The Art of Studio Gainax Dani

Cavallaro,2015-01-27 Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre-straddling, self-reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio's achievements provides a critical overview of both the company and its films: in-depth examinations of particular titles that best represent the company's overall work, including television series such as Nadia: The Secret of Blue Water and Neon Genesis Evangelion, and feature films such as Royal Space Force: The Wings of Honneamise and Gunbuster vs. Diebuster. Each chapter highlights the contribution made by a specific production to the company's progress.

All the Wrong Moves Sasha Chapin,2019-08-13 An enthralling journey into the world of chess--a story of heartbreak, obsession, failure, and the hunger for greatness Sasha Chapin is a victim of chess. Like countless amateurs before him--Albert Einstein, Humphrey Bogart, Marcel Duchamp--the game has consumed his life and his mind. First captivated by it as a member of his high school chess club, his passion was rekindled during an accidental encounter with chess hustlers on the streets of Kathmandu. In its aftermath, he forgot how to care about anything else. He played at all hours, for weeks at a time. Like a spurned lover,

he tried to move on, but he found the game more seductive the more he resisted it. And so, he thought, if he can't defeat his obsession, he had to succumb to it. All the Wrong Moves traces Chapin's rollicking two-year journey around the globe in search of glory. Along the way, he chronicles the highs and lows of his fixation, driven on this quest by lust, terror, and the elusive possibility of victory. Stylish, inventive, and laugh-out-loud funny, All the Wrong Moves is a celebration of the purity, violence, and beauty of the game.

The Psychology of All Addictions (and Pathways to Treatment) Steven T. Griggs, Ph.D., 2016-09-01 I have been a practicing psychologist in an outpatient setting for over thirty-two years. I run into the same issues and problems almost every day--addictions, anxiety, assertiveness, anger problems, divorce, weight management, parenting, children and teenager's behaviors, mood disorders, relationships, self-esteem, guilt, forgiveness, procrastination and ADHD/learning disabilities. This ebook is about the first subject. In it, I take you through the steps I go through to diagnose and treat addictions--ANY addiction. I start out with a NEW concept--the Universal Self-Test for Addictions (USTA). It's a self-test you can score for yourself or someone you suspect has an addiction. It comes with complete instructions for scoring and interpretation. In this ebook, I answer a LOT of questions. Here they are: What are the short and long definitions of addiction? What are the four major diagnostic components? What are the four additional concepts that define it? What are the symptoms? What four psychiatric illnesses mimic addiction? What are the six major addictions? (Hint: Alcohol, Drugs, Gambling, Sex, Food, and Internet or Internet-related things) What are some other addictions? (I came up with 73...) What are the seven categories and five schedules of drugs? What are the current statistics for each addiction? How are all addictions the same or different? What are the myths and facts? What are the seven stages of

developing an addiction? (Another NEW concept: The Addiction Developmental Continuum) What are the causes of addiction? Habit or disease? Triggers? What happens next? (Another NEW concept: The Addiction Reflex) What happens to the brain? What are the seven stages of treatment? Which is better? 12-Step Programs? Smart Recovery? Individual Therapy? Questions to get started--46 things to ask in treatment. What are the five most helpful therapeutic aids? The deep stuff: Family-of-origin relationships, relationships with others, Self-Esteem. Cognitive Behavioral considerations: the relationship of thoughts and the emotions that follow, your moods and last, the relationship between your thoughts, emotions, mood and behavior. What if you live with an addict? What to do? Lastly, there is a section on quotes, followed by a lengthy bibliography. Like my other publications, this ebook has no fat, but is full of the latest info plus new, original concepts. Nobody has published what I present as the glue that makes the addiction concept really work. I think this is why my ebooks do a better job. The theory I espouse builds on the standard explanations in this field but now offers many new ideas. These new concepts pull the whole idea of addiction together so it makes sense. It works. I know, because I've been using it with clients for years. Want to know what it is and how to deal with it? Want to be able to really understand how it came to be and how to exactly assess where you are in developing or not developing an addiction? Want to understand someone else who has an addiction? This ebook is for you.

Dopamine Nation Dr. Anna Lembke, 2023-01-03
INSTANT NEW YORK TIMES and LOS ANGELES TIMES
BESTSELLER “Brilliant . . . riveting, scary,
cogent, and cleverly argued.”—Beth Macy, author of
Dopesick, as heard on Fresh Air This book is about
pleasure. It’s also about pain. Most important,
it’s about how to find the delicate balance
between the two, and why now more than ever
finding balance is essential. We’re living in a
time of unprecedented access to high-reward, high-
dopamine stimuli: drugs, food, news, gambling,
shopping, gaming, texting, sexting, Facebooking,
Instagramming, YouTubing, tweeting . . . The
increased numbers, variety, and potency is
staggering. The smartphone is the modern-day
hypodermic needle, delivering digital dopamine
24/7 for a wired generation. As such we’ve all
become vulnerable to compulsive overconsumption.
In Dopamine Nation, Dr. Anna Lembke, psychiatrist
and author, explores the exciting new scientific
discoveries that explain why the relentless
pursuit of pleasure leads to pain . . . and what
to do about it. Condensing complex neuroscience
into easy-to-understand metaphors, Lembke
illustrates how finding contentment and
connectedness means keeping dopamine in check. The
lived experiences of her patients are the gripping
fabric of her narrative. Their riveting stories of
suffering and redemption give us all hope for
managing our consumption and transforming our
lives. In essence, Dopamine Nation shows that the
secret to finding balance is combining the science
of desire with the wisdom of recovery.
