Republic of Croatia International Monetary Fund,2003-08-15 Croatia has made important strides in restoring robust economic growth and achieving price stability while continuing to strengthen its net international reserves position under the Stand-By Arrangement. Executive Directors welcomed this development, and stressed the need to improve fiscal consolidation, accelerate structural reforms, tighten monetary stance, and maintain the soundness of the banking system. They appreciated the budget, foreign exchange, labor laws, and emphasized the need to focus on public enterprise restructuring and privatization, and promote Croatia's European Union membership bid.

Introduction to the Hospitality Industry Tom Powers,Clayton W. Barrows,1999-02-22 An abridged paperback edition of the acclaimed Introduction to Management in the Hospitality Industry, Sixth Edition, this popular resource covers all aspects of the hotel, foodservice, restaurant, and travel and tourism businesses, including operations, marketing, and sales. As in previous editions, the management functions covered in the larger text have been excluded. Reflecting the latest trends in this rapidly changing industry, it stresses problem-solving tools rather than answers and industry-wide trends rather than facts and figures

People as Merchandise Josef Kadlec,2013-05-13 DO NOT READ THIS BOOK UNLESS YOU WANT TO BECOME A WORLD-CLASS HEADHUNTER If you want to make significant improvements in your recruitment results and become a member of the top, world headhunters, follow this unorthodox LinkedIn recruitment guide. So-called 'social recruitment' is an inevitable trend in today's recruitment business, and LinkedIn is simply the main part of it. This book reveals many shortcuts and tricks everybody was afraid to unleash, including: How to uncover any full LinkedIn profile view without upgrading to premium How to override the limit of LinkedIn invitations How to search through LinkedIn groups you cannot join How to use search engines to scan LinkedIn for candidates How to automate candidate sourcing How to track the steps of your competition on LinkedIn No matter if you are a recruiter, headhunter, HR personnel, entrepreneur or startuppreneur, this book will help you to: Dramatically increase the efficiency of your recruitment activities Skyrocket the volume of reachable candidates Significantly cut costs of hiring new employees People as Merchandise, with its no-nonsense pragmatic approach, is an indispensable tool for today's recruitment professionals and entrepreneurs. -- Barbara Corcoran, founder of The Corcoran Group, author, and investor on ABC's Shark Tank Josef's book excels where others fail. I highly recommend it to any HR and staffing professional. -- Horst Gallo, Director HR at IBM People as Merchandise is not another vague guide, rather a piece of art among recruitment manuals. Definitely a no-brainer for all recruiters. -- Jeanne E. Branthover, Managing Director at Boyden and the World's Most Influential Headhunter by BusinessWeek Learn more at: www.PeopleAsMerchandise.com

It's about Time Phyllis Moen,2018-08-06 How do two-career couples manage in a one-career world?It's about Time examines this mismatch between outdated scripts and the experiences of dual-earner couples. It broadens our understanding of occupational and family career strategies couples use in light of the widening gap between their real lives and the outdated work-hour and career-path roles, rules, and regulations they confront.

It's about Time draws on the data from the Cornell Couples and Careers Study to demonstrate that: *Regardless of income, time is a scarce commodity in dual-earner households. With two jobs, two commutes, often long work hours, high job demands, business travel, several cars, children, ailing relatives, and/or pets - time is always an issue. *Time is built into jobs and career paths in ways that make continuous full-time (40 or typically more hours a week) paid work a fact of life in American society. *The multiple strands of life—career, family and personal—unfold over time. Spouses move through their life courses in tandem, with early choices - to have children or not, to work long hours or not, to switch jobs or not, to relocate for his or her career or not—all having long-term consequences for life quality and for gender inequality. The evidence from this book suggests that it is about time for the United States to confront the realities and needs of contemporary working couples and indeed, all members of the new workforce. To do so requires more than Band-Aid, short-term (and often short-sighted) policy remedies. It's about Time argues that it is essential to re-imagine and reconfigure work hours, workweeks, and occupational career paths in ways that address the widening gaps between the time needs and goals of workers and their families, at all ages and stages of the life course.

Transforming Disability into Ability Policies to Promote Work and Income Security for Disabled People OECD, 2003-02-10 This book examines a wide array of labour market and social protection programmes aimed at people with disabilities and analyses the relationship between policies and outcomes across twenty OECD countries.

