How to Take Notes Harvey Elliot, 2021-02-21 Note-taking is one of those skills that rarely gets taught. Almost everyone assumes either that taking good notes comes naturally or, that someone else must have already taught about how to take notes. Then, we sit around and complain that our colleagues don't know how to take notes effectively. I figure it's about time to do something about that. Whether you're a student or a mid-level professional, the ability to take effective, meaningful notes is a crucial skill. Not only do good notes help us recall facts and ideas we may have forgotten, the act of writing things down helps many of us to remember them better in the first place. One of the reasons people have trouble taking effective notes is that they're not really sure what notes are for. I think a lot of people, students and professionals alike, attempt to capture a complete record of a lecture, book, or meeting in their notes - to create, in effect, minutes. This is a recipe for failure. Trying to get every last fact and figure down like that leaves no room for thinking about what you're writing and how it fits together. If you have a personal assistant, by all means, ask him or her to write minutes; if you're on your own, though, your notes have a different purpose to fulfill.

*Rethinking Authority in the Carolingian Empire* Rutger Kramer, 2019-02-11 By the early ninth century, the responsibility for a series of social, religious and political reforms had become an integral part of running the Carolingian empire. This became especially clear when, in 813/4, Louis the Pious and his court seized the momentum generated by their predecessors and broadened the scope of this correctio ever further. These reformers knew they constituted a movement greater than the sum of its parts; the interdependence of imperial authority and ecclesiastical reformers was driven by comprehensive, yet surprisingly diverse expectations. Taking this diversity as a starting point, this book takes a fresh look at these optimistic decades. Extrapolating from a series of detailed case studies rather than presenting a grand narrative, it offers new interpretations of contemporary theories of correctio, and shows the self-awareness of its main instigators as they pondered what it meant to be a good Christian in a good Christian empire.

*Elves in Anglo-Saxon England* Alaric Hall, 2007 Elves and elf-belief during the Anglo-Saxon period are reassessed in this lively and provocative study.

**Renaissance Rhetoric** Peter Mack, 1993-12-15 This book provides examples of the best modern scholarship on rhetoric in the renaissance. Lawrence Green, Lisa Jardine, Kees Meerhoff, Dilwyn Knox, Brian Vickers, George Hunter, Peter Mack, David Norbrook and Pat Rubin look at the reception of Aristotle's Rhetoric in the renaissance; the place of rhetoric in Erasmus's career, Melanchthon's teaching, and sixteenth century protestant schools; the rhetoric textbook; the use of rhetoric in Raphael, renaissance drama, Elizabethan romance, and seventeenth century political writing. It will become essential reading for advanced studies in English, rhetoric, art history, history, history of education, history of ideas, political theory, and reformation history.

**Anatomy of the Dicotyledons** Cr Metcalfe, L. Chalk, 2018-11-10

The Lives of the Sophists Philostratus (the Athenian), 1921 PHILOSTRATUS AND EUNAPIUS. (a) Of the distinguished Lemnian family of Philostrati, Flavius Philostratus, 'the Athenian', was a Greek sophist (professor), c. A.D. 170-205, who studied at Athens and later lived in Rome. He was author of the admirable Life of Apollonius of Tyana (Loeb Nos. 16 and 17) and Lives of the Sophists (which are really impressions of investigators alert but less fond of scientific method and discovery than of stylish presentation or things known), one part concerning some older, the other some later 'proversors'. Other extant works of this Philostratus are Letters and Gymnasticus, but the Heroicus or Heroica is apparently by another Philostratus, and the Eikones (Images, skilful descriptions of pictures, Loeb No. 256) were probably by two Philostrati, one being the son of Nervianus and born c. A.D. 190, the other his grandson who wrote c. AD. 300. (b) The Greek Sophist and historian Eunapius was born at Sardis in A.D. 347, but went to Athens to study and lived much of his life there teaching rhetoric and possibly medicine. He was initiated into the 'mysteries' and was hostile to Christians. Lost is his historical work (covering the years A.D. 270-404) but for excerpts and the use of it made by Zosimus, but we have his Lives of Philosophers and Sophists mainly contemporary with himself. Eunapius is our only source of our knowledge of Neo-Platonism in the latter part of the fourth century A.D.

**Cicero: Brutus and Orator** Robert A. Kaster, 2020-01-23 Cicero's Brutus and Orator constitute his final major statements on the history of Roman oratory and the nature of the ideal orator. In the Brutus he traces the development of political and judicial speech over the span of 150 years, from the early second century to 46 BCE, when both of these treatises were written. In an immensely detailed account of some 200 speakers from the past he dispenses an expert's praise and criticism, provides an unparalleled resource for the study of Roman rhetoric, and engages delicately with the fraught political circumstances of the day, when the dominance of Julius Caesar was assured and the future of Rome's political institutions was thrown into question. The Orator, written several months later, describes the form of oratory that Cicero most admired, even though he insists that neither he nor any other orator has been able to achieve it. At the same time, he defends his views against critics-the so-called Atticists-who found Cicero's style overwrought and favored a more restrained and plainer approach.

**Greek Declamation** D. A. Russell, 1983-12-22 This book sets the practice of declamation in its historical context and discusses the declaimers' public performances and use of classical literature and history.

*The Cambridge Companion to Medievalism* Louise D'Arcens, 2016-03-10 An introduction to medievalism offering a balance of accessibility and sophistication, with comprehensive overviews as well as detailed case studies.

