Grammatical Proof of the Affinity of the Hungarian Language with Languages of Fennic Origin (Göttingen: Dieterich, 1799) Sámuel Gyarmathi,1983-01-01 Sámuel Gyarmathi's Affinitas linguae hungaricae cum linguis fennicae originis grammaticae demonstrata (Göttingen 1799) was received as a distinguished work of scholarship in its own days, and its historical importance has been fully recognized ever since. This volume provides an English translation of the entire Latin text, including the Latin glosses of the original (with the exception of zoological and botanical terms, and a few passages where specific reference is made to Latin grammar). This translation includes two additions to the text of Affinitas as reprinted in the Indiana University series: Appendix III, a letter to Gyarmathi by A. L. von Schötzler, and a number of notes in the author's own hand, found in his copy of the work (now held in the Library of the Lycée of Zalău). The translator's Preface provides an introduction to the work and an overview of Gyarmathi's life.

Summa Theologiae Supplementum 1-68 St. Thomas Aquinas,2012-12-01 The most important work of the towering intellectual of the Middle Ages, Thomas Aquinas's Summa Theologiae remains one of the great seminal works of philosophy and theology, while extending to subjects as diverse as law and government, sacraments and liturgy, and psychology and ethics. In his third and final part of the Summa Theologiae, Thomas Aquinas begins to address the life of Christ, lived out both in Jesus himself, and in each of the baptized through the sacraments.

Epicoene or The Silent Woman Ben Jonson,2014-06-18 'A silent and loving woman is a gift of the lord' This 'excellent comedy of affliction' enjoyed enormous prestige for more than a century after its first performance: for John Dryden it had 'the greatest and most noble construction of any pure unmixed comedy in any language'. Its title signals Jonson's satiric and complex concern with gender: the play asks not only 'what should a man do?', but how should men and women behave, both as fit examples of their sex, and to one another? The characters furnish a cross-section of wrong answers, enabling Jonson to create riotous entertainment out of lack, loss and disharmony, to the point of denying the straightfowardly festive conclusion which audiences at comedies normally expect. Much of the comic vitality arises from a degeneration of language, which Jonson called 'the instrument of society', into empty chatter or furious abuse, and from a plot which is a series of lies and betrayals (the hero lies to everyone and Jonson lies to the audience). The central figure is a man named Morose, who hates noise yet lives in the centre of London, and who, because of his decision to marry a woman he supposes to be silent, exposes himself to a fantastic cacophony of voices, male, female and - epicene. This student edition contains a lengthy Introduction with background on the author, date and sources, theme, critical interpretation and stage history.