The Global Innovation Index 2014 Cornell University, INSEAD, World Intellectual Property Organization, Soumitra Dutta, Bruno Lanvin, Sacha Wunsch-Vincent, 2014 The Global Innovation Index ranks the innovation performance of 143 countries and economies around the world, based on 81 indicators. This edition explores the role of the individuals and teams behind the innovation process. It sheds light on different aspects of human capital required to achieve innovation, including skilled labor; the intersection of human, financial and technological capital; talent retention; and the mobilization of highly educated people.

The Global Innovation Index 2015 Cornell University, INSEAD, World Intellectual Property Organization, 2015 The Global Innovation Index ranks the innovation performance of 141 countries and economies around the world, based on 79 indicators. This edition explores the impact of innovation-oriented policies on economic growth and development. High-income and developing countries alike are seeking innovation-driven growth through different strategies. Some countries are successfully improving their innovation capacity, while others still struggle.

Negotiating Our Way Up Collective Bargaining in a Changing World of Work OECD, 2019-11-18 Collective bargaining and workers' voice are often discussed in the past rather than in the future tense, but can they play a role in the context of a rapidly changing world of work? This report provides a comprehensive assessment of the functioning of collective bargaining systems and workers' voice arrangements across OECD countries, and new insights on their effect on labour market performance today.

A Theory of Local Entrepreneurship in the Knowledge Economy Pierre-André Julien, 2008-01-01 The principal audience for this book seems to be deliberately and most certainly an academic one; that said, those practitioners from a business management or central/local government support-agency background might also find the text a useful resource. Intrinsically, those employed teaching and researching within the fields of entrepreneurship or regional economic development will find this publication an invaluable and indispensable reference tool. . . After an excellent, cohesive and

informative introductory chapter, which places the book firmly in the field of regional entrepreneurship theory development, the reader is effortlessly prepared for the intellectually challenging read ahead. . . this book is well laid out and it is easy for the reader to pick up the thread of the argument, even after a lay-off. The endnotes after each chapter are useful and comprehensive, adding richness to the text through the additional information. The bibliography is as comprehensive as it is exhaustive. . . Professor Julien has given us a book that presents both an interesting and alternative perspective to the field of entrepreneurial cross-disciplinary research. Paul J. Ferri, *International Journal of Entrepreneurial Behaviour and Research* . . . it is my view that this book gives a very important contribution for the understanding of development of local entrepreneurship, through its cross-disciplinary approach. I see the book is especially interesting from an entrepreneurship and a regional development perspective. . . this book should inspire research that takes a more holistic approach using different levels of analysis and applies it to economic development at a local/territorial level, when studying entrepreneurship. Einar Lier Madsen, *International Small Business Journal* The reader who is interested in entrepreneurship and/or regional development will find this book a welcome contribution to the field. Rainer Harms, *Entrepreneurship and Innovation* For too long, researchers have regarded local dynamism as the result of the actions of certain entrepreneurs. If this were the case, how could we explain the simultaneous presence of winning , stagnating or declining areas with very similar socioeconomic profiles within the same region? Departing from this restrictive and somewhat inadequate approach, Pierre-André Julien considers entrepreneurship as a collective behaviour specifically related to the dynamism of the milieu in which it develops. The author introduces a complex, innovative theory of local entrepreneurship, demonstrating that the emergence of new ventures and the development of existing enterprises cannot be understood without taking into account certain factors: locale, social capital, networking and entrepreneurial culture within a given area are all crucial to entrepreneurial growth. Expanding upon this theory, the book demonstrates how entrepreneurship can be fostered in order to support collective development. Various forms of partnership among socioeconomic actors are then analysed to highlight the social conventions and entrepreneurial culture that connect and intensify the energies at the root of local dynamism. This highly original book represents a departure from entrepreneurship literature that is largely limited to the study of entrepreneurs behaviour. Its dynamic presentation of holistic theory will prove an extremely absorbing read for those with an academic or professional interest in business and management, entrepreneurship and regional development.

Book of Tennis Chris Bowers,2001-12 A user-friendly companion for the tennis fan, for players at any level and for the person working in tennis. It combines a guide through the history and current day international structure of tennis, along with a mine full of useful information and contacts.

