Popularisation of Sufism in Ayyubid and Mamluk Egypt, 1173-1325 Nathan Hofer, 2015-07-07 In the 12th 14th centuries, Sufism ('Islamic mysticism') became extraordinarily popular across Egypt. Elites and non-elites, rulers and ruled, the wealthy and the poor, even Jews, all embraced a variety of Sufi ideas and practices. This book is the first systematic investigation of how and why this popularisation occurred. It surveys several Sufi groups, from different regions of Egypt, and details how each of them promulgated, performed, and popularised their specific Sufi doctrines and practices. This popularisation would have a profound impact on the Egyptian religious landscape and on the subsequent history of Islam more broadly.

Sex in an Old Regime City Julie Hardwick, 2020 Sex in an Old Regime City is a major reframing of the long history of young people's intimacy. It shows how long-running problems like out-of-wedlock pregnancy were handled very differently in Old Regime France than in more recent centuries. Abortion, infanticide, broken hearts, and conflict with parents and neighbors were key challenges of young people's lives then as now but young couples' efforts to deal with these challenges were supported in pragmatic, often sympathetic, ways by their communities and institutions like local courts, clergy, legal officials, and social welfare managers.

Domesticating Democracy Susan Helen Ellison, 2018-05-04 In Domesticating Democracy Susan Helen Ellison examines foreign-funded alternate dispute resolution (ADR) organizations that provide legal aid and conflict resolution to vulnerable citizens in El Alto, Bolivia. Advocates argue that these programs help residents cope with their interpersonal disputes and economic troubles

while avoiding an overburdened legal system and cumbersome state bureaucracies. Ellison shows that ADR programs do more than that—they aim to change the ways Bolivians interact with the state and with global capitalism, making them into self-reliant citizens. ADR programs frequently encourage Bolivians to renounce confrontational expressions of discontent, turning away from courtrooms, physical violence, and street protest and coming to the negotiation table. Nevertheless, residents of El Alto find creative ways to take advantage of these micro-level resources while still seeking justice and a democratic system capable of redressing the structural violence and vulnerability that ADR fails to treat.

Access to Justice for Vulnerable and Energy-Poor Consumers Naomi Creutzfeldt, Chris Gill, Marine Cornelis, Rachel McPherson, 2021-07-01 How do ordinary people access justice? This book offers a novel socio-legal approach to access to justice, alternative dispute resolution, vulnerability and energy poverty. It poses an access to justice challenge and rethinks it through a lens that accommodates all affected people, especially those who are currently falling through the system. It raises broader questions about alternative dispute resolution, the need for reform to include more collective approaches, a stronger recognition of the needs of vulnerable people, and a stronger emphasis on delivering social justice. The authors use energy poverty as a site of vulnerability and examine the barriers to justice facing this excluded group. The book assembles the findings of an interdisciplinary research project studying access to justice and its barriers in the UK, Italy, France, Bulgaria and Spain (Catalonia). In-depth interviews with regulators, ombuds, energy companies, third-sector organisations and vulnerable people provide a rich dataset through which to understand

the phenomenon. The book provides theoretical and empirical insights which shed new light on these issues and sets out new directions of inquiry for research, policy and practice. It will be of interest to researchers, students and policymakers working on access to justice, consumer vulnerability, energy poverty, and the complex intersection between these fields. The book includes contributions by Cosmo Graham (UK), Sarah Supino and Benedetta Voltaggio (Italy), Marine Cornelis (France), Anais Varo and Enric Bartlett (Catalonia) and Teodora Peneva (Bulgaria).

Alternative Dispute Resolution and Peace-building in Africa Ernest E. Uwazie, 2014-06-26 Conflicts in Africa have a great deal in common, and striking parallels can be drawn between them at all levels. Dynamics affecting the most complex war-time conflicts, civil unrest and other macro disputes are in play even in the smallest community conflicts. The converse is also true: lessons learned through community mediation, for example in South Africa, are applicable to the most complex and largest conflicts to be found on the continent. Together, the eleven chapters in this publication, in addition to the prologue and epilogue, suggest that a comprehensive assessment of efforts and investments in conflict resolution and peace studies in Africa since the mid-1990s is due in order to identify lessons and challenges, as well as best practices. Just as conflict dynamics are comparable between African conflicts, whether large or small, local or international, so are alternative dispute resolution processes. Effective approaches to resolving large-scale conflicts and civil wars are effective at the community level, and ineffectual techniques at the community level are just as likely to be counter-productive in mediating international disputes. While there may be some differences in mediating macro- and micro-conflicts (such as the time required, the need for

negotiation teams, and the complexities of agenda development or pre-negotiations), as far as the mediation process is concerned, the differences are more like variations on a theme than real substantive dissimilarities. This volume provides case studies of programs and policies, and legislations on alternative dispute resolution and peace building, and examines and proposes some new, promising ideas for conflict prevention, as well as maintenance of peace, justice and security in Africa.

