*Playing the Game* Rainer Karlsch,Christian Kleinschmidt,Jörg Lesczenski,Anne Sudrow,2019-02 This history of adidas, one of the world's most innovative global companies, looks beyond the trademark three stripes to show how the company grew and evolved over time. Founded in a small town in Bavaria, Germany, the adidas brand has, for nearly a century, been outfitting international sports stars and pop culture icons such as David Beckham, Zinédine Zidane, and Run-DMC as well as everyday men, women, and children across the globe. The story of this evolution--illustrated with numerous historic photographs--is entwined with history, corporate trends, and the emergence of sports as a major factor in the world economy. Starting with the beginnings of the original Dassler brothers' company in the time of the Weimar Republic and National Socialism, this book reveals the first academically-based look at the history of the family and the adidas company which was officially founded in 1949 after the brothers' separation. Using a worldwide range of sources, the authors also examine brand strategies and globalization since the 1960s. Since its beginnings, the name 'adidas' has been shrouded in legend and, in this special look at the rise of a global company, readers will learn the true story behind the brand.

Sneaker Wars Barbara Smit,2009-03-17 Sneaker Wars is the fascinating true story of the enemy brothers behind Adidas and Puma, two of the biggest global brands of athletic footwear. But by the end of World War II a vicious feud had torn the Dasslers apart, dividing their company and their family and launching them down separate, often contentious paths. Out of the fires of their animosity, two rival sneaker brands were born, brands that would revolutionize the world of professional sports, sparking astonishing behind-the-scenes deals, fabulous ad campaigns, and multimillion-dollar contracts for pro athletes, from Joe Namath to Muhammad Ali to David Beckham.

Strategy is very important to the success and sustainability of any company. It involves understanding of the company's core capabilities, weaknesses, risks it faces and strengths and using them to design a sustainable competitive strategy. The paper begins by exploring how the main competitors in the sporting goods industry; Adidas and Nike used various strategies to survive and sustain their positions in the market. Both companies focused on broad differentiation. However, Adidas focused on design innovation, cost advantages, speed of production and enhancing attractiveness of its products. Nevertheless, Nike remains to be the market leader in sport footwear and apparel industry. To challenge Nike's position, Adidas must strive to penetrate Nike main market of North America, develop new markets in the emerging economies and while putting more investments in product and process innovations. The author also found that the company can consider strategic partnerships and greater use of technological applications such as CRM systems to enhance its competitiveness.

**Validating the social media strategies of adidas and Nike on Facebook and Instagram** Anna Lena Bischoff, 2017-03-03 Seminar paper from the year 2017 in the subject Business economics - Offline Marketing and Online Marketing, grade: 1,7, Linneaus University (School of Business and Economics), course: E-Business Management, language: English, abstract: Social media (SM) strategies have gained major importance for the retailers in the last decade. The effective use of SM channels for marketing purposes leads to valuable information and insights about markets. However, many managers still fail to understand the importance of the possibilities of SM usage for strengthening brand perception. This might be due to the lack of commonly agreed SM success factors in academic research. The purpose of this paper is to discuss SM success factors and to evaluate how the two world leading sports brands NIKE and adidas follow the application of the discussed success factors. Based on a literature review, the authors summarized the most commonly discussed SM success factors. Data collection was conducted in a consecutive, two step approach, first extracting relevant data from the annual reports, and then withdrawing data from the companies SM channels through text mining. The data was then analysed according to the success factors

summarized from academic literature. Also NIKE's and adidas' accomplishments in achieving their goals set in the annual reports on SM were examined. adidas achieves a higher success rate than NIKE in laying out their SM strategy. Both adidas and NIKE cannot entirely live up to their ambitions, underperforming on SM in practice.

**Valuating a German business - Case adidas** Anne-Kristin Rademacher, 2012-09-27 Research Paper (undergraduate) from the year 2012 in the subject Business economics - Investment and Finance, grade: 1,3, University of Applied Sciences Essen, course: Financial Management, language: English, abstract: Valuation of companies is done for many reasons. The evaluation of alternative strategies for decisions to sell or buy a company is the widest known purpose among literature. The alternatives can be categorized into three parts: mergers and acquisitions, succession and continuation. The former reflects the selling or buying decision of companies, and the acquisition of shares and mergers. Succession means management buyouts, whereas continuation refers to reorganization, monitoring of financial standing and liquidity flotation, investments but also divestments and spin offs (cf. Hansa & Dvorak 2007). Adidas has gone through several valuations already. In 1994 Adidas was sold for 1,350 million German Mark whereas in mid-1995 the company was already valued at 3,300 million German Mark when it was initially offered to public (cf. Die Welt 1995). As of December 31st 2010 the price for an Adidas share was 48.89 Euro (€), reflecting a 29.4% growth compared to 2009 (cf. Adidas 2011 a, p. 2). The following paper on hand values the German company Adidas as of December 2010 with help of the valuation methods Discounted Cash Flow in terms of equity and entity approach as well as the market oriented multiples. Both valuation methods are theoretical defined and later applied to Adidas.
