**Insurgent Empire** Priyamvada Gopal, 2019-06-25 Much has been written on the how colonial subjects took up British and European ideas and turned them against empire when making claims to freedom and self-determination. The possibility of reverse influence has been largely overlooked. *Insurgent Empire* shows how Britain's enslaved and colonial subjects were not merely victims of empire and subsequent beneficiaries of its crises of conscience but also agents whose resistance both contributed to their own liberation and shaped British ideas about freedom and who could be free. *Insurgent Empire* examines dissent over the question of empire in Britain and shows how it was influenced by rebellions and resistance in the colonies from the West Indies and East Africa to Egypt and India. It also shows how a pivotal role in fomenting dissent was played by anti-colonial campaigners based in London at the heart of the empire.

**A Subaltern History of the Indian Diaspora in Singapore** John Solomon, 2016-03-31 Untouchable migrants made up a substantial proportion of Indian labour migration into Singapore in the nineteenth and twentieth centuries. During this period, they were subject to forms of caste prejudice and discrimination that powerfully reinforced their identities as untouchables overseas. Today, however, untouchability has disappeared from the public sphere and has been replaced by other notions of identity, leaving unanswered questions as to how and when this occurred. The untouchable migrant is also largely absent from popular narratives of the past. This book takes the disappearance as a starting point to examine a history of untouchable migration amongst Indians who arrived in Singapore from its modern founding as a British colony in the early nineteenth century through to its independence in 1965. Using oral history records, archival sources, colonial ethnography, newspapers and interviews, this book examines the lives of untouchable migrants through their everyday experience in an overseas multi-ethnic environment. It examines how these migrants who in many ways occupied the bottom rungs of their communities and colonial society, framed transnational issues of identity and social justice in relation to their experiences within the broader Indian diaspora in Singapore. The book traces the manner in which untouchable identities evolved and then receded in response to the dramatic social changes brought about by colonialism, war and post-colonial nationhood. By focusing on a subaltern group from the past, this study provides an alternative history of Indian migration to Singapore and a different perspective on the cultural conversations that have taken place between India and Singapore for much of the island's modern history.

Placing Internationalism Stephen Legg, Mike Heffernan, Jake Hodder, Benjamin Thorpe, 2021-11-04 Exploring how modern internationalism emerged as a negotiated process through international conferences, this edited collection studies the spaces and networks through which states, civil society institutions and anti-colonial political networks used these events to realise their visions of the international. Taking an interdisciplinary approach, contributors explore the spatial paradox of two fundamental features of modern internationalism. First, internationalism demanded the overcoming of space, transcending the nation-state in search of the shared interests of humankind. Second, internationalism was geographically contingent on the places in which people came together to conceive and enact their internationalist ideas. From Paris 1919 to Bandung 1955 and beyond, this book explores international conferences as the sites in which different forms of internationalism assumed material and social form. While international 'permanent institutions' such as the League of Nations, UN and Institute of Pacific Relations constantly negotiated national and imperial politics, lesser-resourced political networks also used international conferences to forward their more radical demands. Taken together these conferences radically expand our conception of where and how modern internationalism emerged, and make the case for focusing on internationalism in a contemporary moment when its merits are being called into question.

**The African Union** Timothy Murithi, 2017-07-12 The African Union was established in July 2002 by African leaders, evolving from the Organization of African Unity (OAU). However the idea of the African Union can be traced to the Pan-Africanist movement. Timothy Murithi looks at the emergence of Pan-Africanism and how it was institutionalized through the Pan-African Congress and the OAU. He argues that the African Union represents the third phase of the institutionalization of Pan-Africanism. The book examines the limitations of the OAU and discusses whether the African Union can adopt a more interventionist stance in dealing with peacebuilding and development in Africa. The volume assesses the African Union's peace and security institutions and analyzes how it is beginning to collaborate with civil society. It takes a critical look at the Union's New Partnership for Africa's Development (NEPAD) and argues that Africa needs to adopt a developmental and governance agenda that will be much more responsive towards improving the well-being and livelihood of its peoples.

*India and South Asia* David Ludden, 2013-11-01 A completely revised edition offering insight into the key economic, social and political developments that have shaped both the individual countries of South Asia and region as a whole Combining factual information with a critical approach which probes the nature of culture and identity, this concise yet authoritative account paints a graphic picture of an area stretching from the Indian Ocean to the Himalayan mountains. This new edition surveys nearly 5000 years, from the early settlers of prehistory to the assassination of Rajiv Gandhi and the Tamil Tiger conflicts. **Dementia Activist** Helga Rohra, 2016-07-21 What's happening to me?' Successful translator and linguist Helga Rohra was understandably good with words - that is, until she found herself getting in a muddle when she spoke. She started to forget the way home, even though she could remember her address. Her confusing symptoms increased and Helga was diagnosed with dementia at age 50 - but she hasn't let herself be labelled with the usual stereotypes. With entertaining vim Helga shows that her life is still as abundant and self-determined as ever, dismantling the negative stereotypes that often surround a dementia diagnosis. She speaks frankly and with humour about her diagnosis and life with young onset Lewy Body Dementia. She explains the changes in her everyday life and the challenges she faces, and shares practical tips that prove it is possible to live well with dementia. Helga also talks about her activism work, which has made hers one of the key voices internationally in dementia advocacy.

**Dalit Politics in Contemporary India** Sambaiah Gundimeda,2015-10-14 This book is a ground-breaking intervention on Dalit politics in India. Challenging received ideas, it uses a comparative framework to understand Dalit mobilisations for political power, social equality and justice. The monograph traces the emergence of Dalit consciousness and its different strands in north and south India — from colonial to contemporary times — and interrogates key notions and events. These include: the debate regarding core themes such as the Hindu-Muslim cleavage in the north and caste in the south; the extent to which Dalits and other backward castes (OBC) base their anti-Brahminism on similar ideologies; and why Dalits in Uttar Pradesh (north India) succeeded in gaining power while they did not do so in the region of erstwhile Andhra Pradesh (south India), where Dalit consciousness is more evolved. Drawing on archival material, fieldwork and case studies, this volume puts forward an insightful and incisive analysis. It will be of great interest to researchers and scholars of Dalit studies and social exclusion, Indian politics and sociology.
