**Musket Ball Murder** Leslie Langtry, 2020-03-24 From USA Today bestselling author Leslie Langtry comes a Civil War reenactment, a missing body, and one ex-CIA agent turned Girl Scout Troop leader with hilarious results! Merry Wrath has a problem. Her Girl Scout Troop co-leader has signed them up to participate in a Civil War reenactment based on the little-known Battle of Idiot Creek. In full 19th century costume, Merry is just hoping she can keep her troop out of trouble. Unfortunately, things start to fall apart immediately—from the cannon the kids buy with her credit card, to one girl sneaking off at night to beat the other reenactors at poker, to avoiding a rumble between her troop and the haughty Magnolia Girls. But things take a sharp turn for the worse when a real human leg appears in the pretend amputation tent...only to disappear while Merry's guarding it. The rest of the body doesn't seem to exist, making Merry wonder if she's losing her mind... or if there's a murderer among them. To complicate things, Merry's ex CIA handler, Riley, appears as a dashing cavalry officer investigating a real case, her married best friend is swooning over the Sam Elliot-like Provost, and during the battles, a tiny Union soldier appears to be running guerrilla ops that weren't in the script. With a group of soldiers threatening Merry, the Sheriff refuses to investigate, and the danger mounting, can Merry prove that there was a murder before the reenactment ends? **It Was Me All Along** Andie Mitchell, 2015-01-06 A yet heartbreakingly honest, endearing memoir of incredible weight loss by a young food blogger who battles body image issues and overcomes food addiction to find self-acceptance. All her life, Andie Mitchell had eaten lustily and mindlessly. Food was her babysitter, her best friend, her confidant, and it provided a refuge from her fractured family. But when she stepped on the scale on her twentieth birthday and it registered a shocking 268 pounds, she knew she had to change the way she thought about food and herself; that her life was at stake. *It Was Me All Along* takes Andie from working class Boston to the romantic streets of Rome, from morbidly obese to half her size, from seeking comfort in anything that came cream-filled and two-to-a-pack to finding balance in exquisite (but modest) bowls of handmade pasta. This story is about much more than a woman who loves food and abhors her body. It is about someone who made changes when her situation seemed too far gone and how she discovered balance in an off-kilter world. More than anything, though, it is the story of her finding beauty in acceptance and learning to love all parts of herself.

**Thinking in Systems** Donella Meadows, 2008-12-03 The classic book on systems thinking—with more than half a million copies sold worldwide! This is a fabulous book... This book opened my mind and reshaped the way I think about investing.—Forbes *Thinking in Systems* is required reading for anyone hoping to run a successful company, community, or country. Learning how to think in systems is now part of change-agent literacy. And this is the best book of its kind.—Hunter Lovins In the years following her role as the lead author of the international bestseller, *Limits to Growth*—the first book to show the consequences of unchecked growth on a finite planet—Donella Meadows remained a pioneer of environmental and social analysis until her untimely death in 2001. *Thinking in Systems* is a concise and crucial book offering insight for problem solving on scales ranging from the personal to the global. Edited by the Sustainability Institute's Diana Wright, this essential primer brings systems thinking out of the realm of computers and equations and into the tangible world, showing readers how to develop the systems-thinking skills that thought leaders across the globe consider critical for 21st-century life. Some of the biggest problems facing the world—war, hunger, poverty, and environmental degradation—are essentially

system failures. They cannot be solved by fixing one piece in isolation from the others, because even seemingly minor details have enormous power to undermine the best efforts of too-narrow thinking. While readers will learn the conceptual tools and methods of systems thinking, the heart of the book is grander than methodology. Donella Meadows was known as much for nurturing positive outcomes as she was for delving into the science behind global dilemmas. She reminds readers to pay attention to what is important, not just what is quantifiable, to stay humble, and to stay a learner. In a world growing ever more complicated, crowded, and interdependent, Thinking in Systems helps readers avoid confusion and helplessness, the first step toward finding proactive and effective solutions.

**Start with Why** Simon Sinek, 2011-12-27 The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

**Mythical Me** Richella Parham, 2019-10-22 IVP Readers' Choice Award Do you ever find yourself stuck in the comparison trap? Speaker and author Richella Parham knows what this feels like. I couldn't break free from admiring one person's achievements, someone else's personality, another's skills, yet another's relationships. And don't get me started on how I looked at other people's appearances, she writes. I was haunted by the admirable attributes of other people, certain that I could never match their worthiness. No matter how well-intentioned the teaching or pithy the advice, I found that most of it didn't help me change my thoughts, feelings, or actions. While there are no easy answers, Parham has identified cultural and spiritual myths about others, God, and ourselves that keep us trapped. From there the journey is a spiritual one. We can pick up practices that help us walk in the freedom of Christ with confidence in ourselves. If you've ever suffered from tortured moments of comparison on Facebook, in the office, or in the hallway at church, you'll benefit from this fresh perspective.

**Draft No. 4** John McPhee, 2017-09-05 The long-awaited guide to writing long-form nonfiction by the legendary author and teacher Draft No. 4 is a master class on the writer’s craft. In a series of playful, expertly wrought essays, John McPhee shares insights he has gathered over his career and has refined while teaching at Princeton University, where he has nurtured some of the most esteemed writers of recent decades. McPhee offers definitive guidance in the decisions regarding arrangement, diction, and tone that shape nonfiction pieces, and he presents extracts from his work, subjecting them to wry scrutiny. In one essay, he considers the delicate art of getting sources to tell you what they might not otherwise reveal. In another, he discusses how to use flashback to place a

bear encounter in a travel narrative while observing that “readers are not supposed to notice the structure. It is meant to be about as visible as someone’s bones.” The result is a vivid depiction of the writing process, from reporting to drafting to revising—and revising, and revising. Draft No. 4 is enriched by multiple diagrams and by personal anecdotes and charming reflections on the life of a writer. McPhee describes his enduring relationships with The New Yorker and Farrar, Straus and Giroux, and recalls his early years at Time magazine. Throughout, Draft No. 4 is enlivened by his keen sense of writing as a way of being in the world.
