**After Action** Dan Sheehan,2012-10-05 If you are a warrior ... or know one ... you will want to read this brave and moving memoir.

**Incident Management for Operations** Robb Schnepf, Ron Vidal, and Chris Hawley,2017-07-07 Are you satisfied with the way your company responds to IT incidents? How prepared is your response team to handle critical, time-sensitive events such as service disruptions and security breaches? IT professionals looking for effective response models have successfully adopted the Incident Management System (IMS) used by firefighters throughout the US. This practical book shows you how to apply the same response methodology to your own IT operation. You'll learn how IMS best practices for leading people and managing time apply directly to IT incidents where the stakes are high and outcomes are uncertain.

**After Action Review** Artie Mahal,2018-01-17 Master the After Action Review (AAR) to improve the outcome of any personal or professional activity. From the beginning of time, humans have survived and thrived by learning from their experiences - both good and bad - and then tweaked their actions for better results next time. This continual quest for improvement stems from the difference between what was and what could be. Even if we're not consciously aware of it, we're constantly seeking improvement in this very same way. If we turn to this analysis in a more intentional and methodical way, with an eye towards continuous improvement (CI), then next time around the outcomes can be more rewarding and desirable. After Action Review (AAR) is a continuous improvement approach for reflecting on the work of a group or team. Learn how to apply both informal and formal AAR approaches. Along with a complete walkthrough, the book includes resources and materials you can use in your work right now. For example, the Group Insights template will help you distinguish likes from wishes, and the Planning Template will show you how to optimize the time spent during the AAR. Chapter 1 covers basic facilitation skills needed to conduct an AAR including active listening, questioning, information gathering and analysis, public speaking, presenting, intervening, and managing group dynamics. Chapter 2 explains the AAR in detail including its value proposition and frameworks. Chapter 3 explores the informal AAR and Chapter 4 the formal AAR.

**The Cambridge Handbook of Meeting Science** Joseph A. Allen,Nale Lehmann-Willenbrock,Steven G. Rogelberg,2015-07-15 This first volume to analyze the science of meetings offers a unique perspective on an integral part of contemporary work life. More than just a tool for improving individual and organizational effectiveness and well-being, meetings provide a window into the very essence of organizations and employees' experiences with the organization. The average employee attends at least three meetings per week and managers spend the majority of their time in meetings. Meetings can raise individuals, teams, and organizations to tremendous levels of achievement. However, they can also undermine effectiveness and well-being. The Cambridge Handbook of Meeting Science assembles leading authors in industrial and organizational psychology, management, marketing, organizational behavior, anthropology, sociology, and communication to explore the meeting itself, including pre-meeting activities and post-meeting activities. It provides a comprehensive overview of research in the field and will serve as an invaluable starting point for scholars who seek to understand and improve meetings.

*Empowering the People of God* Christopher D. Denny,Mary Beth Fraser Connolly,2013-11-01 The early 1960s were a heady time for Catholic laypeople. Pope Pius XII's assurance "You do not belong to the Church. You are the Church" emboldened the laity to challenge Church authority in ways previously considered unthinkable. Empowering the People of God offers a fresh look at the Catholic laity and its relationship with the hierarchy in the period immediately preceding the Second Vatican Council and in the turbulent era that followed. This collection of essays explores a diverse assortment of manifestations of Catholic action, ranging from genteel reform to radical activism, and an equally wide variety of locales, apostolates, and movements.

**Diplomacy and War at NATO** Ryan C. Hendrickson,2006 NATO is an alliance transformed. Originally created to confront Soviet aggression, the North Atlantic Treaty Organization evolved in the 1990s as a military alliance with a broader agenda. Whether conducting combat operations in the Balkans or defending Turkey from an Iraqi threat in 2003, NATO continues to face new security challenges on several fronts. Although a number of studies have addressed NATO's historic evolution, conceptual changes, and military activities, none has considered the role in this transformation of the secretary general, who is most often seen as a minor player operating under severe political constraints. In *Diplomacy and War at NATO*, Ryan C. Hendrickson examines the first four post-Cold War secretaries general and establishes their roles in moving the alliance toward military action. Drawing on interviews with former NATO ambassadors, alliance military leaders, and senior NATO officials, Hendrickson shows that these leaders played critical roles when military force was used and were often instrumental in promoting transatlantic consensus. Hendrickson offers a focus on actual diplomacy within NATO unmatched by any other study, providing previously unreported accounts of closed sessions of the North Atlantic Council to show how these four leaders differed in their impacts on the alliance but were all critical players in explaining how and when NATO used force. He examines Manfred Wörner's role in moving the alliance toward military action in the Balkans; Willy Claes's influence in shaping alliance policies regarding NATO's 1995 bombing campaign on the Bosnian Serbs; Javier Solana's part in shaping political and military agendas in the Yugoslavian war; and George Robertson's efforts to promote consensus on the Iraqi issue, which culminated in NATO's decision to provide Turkey with military defensive measures. Through each case, Hendrickson demonstrates that the secretary general is often the central diplomat in generating cooperation within NATO. As the alliance has expanded its membership and undertaken new peacekeeping missions, it now confronts new threats in international security. *Diplomacy and War at NATO* offers readers a more complete understanding of the alliance's post-Cold War transformation as well as policy recommendations for the improvement of transatlantic tensions.

