Adrenaline Bill Eidson,2014-04-01 *Adrenaline* explores the hunger for adventure that is as basic a need for some people as food, drink, or love . . . some people crave an adrenaline rush the way a heroin addict craves a fix. Two corporate opponents: One, Steve Dern, becomes CEO; the other, Geoff Mann, ends up on the street, where his taste for extreme sports and a chance encounter with a desperate young prostitute show him that murder delivers the best rush of all. Then, Geoff thrusts Steve into a dangerous game with Steve’s wife, Lisa, as the prize. To save her, Steve must find a way to make Geoff feel pain. To experience fear. He must scare a man who has just discovered how much he likes to kill. *Adrenaline* is a no-holds-barred thriller that lives up to its name.

Hooked on Adrenaline Bart Collins,2006-10-06 *Hooked on Adrenaline*, is a work of fiction based on real life experiences. It is an adventure/romance about a young man and his journey through life always seeking adventure and finding the love of his life on the way. Packed with gems of wisdom it makes Brad wise far beyond his years but hopefully helping the younger audience through some of the speed bumps in life. Right from the start, *Hooked on Adrenalin* pulls the reader into a late 50s Key West and the fast-paced exciting life of young hero, Brad Parker, a recent underage returnee from the battlefields of Korea. Within the first few pages, Brad meets his soul mate and life mate, Anne, then is unexpectedly sucked into an underwater cavern during an underwater construction project. There he finds a World War II Japanese mini-sub and the mystery surrounding it. Caches of cash, drug runners, kidnappings, and moonshiners all fill the pages of the book with excitement, mystery, and a bond so strong between Brad and Anne that nothing can break. The flavor of Old Key West is everywhere in the book. As Brad and Anne scuba dive, build a business, and solve mysteries, the reader will find themselves on the edge of their chair, unable to stop reading. Moreover, although at the end of the book they motor off into the sunset looking for new adventure, storm clouds are brewing on the horizon as the family of the drug runners head for Key West to start the business again and seek revenge.

The Hidden Link Between Adrenaline and Stress Archibald D. Hart,1995-06-18 Psychologist Archibald Hart theorizes that heart attacks and other stress-induced illnesses are the lethal by-products of too much adrenaline pumping through our systems. He suggests ways to minimize these threats through adjustments in values and lifestyles.

Adrenaline: the Key to Your Behavior Lyman Burgess Hollingsworth,1973

Adrenaline and the Inner World David S. Goldstein,2006-03-15 This accessible work is the first in more than seventy-five years to discuss the many roles of adrenaline in regulating the inner world of the body. David S. Goldstein, an international authority and award-winning teacher, introduces new concepts concerning the nature of stress and distress across the body's regulatory systems. Discussing how the body's stress systems are coordinated, and how stress, by means of adrenaline, may affect the development, manifestations, and outcomes of chronic diseases, Goldstein challenges researchers and clinicians to use scientific integrative medicine to develop new ways to treat, prevent, and palliate disease. Goldstein explains why a former attorney general with Parkinson disease has a tendency to faint, why young astronauts in excellent physical shape cannot stand up when reexposed to Earth's gravity, why professional football players can collapse and die of heat shock during summer training camp, and why baseball players spit so much. *Adrenaline and the Inner World* is designed to supplement academic coursework in psychology, psychiatry, endocrinology, cardiology, complementary and alternative medicine, physiology, and biochemistry. It includes an extensive glossary.

Adrenaline Junkies and Template Zombies Tom DeMarco,Peter Hruschka,Tim Lister,Steve McMenamin,James Robertson,Suzanne Robertson,2013-07-15 This is the digital version of the printed book (Copyright © 2008). *Adrenaline junkies*, dead fish, project sluts, true believers, Lewis and Clark, template zombies . . . Most developers, testers, and managers on IT projects are pretty good at recognizing patterns of behavior and gut-level hunches, as in, “I sense that this project is headed for disaster.” But it has always been more difficult to transform these patterns and hunches into a usable form, something a team can debate, refine, and use. Until now. In *Adrenaline Junkies and Template Zombies*, the six principal consultants of The Atlantic Systems Guild present the patterns of behavior they most often observe at the dozens of IT firms they transform each year, around the world. The result is a quick-read guide to identifying nearly ninety typical scenarios, drawing on a combined one-hundred-and-fifty years of project management experience. Project by project, you’ll improve the accuracy of your hunches and your ability to act on them. The patterns are presented in an easy-reference format, with names designed to ease communication with your teammates. In just a few words, you can describe what’s happening on your project. Citing the patterns of behavior can help you quickly move those above and below you to the next step on your project. You’ll find classic patterns such as these: News Improvement Management by Mood Ring Piling On Rattle Yer Dags Natural Authority Food++ Fridge Door and more than eighty more! Not every pattern will be evident in your organization, and not every pattern is necessarily good or bad. However, you’ll find many patterns that will apply to your current and future assignments, even in the most ambiguous circumstances. When you assess your situation and follow your next hunch, you'll have the collective wisdom of six world-class consultants at your side.