**Edda** Snorri Sturluson, Anthony Faulkes, 1999 This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

The Carolingian World Marios Costambeys, Matthew Innes, Simon MacLean, 2011-05-12 At its height, the Carolingian empire spanned a million square kilometres of western Europe - from the English Channel to central Italy and northern Spain, and from the Atlantic to the fringes of modern Hungary, Poland and the Czech Republic. As the largest political unit for centuries, the empire dominated the region and left an enduring legacy for European culture. This comprehensive survey traces this great

empire's history, from its origins around 700, with the rise to dominance of the Carolingian dynasty, through its expansion by ruthless military conquest and political manoeuvring in the eighth century, to the struggle to hold the empire together in the ninth. It places the complex political narrative in context, giving equal consideration to vital themes such as beliefs, peasant society, aristocratic culture and the economy. Accessibly written and authoritative, this book offers distinctive perspectives on a formative period in European history.

*Historiography and Identity IV* Daniel Mahoney, Walter Pohl, 2021-06-03 Historical writing has shaped identities in various ways and to different extents. This volume explores this multiplicity by looking at case studies from Europe, Byzantium, the Islamic World, and China around the turn of the first millennium. The chapters in this volume address official histories and polemical critique, traditional genres and experimental forms, ancient traditions and emerging territories, empires and barbarians. The authors do not take the identities highlighted in the texts for granted, but examine the complex strategies of identification that they employ. This volume thus explores how historiographical works in diverse contexts construct and shape identities, as well as legitimate political claims and communicate 'visions of community'.

*The Fairy Mythology* Thomas Keightley, 1833

*Europe as Empire* Jan Zielonka, 2007-10-11 This book offers a strikingly new perspective on EU enlargement. Basing his findings on substantial empirical evidence, Zielonka presents a carefully argued account of the kind of political entity the European Union is becoming, with particular reference to recent enlargement.

**Antonine Literature** Donald Andrew Russell, 1990 The quality of the Greek and Latin literature of the second century AD is increasingly recognized. This volume collects together eight papers which offer a wide view of the intellectual and literary world of the Antonines.

**Saints** Françoise Meltzer, Jas Elsner, 2011-12-15 While the modern world has largely dismissed the figure of the saint as a throwback, we remain fascinated by excess, marginality, transgression, and porous subjectivity—categories that define the saint. In this collection, Françoise Meltzer and Jas Elsner bring together top scholars from across the humanities to reconsider our denial of saintliness and examine how modernity returns to the lure of saintly grace, energy, and charisma. Addressing such problems as how saints are made, the use of saints by political and secular orders, and how holiness is personified, *Saints* takes us on a photo tour of Graceland and the cult of Elvis and explores the changing political takes on Joan of Arc in France. It shows us the self-fashioning of culture through the reevaluation of saints in late-antique Judaism and Counter-Reformation Rome, and it questions the political intent of underlying claims to spiritual attainment of a Muslim sheikh in Morocco and of Sephardism in Israel. Populated with the likes of Francis of Assisi, Teresa of Avila, and Padre Pio, this book is a fascinating inquiry into the status of saints in the modern world.

**European Approaches to International Relations Theory** Jörg Friedrichs, 2004-03 A well-established community of American scholars has long dominated the discipline of international relations. Recently, however, certain strands of continental theorizing are being introduced into the mainstream. This is a critical examination of European approaches to international relations theory, suggesting practical ways of challenging mainstream thought. Friedrichs presents a detailed sociological analysis of knowledge production in existing European IR communities, namely France, Italy and Scandinavia. He also discusses a selection of European schools and approaches.

**The Penitential State** Mayke de Jong, 2009-04-16 An evaluation of Emperor Louis the Pious' reign which examines Louis' public penance of 833.

**History and Magical Power in a Chinese Community** P. Sangren, 1987-09-01 This book is a case study of history and culture in the Taiwanese town of Ta-ch'i and the group of rural villages that constitute its standard marketing community. However, its scope exceeds that of most community studies. The author attempts to construct a holistic view of Chinese culture from an analysis of the relationship between history and ritual in a particular locality. The author argues that social institutions and collective representations are dialectically connected in the process of social and cultural reproduction. He describes this dialectical process through an analysis of the key cultural concept of ling, the magical power attributed to ghosts, gods, and ancestors. In analyzing the symbolic logic of ling, he asserts that it can be fully understood only as a product of the reproduction of social institutions and as a manifestation of a native historical consciousness. Structuralist and Marxist insights are combined to explain how ling is best understood as both a cultural logic of symbolic relations and a material logic of social relations. The book is in three parts. Part I is a social and economic history that outlines what one might call an objectivist or positivist view of Ta-ch'i's history, describing events as they were, regardless of the perceptions of local participants. This material is a background to the synchronic sociological analysis of local territorial cults that constitutes Part II. In Part III, the author unsettles the objectivist assumptions of Part I by showing how the idiom of ling underlies Taiwanese constructions of history and identity and how the cultural construction of history dialectically reproduces society and creates history. The book is illustrated with 8 pages of photographs, 17 line drawings, and 9 maps.

**Conquest and Christianization** Ingrid Rembold, 2018 Re-evaluates the political integration and Christianization of Saxony following its violent conquest (772-804) by Charlemagne.
