarks of effective leadership and a fulfilling life. But in a world of so much—and faster-paced—change, and an ever-faster pace of change, flexibility and resilience can be stretched to their breaking points. The quest becomes how to find calm and lasting meaning in the midst of enduring chaos. A world in flux calls for a new mindset, one that treats constant change and uncertainty as a feature, not a bug. Flux helps readers open this mindset—a flux mindset—and develop eight “flux superpowers” that flip conventional ideas about leadership, success, and well-being on their heads. They empower people to see change in new ways, craft new responses, and ultimately reshape their relationship to change from the inside out. April Rinne defines these eight flux superpowers: • Run slower. • See what's invisible. • Get lost. • Start with trust. • Know your “enough.” • Create your portfolio career. • Be all the more human (and serve other humans). • Let go of the future. Whether readers are sizing up their career, reassessing their values, designing a product, building an organization, trying to inspire their colleagues, or simply showing up more fully in the world, enjoying a flux mindset and activating their flux superpowers will keep readers grounded even when the ground is too often shifting beneath them.
