The Emergent African Union Law Olufemi Amao,Michèle Olivier,Konstantinos D. Magliveras,2021 This edited collection explores the role of law in the regional integration effort in Africa, and assesses the extent to which African Union law is having in impact on domestic law across the continent. It analyses how the African Union is engendering new norms and standards, in areas such as economic regulation and democratic constitutionalism.--

The Last Mile in Ending Extreme Poverty Laurence Chandy,Hiroshi Kato,Homi Kharas,2015-07-20 Viewed from a global scale, steady progress has been made in reducing extreme poverty—defined by the \$1.25-a-day poverty line—over the past three decades. This success has sparked renewed enthusiasm about the possibility of eradicating extreme poverty within a generation. However, progress is expected to

become more difficult, and slower, over time. This book will examine three central changes that need to be overcome in traveling the last mile: breaking cycles of conflict, supporting inclusive growth, and managing shocks and risks. By uncovering new evidence and identifying new ideas and solutions for spurring peace, jobs, and resilience in poor countries, *The Last Mile in Ending Extreme Poverty* will outline an agenda to inform poverty reduction strategies for governments, donors, charities, and foundations around the world.

**The End of China's Non-Intervention Policy in Africa** Obert Hodzi,2018-10-22

This book gives a compelling analysis and explanation of shifts in China's non-intervention policy in Africa. Systematically connecting the neoclassical realist theoretical logic with an empirical analysis of China's intervention in African civil wars, the volume highlights a methodical interlink between theoretical and empirical analysis that takes into consideration the changing status of rising powers in the global system and its effect on their intervention behaviour. Based on field research and expert interviews, it provides a rigorous analysis of China's emergent intervention behaviour in some key African conflicts in Libya, South Sudan and Mali and broadens the study of external interventions in civil wars to include the intervention behaviour of non-Western rising powers.

**Contemporary Issues in Africa's Development** Ehimika A. Ifidon,Richard A.

Olaniyan,2018-04-18 This volume reports on the state of crisis in Africa in the early twenty-first century. Africa, on the eve of the 'independence revolution', was the continent of hope and high expectations. By the third decade of independence, optimism had been replaced by dismality. African states had been beset by ethno-political squabbles, military rule, civil wars, Islamic and insurgent movements, extreme poverty and disease. With the ascent of redemocratization in the 1990s and of 'new' pan-Africanism derived from the formation of the African Union, Africa appeared set to claim its vaunted destiny. This book

asks, with hindsight to the first decade of the twenty-first century: how real was the renaissance in African life? If the dismal African condition is a phase in the historical development of Africa, this volume does not see any golden age in the past to which Africa aspires to return. There is clearly a continuation and persistence of crisis, with an absence of good governance, personalisation of state power, widespread disease, and policy failure in education, economy and infrastructural development. Although endowed with abundant human and natural resources, Africa remains the least developed and most indebted continent. Whither then the African Renaissance? The methodologies that underpin the contributions in this book are as diverse as the specialisations of the contributors. The collection questions ideologically protected assumptions and presumptions, presenting Africa as it is, because it is only by knowing where Africa truly stands that a proper direction can be charted for it.

Kenya's Running Women Michelle M Sikes, 2023-12-01 Since Pauline Konga's breakthrough performance at the 1996 summer Olympics in Atlanta, the world has become accustomed to seeing Kenyan women medal at major championships, sweep marathons, and set world records. Yet little is known about the pioneer generation of women who paved the way for Kenya's reputation as an international powerhouse in women's track and field. In *Kenya's Running Women: A History*, historian and former professional runner Michelle M. Sikes details the triumphs and many challenges these women faced, from the advent of Kenya's athletics program in the colonial era through the professionalization of running in the 1980s and 1990s. Sikes reveals how over time running became a vehicle for Kenyan women to expand the boundaries of acceptable

female behavior. Kenya's Running Women demonstrates the necessity of including women in histories of African sport, and of incorporating sport into studies of African gender and nation-building.

*The Birds of Africa: Volume VII*, 2020-06-25 Universally recognised as by far the most authoritative work ever published on the subject, *The Birds of Africa* is a superb multi-contributor reference work, with encyclopaedic species texts, stunning paintings of all species and numerous subspecies, hundreds of informative line drawings, detailed range maps, and extensive bibliographies. Each volume contains an Introduction that brings the reader up to date with the latest developments in African ornithology, including the evolution and biogeography of African birds. Diagnoses of the families and genera, often with superspecies maps, are followed by the comprehensive species accounts themselves. These include descriptions of range and status, field characters, voice, general habits, food, and breeding habits. Full bibliographies, acoustic references, and indexes complete this scholarly work of reference. This seventh and final volume in the series deals comprehensively with 309 species. These comprise all the seed-eating families, from sparrows to buntings and including weavers, widowbirds, whydahs and waxbills. The editors and artists have worked closely with other authors - all acknowledged experts in their field - to produce a superb reference in which comprehensive texts on every species are complemented by accurate and detailed paintings and drawings of the birds themselves.

**If We Must Die** Eric Robert Taylor, 2009-03-01 *If We Must Die* examines nearly five hundred shipboard rebellions that occurred over the course of the entire slave trade, directly challenging the prevailing thesis that such resistance was infrequent or insignificant. As Eric Robert Taylor shows, though most revolts were crushed quickly, others raged on for hours, days, or weeks, and, occasionally, the Africans captured the vessel and returned themselves to freedom. In recounting these rebellions, Taylor suggests that certain factors like geographic location, the involvement of women and children, and the timing of a shipboard revolt, determined the difference between success and failure. Taylor also explores issues like aid from other ships, punishment of slave rebels, and treatment of sailors captured by the Africans. *If We Must Die* expands the historical view of slave resistance, revealing a continuum of rebellions that spanned the Atlantic as well as the centuries. These uprisings, Taylor argues, ultimately helped limit and end the traffic in enslaved Africans and also served as crucial predecessors to the many revolts that occurred subsequently on plantations throughout the Americas.
