*English / Persian Dictionary* Joseph D. Lesser,2019-08-13 This practical dictionary of the Persian language contains over 16,000 entries in a concise, easy-to-use format. The direction of the translation is from English to Persian. It offers a broad vocabulary from all areas as well as numerous idioms for holidays or for use as a classic reference work.

**Persian-English English-Persian Learner's Dictionary** Yavar Dehghani,2006-01-01 The increasing popularity of the study of Persian (also known as Farsi, Tajiki or Dari) in the English speaking world, has created a need for a bi-directional Persian-English dictionary geared towards English speakers who are learning Persian. The features of the Persian-English / English-Persian Learner's Dictionary which make it unique are: BI-DIRECTIONAL: This is the first and only Persian-English/English-Persian dictionary in one volume which features both Persian and transliteration. ALPHABET: The alphabet used in Persian is completely different from the English. This can be a major barrier in the early stages of learning the language. This dictionary provides a simple transliteration of the Persian word along with its equivalent in the Persian alphabet. ALPHABETICAL ORDER: In this dictionary, the alphabetical order in the Persian-English section is based on the English spelling. This makes it easy for the user who is not familiar with the Persian alphabet to find a word. CORRECT USE OF WORDS: This dictionary gives synonyms in various contexts allowing the student to easily choose the correct meaning. ENTRIES: Approximately 18,000 entries covering both day-to-day and more specialized vocabulary. The Audience for this dictionary is: English speaking students of Persian. English speakers who are seeking to communicate with Persian speakers. Children of Iranians, Afghans and Tajiks outside their homeland who wish to learn their mother language. Persian speakers who wish to learn English.

**Persian-English Dictionary** S. Haim,حليم, سليمان,S. Haïm,1993 A comprehensive dictionary defines approximately thirty thousand words and idioms in 22,500 entries, and includes hints on pronunciation and transliteration of Persian, known as Farsi in Iran and as Dari in Afghanistan.

*An English-Persian Dictionary* Dariush Gilani,1999 Includes approximately 22,000 entries. The Persian (Farsi) equivalents are also written in English letters for those unable to read Persian script. It provides the Persian equivalent rather than a descriptive meaning of the English word. The pronunciation of the Persian rather than the English is emphasised.

**English-Persian Dictionary with Transliteration** Yavar Dehghani,2016-08-21 This dictionary is primarily written for English speakers, including: A) High school students in USA, Europe, and Australia and in other parts of the world who learn Persian as a second language. B) English tourists who visit Persian-speaking countries. C. Students in western defence forces who learn Persian. (For example, in Australia, we have a Persian Department in the School of Language in Defence and we have six staff to teach Persian to English students, and all these students need such a dictionary). D. All university students who learn Persian as a subject in USA, Europe and Australia. E. Other People who learn Persian for other purposes. F. **Persian Vocabulary Book** Pinhok Languages,2022-08-23 Persian vocabulary book + Persian dictionary This Persian vocabulary book contains more than 3000 words and phrases which are grouped by topic to make it easier for you to pick what to learn first. On top of that, the index in the second half of the book provides you with a basic Persian-English as well as English-Persian dictionary which makes this a great resource for learners of all levels. What you can expect from this book: This Persian learning resource is a combination of Persian vocabulary book and a two-way basic Persian dictionary: Part 1 - Topic based Persian vocabulary book: This is the main part of the book and represents a list of chapters each containing Persian vocabularies for a certain topic. The Persian vocabularies in the chapters are unsorted on purpose to separate remembering them from a defined alphabetical order. You can start at any chapter and dive directly into the topics that interest you the most. Part 2 - Basic English-Persian dictionary: The index in the second half of the book can be used as a basic Persian dictionary to look up words you have learned but can't remember or learn new words you need. Part 3 - Basic Persian-English dictionary: Easy to use and with just the right amount of words, this third part finishes off with a second index that allows you to look for Persian words and directly find the English translation How to use this Persian vocabulary book: Not sure where to start? We suggest you first work your way through the verbs, adjectives and phrases chapters in part one of the book. This will give you a great base for further studying and already enough vocabulary for basic communication. The Persian dictionaries in part two and three can be used whenever needed to look up words you hear on the street, English words you want to know the Persian translation for or simply to learn some new words. Some final thoughts: Vocabulary books have been around for centuries and as with so many things that have been around for some time, they are not very fashionable and a bit boring, but they usually work very well. Together with the basic Persian dictionary parts, this vocabulary book is a great resource to support you throughout the process of learning Persian and comes in particularly handy at times when there is no internet to look up words and phrases.
