12 Simple Solutions to Save America John Patrick Burke, 2016 A nearly \$19 trillion debt. A 74,608-page tax code. An increase in global temperatures. A broken Social Security system. These are just some of the problems plaguing our nation. While politicians are quick to offer lip service, they are slow -- or non-existent -- with solutions. Americans are frustrated with the lack of leadership as evidenced by Congress' 10 percent approval rating. Now is the time for simple, bold changes that will alter the direction of this nation. Drawing on more than three decades of business experience, John Burke applies his tested problems-and-solutions approach and independent thinking to tackle the complex problems that America faces. In *12 Simple Solutions to Save America*, Burke proposes concrete solutions to fix these issues and challenges Americans to resist the status quo and change what elected officials are unwilling or unable to change. Americans have a civic duty to make the tough decisions that improve the lives of citizens over the long-term. It can be done, but it will not happen by accident.

Conference on Missions in Latin America Foreign Missions Conference of North America. Committee of Reference and Counsel, 1913

Dear America Graham Allen, 2021-08-10 A U.S. Army veteran and rising star in the conservative movement makes the case that the United States should look to the country as it was on September 12th, 2001 for lessons about our future. On the day after the World Trade Center was attacked,

Americans came together regardless of race, religion, or sexual orientation. We were united. On that day, nearly every store in the country sold out of American flags. After the events of the last eighteen months, from the Covid-19 pandemic to the constant attempts to divide us by race, Graham Allen believes that we should all look back on the events of 9/12 and remember what unites us. He believes that we do not all have to be the same, that it's okay not to agree on everything, but that we share a common history and a set of values. Just as the year 1776 serves as a reminder of our beginning, 9/12 will serve as a reminder of our present and future.

Francis Parkman: France and England in North America Vol. 2 (LOA #12) Francis

Parkman, 1983-07-04 This is the second of two Library of America volumes (the companion volume here) presenting, in compact form, all seven parts of Francis Parkman's monumental narrative history of the struggle for control of the American continent. Thirty years in the writing, Parkman's "history of the American forest" is an accomplishment hardly less awesome than the explorations and adventures he so vividly describes. The story reaches its climax with the fatal confrontation of two great commanders at Quebec's Plains of Abraham—and a daring stratagem that would determine the future of a continent. Count Frontenac and New France under Louis XIV (1877) details how France might have won her imperial struggle with England. Frontenac, a courtier who was made governor of New France by that most sagacious of monarchs, oversaw the colony's brightest era of growth and influence. Had Canada's later governors possessed his administrative skill and personal force, his sense of diplomacy and political talent, or his grasp of the uses of power in a modern world, the English colonies to the south might have become part of

what Frontenac saw as a continental scheme of French dominion. England's American colonies flourished, while France, in both the Old World and the New, declined from its greatness of the late seventeenth century. Conflict over the developing western regions of North America erupted in a series of colonial wars. As narrated by Parkman in *A Half-Century of Conflict* (1892), these American campaigns, while only part of a larger, global struggle, prepared the colonies for the American Revolution. In *Montcalm and Wolfe* (1884) Parkman describes the fatal confrontation of the two great French and English commanders whose climactic battle marked the end of French power in America. As the English colonies cooperated for their own defense, they began to realize their common interests, their relative strength, and their unique position. In this imperial war of European powers we also begin to see the American figures—Benjamin Franklin, George Washington—soon to occupy a historical stage of their own. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

After Steven Brill, 2003-04-07 The story begins on September 12, 2001. It reads like a novel. But the characters in award-winning journalist Steven Brill's *America* are real. They don't have all the answers or all the virtues of fictional heroes. It is because they are so human -- so much like the rest of us -- that makes the way they rise to the challenge of September 12 such an inspiring story

