**Revision of the Afrotropical Phaeogenini (Ichneumonidae, Ichneumoninae), with description of a new genus and twelve new species** Pascal Rousse,Simon van Noort,E. Diller,2013-11-21 This monograph presents a comprehensive revision of the tribe Phaeogenini (Ichneumonidae: Ichneumoninae) in the Afrotropical region. The tribe encompasses about 10% of the species within the subfamily, most of them exhibiting an unusual habitus, which makes them readily identifiable within Ichneumoninae. *Lusius* and *Arearia* are for example highly speciose genera whose taxonomic placement has oscillated over the years. Of the 32 genera and about 400 species included in the tribe to date, seven genera and 11 species were previously reported from the Afrotropical region. We describe a new genus, record two additional genera and describe 12 new species elevating these totals to 10 and 23, respectively. Both

dichotomous and matrix keys are provided to facilitate their identification. All taxa are fully illustrated with high quality images. These images and online keys are freely available on the Iziko South African Museum website [www.waspweb.org](http://www.waspweb.org).

Semantics James R. Hurford,Brendan Heasley,Michael B. Smith,2007-04-19 This practical coursebook introduces all the basics of semantics in a simple,

step-by-step fashion. Each unit includes short sections of explanation with examples, followed by stimulating practice exercises to complete in the book. Feedback and comment sections follow each exercise to enable students to monitor their progress. No previous background in semantics is assumed, as students begin by discovering the value and fascination of the subject and then move through all key topics in the field, including sense and reference, simple logic, word meaning and interpersonal meaning. New study guides and exercises have been added to the end of each unit to help reinforce and test learning. A completely new unit on non-literal language and metaphor, plus updates throughout the text significantly expand the scope of the original edition to bring it up-to-date with modern teaching of semantics for introductory courses in linguistics as well as intermediate students.

**Science Fiction: The 100 Best Novels** David Pringle, 2014-06-30 From one of the best-known editors in modern science fiction, this lively and authoritative guide will appeal to both newcomers and connoisseurs of the genre alike. Informative and readable, David Pringle's choices focus on landmark works by the likes of Ray Bradbury, Alfred Bester and J.G. Ballard, unearth less prominent talents such as Ian Watson, Octavia Butler and Joanna Russ, and highlight breakthrough novels by William Gibson and Philip K. Dick. An essential guide to science fiction literature.

Unicorn Mountain Michael Bishop, 2020-07-14 Unicorn Mountain, a Mythopoeic Fantasy Award winner for Best Novel, here appears in a re-edited and revised version in Michael Bishop's preferred text some thirty years after its original publication, when it was hailed for its adult focus, its gritty characters and situations, and its imaginative narrative elements, which include ranching in Colorado, Ute Indian lore, a Denver-based advertising firm, Swing Era music, an old Bendix TV set that transmits signals from an askew parallel Earth, and, last but no less disquieting, transdimensional migrations of living unicorns. These four characters dramatically animate Unicorn Mountain: \* Elizabeth (Libby) Quarrels: a woman struggling to make a go of the ranch that she has won in her divorce from ex-husband, Gary, who perhaps inadvertently pushes Libby to take in and care for a disinherited first cousin of his infected with AIDS. \* Beaumont (Bo) Gavin, the first cousin, a sardonic but brilliant young man working for an independent advertising firm in Atlanta, Georgia, but one whose guilt over abandoning his late partner is as painfully mortifying to him as the disease he harbors. \* Samuel (Sam) Coldpony, a Ute Indian man who is Lib's only paid cowhand because he has a magical way with animals; also, he is perhaps the first resident of Remuda County, Colorado, to spy unicorns on Libby's upland property and to verify their existence in this reality. \* Paisley (Payz or Alma) Coldpony, Sam's only daughter, a young woman determined that her dream-calling to take part in the Utes' Sun Dance outside Ignacio, Colorado, will

make her the first female to dance in that annual event.

**The Book of Hidden Things** Francesco Dimitri, 2018-07-03 From one of the most significant figures of the last generation of fantasy, comes Francesco Dimitri's debut novel in English, an enthralling and seductive fantasy following four old friends and the secrets they keep. Four old school friends have a pact: to meet up every year in the small town in Puglia they grew up in. Art, the charismatic leader of the group and creator of the pact, insists that the agreement must remain unshakable and enduring. But this year, he never shows up. A visit to his house increases the friends' worry; Art is farming marijuana. In Southern Italy doing that kind of thing can be very dangerous. They can't go to the Carabinieri so must make enquiries of their own. This is how they come across the rumours about Art; bizarre and unbelievable rumours that he miraculously cured the local mafia boss's daughter of terminal leukaemia. And among the chaos of his house, they find a document written by Art, *The Book of Hidden Things*, that promises to reveal dark secrets and wonders beyond anything previously known. Francesco Dimitri's first novel written in English, following his career as one of the most significant fantasy writers in Italy, will entrance fans of Elena Ferrante, Neil Gaiman and Donna Tartt. Set in the beguiling and seductive landscape of Southern Italy, this story is about friendship and landscape, love and betrayal; above all it is about the nature of mystery itself.

**100 Interesting Case Studies in Neurointervention: Tips and Tricks** Vipul

Gupta,Ajit S. Puri,Rajsrinivas Parthasarathy,2019-04-10 Neurointervention is a fast-growing subspecialty, and recent trials have demonstrated its role in ischaemic and haemorrhagic stroke. This has generated tremendous interest among interventional neuroradiology, neurology and neurosurgery communities. Nevertheless, formal teaching programmes that provide the required experience are limited, and many early career practitioners are not exposed to the crucial technical details essential to safely performing the procedure before they start practising independently. The book presents 100 characteristic case studies to illustrate the salient technical and clinical issues in decision-making and problem solving during the procedure. This book conveys the “real-world” issues and solutions that are not addressed in detail in most books. As such it is a practical teaching book with useful “tips and tricks” on how to handle specific challenging situations, and is particularly useful for fellows in neurointervention training programmes..
