The Reign of Adad-nīrārī III Luis Robert Siddall,2013-07-11 In The Reign of Adad-nīrārī III, Luis Siddall examines and re-evaluates the records, events and representations of the Assyrian king who ruled from 810-783 BCE.

Bronze Age Bureaucracy Nicholas Postgate,2013 This book describes ten different government archives of cuneiform tablets from Assyria, using them to analyze the social and economic character of the Middle Assyrian state, as well as the roles and practices of writing. The tablets, many of which have not been edited or translated, were excavated at the capital, Assur, and in the provinces, and they give vivid details to illuminate issues such as offerings to the national shrine, the economy and political role of elite households, palace etiquette, and state-run agriculture. This book concentrates particularly on how the Assyrian use of written documentation affected the nature and ethos of government, and compares this to contemporary practices in other palatial administrations at Nuzi, Alalah, Ugarit, and in Greece.

Adad Hannah Adad Hannah,2012 Widely recognized for his video-recorded tableaux vivants that reconfigure iconic moments in art and history, Adad Hannah investigates the complex issues proposed by art of the 21st century: our relationship to history, the relationship between art and the institution, the relationship between art and community, and the function of the contemporary voice and body in the experience of art. Original essays by curators, critics, artists and journalists consider the past ten years of Hannah's production from unique and personal vantage points. Illustrated with works from the instigating exhibition along with works produced for some of the world's major art institutions, this monograph provides the first-ever career overview of the work of Adad Hannah

Life at the Bottom of Babylonian Society Jonathan S. Tanny,2011-07-12 Life at the Bottom of Babylonian Society is a study of the population dynamics, family structure, and legal status of publicly-controlled servile workers in Kassite Babylonia. It compares some of the demographic aspects proper to this group with other intensively studied past populations, such as Roman Egypt, Medieval Tuscany, and American slave plantations. It suggests that families, especially those headed by single mothers, acted as a counter measure against population reduction (flight and death) and as a means for the state to control this labor force. The work marks a step forward in the use of quantitative measures in conjunction with cuneiform sources to achieve a better understanding of the social and economic forces that affected ancient Near Eastern populations.

Weather Omens of Enūma Anu Enlil Erlend Gehlken,2012-08-03 This book presents the second half of the weather section of Enūma Anu Enlil, a Mesopotamian omen series dealing with the stars, sun, moon, and weather. It attained particular importance when scholars used it to explain phenomena to Assyrian kings.

The Conflict Myth and the Biblical Tradition Debra Scoggins Ballentine,2015-05-01 There are many ancient West Asian stories that narrate the victory of a

warrior deity over an enemy, typically a sea-god or sea dragon, and his rise to divine kingship. In The Conflict Myth and the Biblical Tradition, Debra Scoggins Ballentine analyzes this motif, arguing that it was used within ancient political and socio-religious discourses to bolster particular divine hierarchies, kings, institutions, and groups, as well as to attack others. Situating her study of the conflict topos within contemporary theorizations of myth by Bruce Lincoln, Russell McCutcheon, and Jonathan Z. Smith, Ballentine examines narratives of divine combat and instances of this conflict motif. Her study cuts across traditional disciplinary boundaries as well as constructed time periods, focusing not only on the Hebrew Bible but also incorporating Mesopotamian, early Jewish, early Christian, and rabbinic texts, spanning a period of almost three millennia - from the eighteenth century BCE to the early middle ages CE. The Conflict Myth and the Biblical Tradition advances our understanding of the conflict topos in ancient west Asian and early Jewish and Christian literatures and of how mythological and religious ideas are used both to validate and render normative particular ideologies and socio-political arrangements, and to delegitimize and invalidate others.

Principles of Akkadian Textual Criticism Martin Worthington,2012-07-30 Errors of many kinds abound in Akkadian writings, but this fact's far-reaching implications have never been unraveled and systematized. To attempt this is the aim of this book. Drawing on scholarship from other fields, it outlines a framework for the critical evaluation of extant text and the formulation of conjectural emendations. Along the way, it explores issues at the interface of orthography, textual transmission, scribal education, grammar, literacy, and literary interpretation.

Der Anu-Adad-Tempel in Assur Peter Werner,1909 English summary: Hans Peter Werner's work comprises the first complete analysis of the entire corpus of excavation records for the area around the Anu-Adad temple in Assur. This reexamination of the building complex offers new insights into the construction and architecture of the temple and the smaller artifacts found within the temple as well as the construction history and the operational life of the sanctuary. This study contains photographs from the excavation documents, which are published here for the first time. The history of the excavation from the very beginning of archeological research is further illuminated in this volume with previously unpublished watercolor reconstructions of the Anu-Adad temple as well as customized sectional drawings by Walter Andrae that offer a number of views through the temple. As a result of the architectural descriptions provided in the book, two new possible reconstructions for the temple layout are also presented. This volume offers a complete catalog of the more than 2,400 objects from the temple and its immediate environs, of which only about 96 objects have been represented in previous publications, and nearly all of the objects are visualized graphically in this work. The artifact catalog can, for the most part, key individual objects that have received attention in previous publications to the specific object groups in the catalog. German description: Hans Peter Werners Werk beinhaltet die erste vollstandige Auswertung der gesamten Grabungsdokumentation fur den Bereich des Anu-Adad-Tempels. Die Neubearbeitung des Gebaudekomplexes liefert neue Erkenntnisse uber den Aufbau und die Architektur des Tempels, uber die darin geborgenen Kleinfunde sowie uber die Baugeschichte und die Nutzungsdauer des Heiligtums. Daruber hinaus werden Fotos aus der Grabungsdokumentation erstmals publiziert. Zusammen mit bislang unveroffentlichten farbigen Rekonstruktionsaquarellen und von Walter Andrae angefertigten Schnittzeichnungen durch den rekonstruierten Tempel wird auch ein Aspekt der Grabungsgeschichte aus den Anfangen der archaologischen Untersuchungen am Anu-Adad-Tempel beleuchtet. Als Ergebnis der Architekturbeschreibung

werden zwei neue Rekonstruktionsvorschlage fur den Tempelgrundriss vorgelegt. Mit diesem Band erfolgt erstmalig - bisher waren nur ca. 96 Objekte publiziert - eine vollstandige Prasentation der mehr als 2.400 Kleinfunde aus dem Tempel und seiner unmittelbaren Umgebung, wobei nahezu jedes Objekt bildlich dokumentiert ist. Im Katalog der Kleinfunde konnte der grosste Teil der Objekte mit bereits vorliegenden Publikationen zu den einzelnen Objektgruppen verbunden werden.
