The Countess and the Mob Maureen Hughes,2010-03-11 Maureen Hughes was first introduced to Countess Marajen Chinigo in the 1980s in a hospital room in Champaign, Illinois. Assigned to provide personal security to the Countess, Hughes knew few details about the woman she was protecting. Little did she know that Countess Chinigo was a woman connected to some of the most notorious and famousor infamouspeople of the twentieth century. Hughes did not see the Countess again until a few years later at a local art museum. Intrigued by the impeccably dressed woman who strolled through the crowd like a queen, Hughes vowed to find out all she could about the mysterious Countess. As Hughes shares the fascinating story she uncovered after conducting three years of research and in-depth conversations with friends of the Countess, she unveils a time period where mobsters, presidents, celebrities, and countesses all mingled among dark, captivating secrets. Hughes reveals details about the famous figures the Countess hobnobbed with like Frank Sinatra, Joan Crawford, and Lucky Luciano, her marriage to Johnny Rosselli, and her eventual entanglements with the Mafia. The Countess and the Mob paints a compelling portrait of the kaleidoscopic shapes and colors that made up the extraordinary and unforgettable life of Countess Marajen Stevick Chinigo.

The Aisles Have Eyes Joseph Turow, 2017-01-17 The author of Media Today offers "a trenchant, timely, and troubling account of [retailers'] data-mining, in-store tracking, and predictive analytics" (The Philadelphia Inquirer). By one expert's prediction, within twenty years half of Americans will have body implants that tell retailers how they feel about specific products as they browse their local stores. The notion may be outlandish, but it reflects executives' drive to understand shoppers in the aisles with the same obsessive detail that they track us online. In fact, a hidden surveillance revolution is already taking place inside brick-and-mortar stores, where Americans still do most of their buying. Drawing on his interviews with retail executives, analysis of trade publications, and experiences at insider industry meetings, advertising and digital studies expert Joseph Turow pulls back the curtain on these trends, showing how a new hyper-competitive generation of merchants—including Macy's, Target, and Walmart—is already using data mining, in-store tracking, and predictive analytics to change the way we buy, undermine our privacy, and define our reputations. Eye-opening and timely, Turow's book is

essential reading to understand the future of shopping. "Turow shows shopping today to be an exercise in unwitting self-revelation—and not only online."—The Wall Street Journal "Thoroughly researched and clearly presented with detailed evidence and fascinating peeks inside the retail industry. Much of this information is startling and even chilling, particularly when Turow shows how retail data-tracking can enable discrimination and societal stratification."—Publishers Weekly "Revealing . . . Valuable reading for shoppers and retailers alike."—Kirkus Reviews

Planning is required before starting the start up. 2. Post-planning: Planning required for sustaining the company with profitability after you have started it.