Roswell Greg Lawson,2021-09-20 The truth is always the strongest argument. - Sophocles The Roswell Incident is possibly the most investigated and controversial UFO case in history. There are no shortages of beliefs and opinions to the actual events of this unusual happening. Dozens of corroborated witnesses and hundreds of professed witnesses have been interviewed, each with their varying degree of credibility. In *Roswell: The After-Action Report*, veteran detective Greg Lawson uses forensic statement analysis and his thousands of hours of training and experience to review the cultural influence, historical context, and eyewitness testimony of those closest involved. The results of his review prove once again, citizens should always be skeptical of those in charge.

After Parsons Renee C. Fox,Victor M. Lidz,Harold J. Bershady,2005-08-25 Esteemed twentieth-century sociologist Talcott Parsons sought to develop a comprehensive and coherent scheme for sociology that could be applied to every society and historical epoch, and address every aspect of human social organization and culture. His theory of social action has exerted enormous influence across a wide range of social science disciplines. *After Parsons*, edited by Renée Fox, Victor Lidz, and Harold Bershady, provides a critical reexamination of Parsons' theory in light of historical changes in the world and advances in sociological thought since his death. *After Parsons* is a fresh examination of Parsons' theoretical undertaking, its significance for social scientific thought, and its implications for present-day empirical research. The book is divided into four parts: Social Institutions and Social Processes; Societal Community and Modernization; Sociology and Culture; and the Human Condition. The chapters deal with Parsons' notions of societal community, societal evolution, and modernization and modernity. *After Parsons* addresses major themes of enduring relevance, including social differentiation and cultural diversity, social solidarity, universalism and particularism, and trust and affect in social life. The contributors explore these topics in a wide range of social institutions—family and kinship, economy, polity, the law, medicine, art, and religion—and within the context of contemporary developments such as globalization, the power of the United States as an empireless empire, the emergence of forms of fundamentalism, the upsurge of racial, tribal, and ethnic conflicts, and the increasing occurrence of deterministic and positivistic thought. Rather than simply celebrating Parsons and his accomplishments, the contributors to *After Parsons* rethink and reformulate his ideas to place them on more solid foundations, extend their scope, and strengthen their empirical insights. *After Parsons* constitutes the work of a distinguished roster of American and European sociologists who find Parsons' theory of action a valuable resource for addressing contemporary issues in sociological theory. All of the essays in this volume take elements of Parsons' theory and critique, adapt, refine, or extend them to gain fresh purchase on problems that confront sociologists today.

**Protesting Affirmative Action** Dennis Deslippe,2012-03 In the process of balancing ideals of race and gender equality with competing notions of colorblindness and meritocracy, they even borrowed the language of the civil rights era to make far-reaching claims about equality, justice, and citizenship in their anti-affirmative action rhetoric. Deslippe traces this conflict through compelling case studies of real people and real jobs. He asks what the introduction of affirmative action meant to the careers and livelihoods of Seattle steelworkers, New York asbestos handlers, St. Louis firemen, Detroit policemen, City University of New York academics, and admissions councilors at the University of Washington Law School. Through their experiences, Deslippe examines the diverse reactions to affirmative action, concluding that workers had legitimate grievances against its hiring and promotion practices.

