Proceedings of the International Conference on Art Design and Digital Technology, ADDT 2022, 16-18 September 2022, Nanjing, China Afizan Bin Azman, Norfadilah Kamarudin, Yi Ji, 2022-12-02 The 2022 International Conference on Art Design and Digital Technology (ADDT 2022) was successfully held on September 16-18, 2022 in Nanjing, China (virtual conference). ADDT 2022 created a forum for idea sharing and research exchange, opened up new perspectives in related fields and broadened the horizons of all participants. In the conference, 150 individuals around the world took part in the conference. Divided into three parts, the conference agenda covered keynote speeches, oral presentations and online Q&A discussion. Firstly, the keynote speakers were each allocated 30-45 minutes to address their speeches. Then in the oral presentations, the excellent papers we had selected were presented by their authors one by one. We are glad to share with you that we've selected a bunch of high-quality papers from the submissions and compiled them into the proceedings after rigorously reviewing them. These papers feature but are not limited to the following topics: Computer Art, Visual Design, Digital Media, Innovative Technology, etc. All the papers have been checked through rigorous review and processes to meet the requirements of publication. We would like to acknowledge all of those who supported ADDT 2022 and made it a great success. In particular, we would like to thank the European Alliance for Innovation (EAI), for the hard work of all its colleagues in publishing this paper volume. We sincerely hope that the ADDT 2022 turned out to be a forum for excellent discussions that enable new ideas to come about, promoting collaborative research.

Online Conferences Lynn Anderson, Terry Anderson, 2010-11-01 The professional conference has been, for many years, the primary tool for continuing education and networking in many professions. Now, however, the economic and environmental costs associated with travel, and the opportunity costs associated with absence from the workplace, compel organizers, trainers and executives to weigh the costs versus the benefits of this form of professional development. Online conferences offer an effective alternative that is economical, environmentally friendly and convenient. These factors position online professional conferences as poised to emerge as a mainstream form of lifelong learning in all professions. This book looks at the elements of effective continuing professional education, the affordances of interactive technologies, and the lessons learned by experienced online conference organizers. It is designed to provide guidance and advice to those wishing to coordinate, sponsor or participate effectively in an online professional development conference. The text describes various ways in which a variety of networking technologies are being used to support successful online professional development events. Resources for conference organizers are given in the form of links to commercial and open source software, and companies providing platforms and comprehensive support for the organization of online conferences. The text contains the results of interviews with 12 organizers of the most successful online conferences to date. Finally, a list of best practices, based on the research literature, experiences of the authors and experienced online conference organizers, is presented in the final chapter.