Her life used to be about bike racing and rock climbing; now it's about staying home, except for attending physical and group therapy sessions at the bizarre alternative healing center her mom has chosen. Dyna's boyfriend saw her accident and supports her newfound desire for safety, but a young Iraq war veteran she meets at rehab challenges her to think about what she's really avoiding in her old life and to take chances again—even with her heart.

The Adrenaline Man Tom Humphrey,2018-08-30 The Adrenaline Man is Roger Burlington, a fellow whose adrenal glands are three times the normal size. When he is faced with danger, the adrenaline dump makes him stronger and faster than an average person. He discovers this when at a traffic light he suddenly leaps forward and saves a young woman from being hit by a speeding car. They become friends. Later when four thugs attack her, she is again rescued by Roger. Someone is trying to kill her. The police become involved and the case is solved. Except...the killer works for a Columbian drug cartel which is shipping ten tons of cocaine through Texas. Now things get worse.Following the novella are sixteen short stories on crime, romance, western, and science fiction. Examples: Stalker Defense - Jessica realizes she is being stalked at the mall. The security guard does nothing. Later at home, the stalker reappears. The Trouble with Twins - Charles falls for Margaret but she has an identical twin sister who hates him. Grit pays off - Zeke kills a ranch owner, expecting to marry his daughter and acquire the ranch. But a stranger shows up. Foggy, Faint, Fatigued & Adrenaline Chris O'Callaghan,2022-06-30 Some people seem to be unlucky.For no good reason, they and their families seem to be cursed with symptoms that are not taken seriously. They might experience faintness or actual fainting. They are fatigued. Sleep is a misery and menstruation is a painful embarrassment. In their head they have migraines, and at the other end they have bloating, diarrhoea and constipation, almost simultaneously.They may blame themselves for these problems, and it's tempting to wonder if 'anxiety' is the cause. It makes a little sense - these people often appear or feel anxious. But before going down that path, think about adrenaline - the hormone that mimics anxiety.What might cause sky-high adrenaline levels and give you symptoms in just about every organ of the body?Surprisingly, the answer might relate to your flexibility. Gymnasts, dancers, musicians, athletes and swimmers need flexibility - for them, stretchy joints are a gift. But the gift can become a curse if other parts of the body are too stretchy. For example, stretchy blood vessels can cause low blood pressure, resulting in faintness, fatigue and trouble concentrating. Low blood pressure has another consequence: it causes high adrenaline!Medical researchers have linked genetic problems in connective tissue - the part of the body that determines our stretchiness - to low blood pressure, migraines, fatigue, gut problems, allergies, sleep disorder, menstrual issues and more.This book explains the mechanism linking these ailments, how they can be treated and why they are not in your head.

Adrenaline Jeff Abbott,2014-02-12 Brillant agent de la CIA basé à Londres, Sam Capra mène la vie dont il a toujours rêvé. A peine a-t-il quitté les lieux qu'une déflagration dévaste l'édifice ! Lucy disparaît et la CIA tient Sam, seul rescapé de l'explosion, pour responsable des événements. Incarcéré, il parvient à déjouer la surveillance de la Compagnie. C'est désormais un homme brisé, traqué, mais prêt à tout !

Adrenaline Junkies Craig Alan Hartpence,2008-05 This unique adventure based on fiction is a story, told in first person, about Jason Holt. A paramedic Emergency Medical Service (EMS) chief for a county ambulance service. During an annual quality assurance review of EMS records, he discovers several reports that have an unusual connection between them. 5500 to be exact that were healthy geriatric patients who died of natural causes, during transport by the ambulance service and were connected to a single individual. The bigger picture appeared to be one of the largest serial killings ever recorded. He needed more evidence to secure his claim. Near the end of his investigation he discovers only circumstantial evidence that points to not one individual, but a ring of individuals involved in this crime. Early one morning he prepares for a state inspection of the ambulance service. While he waits for the state inspectors to arrive he returns to his investigation, discovering the final key to his puzzle. Some, who have experienced the near death process, report that in their minds their life flashes before their eyes. Images he reviews are from past lessons learned, Rules of Engagement while running on adrenaline and attending the EMS School of Hard Knocks. Jason's graphic accounts of his past are burnt into his subconscious from adrenaline rushes, the payoff from running emergency, the thrill of a challenge, and a life saved. Reliving his personal struggles with the high rolling lifestyle of the paramedic image in the 1970's and 80's, the sexual and drug opportunities, the mental trauma he receives, and the pitfalls vs. rewards of his profession. He can't quit, he's an ADRENALINE JUNKIE.

Buzz! Kenneth Carter,2019-10-31 Are you a thrill-seeker or a chill-seeker? A clinical psychologist lifts the lid on what makes adrenaline junkies tick.