Constructive Interventions L. Kirchhoff, 2008-05-16 In the contemporary discipline of conflict resolution, adjudication and alternative dispute resolution (ADR) are often seen as antagonistic trends. This important book contends that, on the contrary, it is the bringing together of these trends that holds the most promise for an effective system of international justice. With great insight and passion, built firmly on a vast knowledge of the field, Lars Kirchhoff exposes the contemporary structural barriers to effective conflict resolution, defining where adjudication ends and ADR—and particularly the recent development of mediated third party intervention from an 'art' to a

veritable 'science'—must come into play. The work starts by defining the challenges, potentials and shortcomings of different approaches to conflict resolution in an interdependent world—where the multiplicity of actors, topics and interests involved even in seemingly bilateral conflict situations is clearly manifest—and goes on to define useful models and connect the various elements relevant for the resolution of conflicts in a transparent way. In the course of its investigation the book accomplishes the following: • illustrates the various departure points and perspectives scholars of conflict resolution have taken as the basis for their work; discusses who should become involved in conflicts as a third party and by which techniques this should occur; systematically conveys the nature and consequences of intervention through mediation, focusing on the method's critical challenges; and clarifies the particular model of international mediation under development through UN initiatives. In approaching these intertwined topics, the author draws concrete conclusions for the realms of international law and related disciplines as well as for the organizational context of the United Nations. He explores such diverse scenarios as conflicts between States, conflicts involving international organizations, and—in accordance with the changing parameters of international law—even conflicts involving individuals, clarifying which constellations can be tackled by international mediation and which conflicts should be dealt with by other forms of diplomacy or adjudication. It is the conviction of many intermediaries and scholars that the considerable potential inherent in resolving conflicts peacefully is rarely put into practice. Although some of the reasons for this phenomenon are beyond the influence of scholarly debate, in many instances the reasons for failure of peaceful resolution processes are

more structural or systemic in nature. It is the great virtue of this book that it establishes enough clarity in an unclear and complex field to make concrete and workable recommendations in these instances, and for that reason it will be of immeasurable value and benefit to all scholars, policymakers, and activists dedicated to the pursuit of peace.

Young Subjects Julia M. Gossard,2021-03-15 Across the metropole, the colonies, and the wider eighteenth-century world, French children and youth participated in a diverse set of state-building initiatives, social reform programs, and imperial expansion efforts. *Young Subjects* explores the lives and experiences of these youth, revealing their role as active and vital agents in the shaping of early modern France. Through a set of regional case studies, Julia Gossard demonstrates how thousands of children and youth were engaged in the service of the state. In Lyon, charity schools cultivated children as agents of moral and social reform who carried their lessons home to their families. In Paris, orphaned and imprisoned youth trained in skilled trades or prepared for military service, while others were sent to the French colonies in North America as *filles du roi* and sturdy labourers. Young people from merchant families were recruited to serve as cultural brokers and translators on behalf of French commercial interests in the Ottoman Empire and Siam. In each case, Gossard considers how these youth played, negotiated, and

sometimes resisted their roles, and what expressions of individual identity and agency were available to subjects under the legal control of others. As sources of labour, future taxpayers, colonial subjects, cultural mediators, and potential criminals, children and youth were objects of intense interest for civic authorities. Young Subjects refocuses our attention on these often overlooked historical subjects who helped to build France.