Collective Agreements Susan Hayter,Jelle Visser,2018 Collective bargaining involves a process of negotiation between one or more unions and an employer or employers' organisation(s). The outcome is a collective agreement that defines terms of employment - typically wages, working hours and in-work benefits. The agreement affords labour protection: minimum wages, regular earnings; limits on working hours and predictable work schedules; safe working environments; parental leave and sick leave; and a fair share in the benefits of increased productivity. The International Labour Organization (ILO) *Collective Agreements Recommendation 1951 (No. 91)* considers, where appropriate and having regard to national practice, that measures should be taken to extend the application of all or some provisions of a collective agreement to all employers and workers included within the domain of the agreement. The extension of a collective agreement generalises the terms and conditions of employment, agreed between

organised firms and workers, represented through their association(s) and union(s), to the non-organised firms within a sector, occupation or territory. The collection of chapters in this volume are about the extension of collective agreements as an act of public policy.

Automation, Skills and the Future of Work: What do Workers Think? Mr. Carlos Mulas-Granados, Richard Varghese, Vizhdan Boranova, Alice deChalendar, Judith Wallenstein, 2019-12-20 We exploit a survey data set that contains information on how 11,000 workers across advanced and emerging market economies perceive the main forces shaping the future of work. In general, workers feel more positive than negative about automation, especially in emerging markets. We find that negative perceptions about automation are prevalent among workers who are older, poorer, more exposed to job volatility, and from countries with higher levels of robot penetration. Perceptions over automation are positively viewed by workers with higher levels of job satisfaction, higher educational attainment, and from countries with stronger labor protection. Workers with positive perceptions of automation also tend to respond that re-education and retraining will be needed to adapt to rapidly evolving skill demands. These workers expect governments to have a role in shaping the future of work through protection of labor and new forms of social benefits. The demand for protection and benefits is more significant among women and workers that have suffered job volatility.

Merchants of Labour International Labour Office, International Institute for Labour Studies, 2006 More workers are crossing national borders to look for jobs than ever before. Many migrants seek overseas employment with the help of agents or intermediaries. These merchants of labour include relatives who finance a migrant's trip, provide housing and arrange for a job abroad; public employment services; and private recruitment agencies. They also comprise an insalubrious underworld of smugglers and traffickers. The agents who recruit and deploy migrant workers are at the heart of the evolving migration infrastructure, i.e. the network of business and personal ties that is creating a global labour market. This book highlights best practices in the activities and regulation of these merchants of labour as well as innovative strategies to protect migrant workers, underlining the contribution of ILO standards. It covers a broad range of national and regional experiences and puts merchants of labour in the wider context of changing employment relationships in globalizing labour markets. The papers it contains are an important contribution to understanding a major mechanism facilitating the growth of the migrant labour force.

OECD Employment Outlook 2008 OECD, 2008-07-18 This 2008 edition of OECD's annual report on labour markets brings the reader detailed information on recent labour market developments, as well as in-depth analysis of the effects of various policy measures and prospects through 2009.

The Fourth Industrial Revolution Klaus Schwab, 2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine "smart factories" in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic

materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

The Price of Rights Martin Ruhs, 2015-02-22 Many low-income countries and development organizations are calling for greater liberalization of labor immigration policies in high-income countries. At the same time, human rights organizations and migrant rights advocates demand more equal rights for migrant workers. The Price of Rights shows why you cannot always have both. Examining labor immigration policies in over forty countries, as well as policy drivers in major migrant-receiving and migrant-sending states, Martin Ruhs finds that there are trade-offs in the policies of high-income countries between openness to admitting migrant workers and some of the rights granted to migrants after admission. Insisting on greater equality of rights for migrant workers can come at the price of more restrictive admission policies, especially for lower-skilled workers. Ruhs advocates the liberalization of international labor migration through temporary migration programs that protect a universal set of core rights and account for the interests of nation-states by restricting a few specific rights that create net costs for receiving countries. The Price of Rights analyzes how high-income countries restrict the rights of migrant workers as part of their labor immigration policies and discusses the implications for global debates about regulating labor migration and protecting migrants. It comprehensively looks at the tensions between human rights and citizenship rights, the agency and interests of migrants and states, and the determinants and ethics of labor immigration policy.