about how America really works. A Customs inspector somehow has to guard against a nuclear bomb that could be hidden in one of the thousands of cargo containers from all over the world sitting on his dock in New York harbor. A young woman in New Jersey, suddenly widowed with three young children, doesn't know how to get the keys to her husband's car, much less how she can challenge the head of a federal victims' fund. An entrepreneur in Silicon Valley, who makes machines that screen luggage for bombs, can't decide if this crisis is an opportunity he should seize. Attorney General John Ashcroft has no idea how to find the new, hidden enemy living among us. The young, just-hired director of the American Civil Liberties Union wonders how he can keep Ashcroft from going too far. The CEO of a giant insurer has to decide whether to risk economic panic by not paying damage claims that he might legally be able to avoid. Red Cross President Bernadine Healy has to figure out how to collect and allocate donations while dodging a hostile board of directors. Career civil servant Gale Rossides has to recruit and train the largest workforce ever hired by the government -- the new airport passenger screeners. A proprietor of a shoe repair shop -- helped by two young women, pro bono lawyers -- has to rebuild a business buried in the rubble of Ground Zero. A Detroit Border Patrol agent -- whose bosses want to fire him for speaking out about how unprotected his stretch of border is -- has to choose whether to risk his family's livelihood by sounding the alarm. Tom Ridge has to run through a bureaucratic wall to mount a true homeland security defense. Drawing on 347 on-the-record interviews and revelations from memos of government meetings, court filings, and other documents, Brill gives us a front-row seat as these and other players in this real-life drama cross paths in a series of alliances and

confrontations and fight for their own interests and their version of the public interest. The result is a gritty story -- and trailblazing journalism -- that inspires us not because these Americans or their country are perfect, but because they were tough enough, anchored enough, and living in a system that encouraged and enabled them to meet the awesome challenges they faced.

The Habits of Unity: 12 Months to a Stronger America...One Citizen at a Time Elaine Parke, MBA, CS, CM, NSA ,2021-08-27 Starting right now, today, you and I can build the momentum towards more equality and unity in America - while uplifting our own lives too. This is the win-win cliché of all time - together we don't fall down, we all lift up. If we haven't learned much else from social media, we've learned that shared thoughts, for good or bad, that are truth or fake truths, become powerful beyond measure when they reach lots of people at the same time and are repeated over and over again. This isn't a book ABOUT habits - it is a HABIT-FORMING book. When you take it home and begin your "one-minute-a day" habit building adventure, your life and your outlook will brighten. I hope you use your social media power to share the colorful monthly messages with others. Together, we can overcome the pain of a divided America with the power of goodness because it is in these aspects of our citizenship that we are all equal.

Making It in America John Bassett, Ellis Henican, 2016-05-10 Everyone knows you can't build things in America anymore. Everyone, that is, except John D. Bassett III. While one corporation after another exported their manufacturing to high-volume factories in low-wage locations overseas, Bassett's traditional wood bedroom furniture manufacturing company has not only survived, but thrived, making premium products right here in America. When everyone else was

rushing for the exits, Bassett bet on the talent, dedication, and uncompromising quality of American workmanship. And he won. In *Making It in America*, Bassett tells you the secrets that have made Vaughan-Bassett Furniture so successful doing what everyone said couldn't be done. Drawing on rich life experience, including the everyday challenges running a traditional manufacturing company, Bassett constructs a 12-point plan to achieve successful leadership in any business. These steps include: Have a winning attitude, respect your employees, don't panic, reinvest constantly, and make the best of the worst. Bassett's story is about how those values underpinned his personal success and how they can revitalize America itself. In the face of feckless leadership, crumbling infrastructure, and global competition, Bassett's story is a blueprint for how America can revitalize its role as leader of the free world and how your success can be part of it.

How to Slowly Kill Yourself and Others in America Kiese Laymon, 2020-11-10 A revised collection with thirteen essays, including six new to this edition and seven from the original edition, by the “star in the American literary firmament, with a voice that is courageous, honest, loving, and singularly beautiful” (NPR). Brilliant and uncompromising, piercing and funny, *How to Slowly Kill Yourself and Others in America* is essential reading. This new edition of award-winning author Kiese Laymon’s first work of nonfiction looks inward, drawing heavily on the author and his family’s experiences, while simultaneously examining the world—Mississippi, the South, the United States—that has shaped their lives. With subjects that range from an interview with his mother to reflections on Ole Miss football, Outkast, and the labor of Black women, these thirteen insightful essays highlight Laymon’s profound love of language and his artful rendering of experience, trumpeting why he is “simply one of the most talented writers in America” (New York magazine).