Judicial Process and Judicial Policymaking G. Alan Tarr, 2024-01-22 An excellent introduction to judicial politics as a method of analysis, the eighth edition of *Judicial Process and Judicial Policymaking* focuses on policy in the judicial process. Rather than limiting the text to coverage of the U.S. Supreme Court, G. Alan Tarr examines the judiciary as the third branch of government, and weaves four major premises throughout the text: (1) Courts in the United States have always played an important role in governing and their role has increased in recent decades; (2) Judicial policymaking is a distinctive activity; (3) Courts make policy in a variety of ways; and (4) Courts may be the objects of public policy, as well as creators. New to the Eighth Edition Discusses appointments by Presidents Donald Trump and Joseph Biden to the federal courts, including the confirmations of Gorsuch, Kavanaugh, Coney Barrett, and Jackson to the Supreme Court Introduces the controversy of the Supreme Court's "shadow docket" Analyzes the legal and political aftermath of the *Dobbs v. Alternative Dispute Resolution of Shareholder Disputes in Hong Kong Ida Kwan Lun Mak, 2017-10-19 The landscape of shareholder dispute resolution in Hong Kong has changed vastly since the launch of the Civil Justice Reform in 2009. Key initiatives - the voluntary court-connected scheme and reform of the statutory unfair prejudice provisions - were employed to promote the greater use of alternative dispute resolution (ADR) in shareholder disputes. While the Hong Kong government and judiciary introduced such schemes to prove the legitimacy of extra-judicial over court-based litigation processes, their success is still uncertain. In this book, socio-legal theory and sociological institutionalism are used to develop a theoretical framework for analyzing the key stages of institutionalization. The author analyzes how procedural innovations could acquire legitimacy through different types of legal and non-legal inducement mechanisms within the institutionalization process. Recommendations on codifying and innovating ADR policy in Hong Kong shareholder disputes made with comparison to similar policies in the United Kingdom, South Africa and New Zealand.

"ALTERNATE DISPUTE RESOLUTION IN INDIA AND WORKING OF ADR INSTITUTIONS IN HYDERABAD " N. Jaswanth Rao,2023-10-26 Law cannot change times, but times may change the law. Prudence provides that change is law of life. Our ancient glory of being the repository of all knowledge - mundane and spiritual - and the potency of traditional piety, enlightened legal acumen for justice resolution as a beacon light for global illumination - all faded into dark layers of history, partly due to our infatuation for imaginary intellect, inadvertence to our ancestral science and astronomy, and inefficiency of our

intelligence. Our tremendous expositions of Dharma in the form of commentaries of sanctified sages, and enlightened writers, epical ebullience, science of Tarka, and Mimansa, have been buried seven fathoms deep, making them unknown, unwept and unsung. Justice dispensation by resolving the disputes and differences – not settling with the disputes – had been a natural characteristic of our ancestors – village panchayat as the temple of justice reflecting the aroma of equity, justice and good conscience. Even the toughest problems were drowned in the cogency of common good, disputes dispelled and differences dried up sustaining the buoyancy of cordial human relations and fraternal faith. The invincible Indian erudition, equity and empathy are eclipsed by the invasive culture of western and foreign maniacs. The simple, inexpensive and expedient justice dispensation of Indian society is engulfed by high-sounding (but low yielding) and expensive English court system.

**ALTERNATIVE DISPUTE RESOLUTION (ADR)
HANDBOOK FOR LOWER ELEMENTARY SCHOOLS**

Cecilia Iro-Cunningham,

Women, Matrimonial Litigation and Alternative Dispute Resolution (ADR) Neelam Tyagi, 2021-04-05 This book examines the practice of Alternative Dispute Resolution (ADR) as it stands today in the context of matrimonial disputes and for providing gender justice for women undergoing matrimonial litigation. ADR is a fairly recent but increasingly prevalent phenomenon that has significantly evolved due to the failure of the adversarial process of litigation to provide timely resolution of disputes. The book explores the merit and demerit of traditional litigation process and emergence, socio-legal framework, work environment and success rate of various ADR processes in general and for resolving matrimonial

disputes in particular. It comprehensively discusses the role of various institutions and attitudes and perceptions of ADR practitioners. It analyzes the influence of patriarchal cultural assumptions of appropriate feminine behaviour and its effect on ADR practitioners like mediators and counsellors that leads to the marginalization of aggrieved woman's issues. With a brief analysis of the experience and challenges faced with the way the ADR process is conducted, the focus is on probing the vulnerability of aggrieved women. The book critiques the practice of ADR as it is today and offers constructive ways forward by providing suggestions, insights, and analysis that could bring about a transformation in the way justice is delivered to women. This in-depth study is an attempt to guide decision making by bringing forth and legitimizing the battered women's voice which often goes unrepresented, in the debate about the efficacy of ADR mechanism in resolving matrimonial disputes. The book is of interest to those working for justice for women, particularly in the context of matrimonial disputes -- legal professionals, mediators, counsellors, judges, academicians, women rights activists, researchers in the field of gender and women studies, social work and law, ADR educators, policymakers and general readers who are inclined and interested in bringing a gender perspective to their area of work.
