Language Arts Mildred R. Donoghue,2008-08-05 A clear introduction for the teaching of language and communication

Nouns and Verbs Carson-Dellosa Publishing Staff,School Specialty Publishing,Carson-Dellosa Publishing,2003-07-28 Nouns and verbs are the essential building blocks of language study. This modified basic skills book introduces the concept of nouns and verbs in an easy-to-understand format. Each concept is introduced in multiple ways, presenting strategies to support children with different learning styles. Visual learners will be helped by pictures to illustrate each concept and each story. Auditory learners will be aided by listening to the stories, by reading matching parts of sentences out loud, and by enjoying rhymes. Kinesthetic learners will find the tracing, circling, coloring, and underlining exercises helpful. Page designs in this book are clean and uncluttered, minimizing distractions and helping students focus on the lessons at hand. The activities are created specifically to address learning challenges and differing abilities. Students will delight in solving the crossword puzzles, filling in blanks to complete stories, and answering comprehension questions, all in the context of mastering these important language concepts. There are also extension activities, such as the creation of a storybook, to keep students focused on and engaged in learning.

Gathering Blossoms Under Fire Alice Walker,2022-04-12 From National Book Award and Pulitzer Prize-winning author Alice Walker and edited by critic and writer Valerie Boyd, comes an unprecedented compilation of Walker's fifty years of journals drawing an intimate portrait of her development over five decades as an artist, human rights and women's activist, and intellectual. For the first time, the edited journals of Alice Walker are gathered together to reflect the complex, passionate, talented, and acclaimed Pulitzer Prize winner of *The Color Purple*. She intimately explores her thoughts and feelings as a woman, a writer, an African-American, a wife, a daughter, a mother, a lover, a sister, a friend, a citizen of the world. In an unvarnished and singular voice, she explores an astonishing array of events: marching in Mississippi with other foot soldiers of the Civil Rights Movement, led by Martin Luther King, Jr.; her marriage to a Jewish lawyer, defying laws that barred interracial marriage in the 1960s South; an early miscarriage; writing her first novel; the trials and triumphs of the Women's Movement; erotic encounters and enduring relationships; the ancestral visits that led her to write *The Color Purple*; winning the Pulitzer Prize; being admired and maligned, sometimes in equal measure, for her work and her activism; and burying her mother. A powerful blend of Walker's personal life with political events, this revealing collection offers rare insight into a literary legend.

The Leprechaun's Gold Pamela Duncan Edwards,2006-01-24 In this classic Irish legend, two harpists -- merry-hearted Old Pat and ill-spirited Young Tom -- set off for a contest to name the finest harpist in all of Ireland. When Young Tom realizes that Old Pat is truly the better musician, he schemes to be the winner -- but he doesn't reckon with the clever trickery of a mischievous little leprechaun. Noted picture book creators Pamela Duncan Edwards and Henry Cole have imagined a joyful and fanciful tale with a priceless lesson.

Shogun's Ghost Ken Schoolland,1990-09-21 In most accounts of the struggle for economic supremacy between the United States and Japan, the inferiority of the United States' education system is continually pointed out. Here, Ken Schoolland, who taught in Japan at the college level, tells a different story about Japanese education. Schoolland gives a first person account of a side of Japanese education rarely seen in the West. Having spent five years teaching in a Japanese university, he writes of pervasive problems with the system of lower level colleges; unruly classrooms where discipline is a myth and cheating is a fact of daily life. Schoolland uses this new knowledge to redefine what he terms the new cold war between United States and Japanese systems of education. Schoolland begins by sharing his experiences as a professor at a Japanese university. He then explores some of the attitudes on education that are typical of publications that seem to be fueling a race between the economic superpowers. He describes some of the changing, relevant characteristics of Japanese society and how these shape the education system. Turning up the dark side of Japanese education, Schoolland elaborates on punishments in the schools and reveals the challenge that has come forth against physical punishment, the debate over students rights, court battles, and models of leadership. Finally, Schoolland shows the extent of student violence in the schools, he dissects the myth of Japan as unified, harmonious, homogeneous society, and reaches into Japanese history to show the roots of group responsibility in Japanese society.

Collins is a preschooler teacher, parent coach and mother, who has witnessed such transformations repeatedly over many years. Her book is a treasury that provides readers with powerful, practical and positive tools to achieve harmony and joy in their own families.