**Redeployment** Phil Klay,2014-03-04 Winner of the National Book Award for Fiction Redeployment is hilarious, biting, whipsawing and sad. It's the best thing written so far on what the war did to people's souls." —Dexter Filkins, The New York Times Book Review Selected as one of the best books of the year by The New York Times Book Review, Time, Newsweek, The Washington Post Book World, Amazon, and more Phil Klay's Redeployment takes readers to the frontlines of the wars in Iraq and Afghanistan, asking us to understand what happened there, and what happened to the soldiers who returned. Interwoven with themes of brutality and faith, guilt and fear, helplessness and survival, the characters in these stories struggle to make meaning out of chaos. In Redeployment, a soldier who has had to shoot dogs because they were eating human corpses must learn what it is like to return to domestic life in suburbia, surrounded by people who have no idea where Fallujah is, where three members of your platoon died. In After Action Report, a Lance Corporal seeks expiation for a killing he didn't commit, in order that his best friend will be unburdened. A Mortuary Affairs Marine tells about his experiences collecting remains—of U.S. and Iraqi soldiers both. A chaplain sees his understanding of Christianity, and his ability to provide solace through religion, tested by the actions of a ferocious Colonel. And in the darkly comic Money as a Weapons System, a young Foreign Service Officer is given the absurd task of helping Iraqis improve their lives by teaching them to play baseball. These stories reveal the intricate combination of monotony, bureaucracy, comradeship and violence that make up a soldier's daily life at war, and the isolation, remorse, and despair that can accompany a soldier's homecoming. Redeployment has become a classic in the tradition of war writing. Across nations and continents, Klay sets in devastating relief the two worlds a soldier inhabits: one of extremes and one of loss. Written with a hard-eyed realism and stunning emotional depth, this work marks Phil Klay as one of the most talented new voices of his generation.

**A Civil Action** Jonathan Harr,2011-08-10 #1 NATIONAL BESTSELLER • NATIONAL BOOK CRITICS CIRCLE AWARD WINNER • The true story of one man so determined to take down two of the nation's largest corporations accused of killing children from water contamination that he risks losing everything. The legal thriller of the decade. —Cleveland Plain Dealer Described as “a page-turner filled with greed, duplicity, heartache, and bare-knuckle legal brinksmanship by The New York Times, A Civil Action is the searing, compelling tale of a legal system gone awry—one in which greed and power fight an unending struggle against justice. Yet it is also the story of how one man can ultimately make a difference. Representing the bereaved parents, the unlikeliest of heroes emerges: a young, flamboyant Porsche-driving lawyer who hopes to win millions of dollars and ends up nearly losing everything, including his sanity. With an unstoppable narrative power reminiscent of Truman Capote's In Cold Blood, A Civil Action is an unforgettable reading experience that will leave the reader both shocked and enlightened. A Civil Action was made into a movie starring John Travolta and Robert Duvall.

**After Action Report** John Owen Lally,2012-12-08 The author was an infantry squad leader and platoon sergeant in the famed 101st Airborne Division in the last years of the war in Vietnam. His poems, written often in foxholes and on bunker lines, trace a year-long tour of duty to chronicle the fear, hope, pride, guilt, and frustration of a combat soldier, and the issues of dealing with the experiences of war after separation from service. All profits from the sale of this book will be donated to support the programs of the 506th Airborne Infantry Regiment Association, a nonprofit veterans organization which strongly supports active duty soldiers.

**Conducting After Action Reviews for animal health emergencies** Callan, T., Bonbon, E., Gbaguidi, L., Nzietchueng, S., Tenenbaum, N.,2022-01-27 In today's world, the risk of spread of animal health diseases, within a country or across borders, is on the rise. Contributing factors include growing animal populations, increased movement of humans and animals, market intensification and global trade. Animal health services around the world play an essential role in curbing animal disease spread. They do so by increasing their capacity to manage animal health emergencies, preparing for such events during “peacetime” and reflecting on lessons learned during the “reconstruction phase”. These actions look to enhance a country's state of operational readiness ahead of future events. Carrying out an After Action Review (AAR) of a country's emergency response is an integral part of learning; it provides countries with the opportunity to highlight what they have done well and what gaps remain to be filled in terms of animal health emergency management. This AAR manual outlines current practices for organizational learning and how they can be applied in the context of animal health emergencies. It details the steps to perform an animal health emergency AAR and leads readers through designing, preparing, conducting and reporting on an AAR. Veterinary services and competent authorities responsible for managing the response to animal health emergencies can apply the principles discussed in this manual to AARs at the country level – or in other settings such as producer organizations, multicountry regional commissions or international organizations.
