

AGAINST THE GRAIN

ANN S. BAYER

[Against the Grain](#) James C. Scott, 2017 An account of all the new and surprising evidence now available for the beginnings of the earliest civilizations that contradict the standard narrative. Why did humans abandon hunting and gathering for sedentary communities dependent on livestock and cereal grains, and governed by precursors of today’s states? Most people believe that plant and animal domestication allowed humans, finally, to settle down and form agricultural villages, towns, and states, which made possible civilization, law, public order, and a presumably secure way of living. But archaeological and historical evidence challenges this narrative. The first agrarian states, says James C. Scott, were born of accumulations of domestications: first fire, then plants, livestock, subjects of the state, captives, and finally women in the patriarchal family—all of which can be viewed as a way of gaining control over reproduction. Scott explores why we avoided sedentism and plow agriculture, the advantages of mobile subsistence, the unforeseeable disease epidemics arising from crowding plants, animals, and grain, and why all early states are based on millets and cereal grains and unfree labor. He also discusses the barbarians who long evaded state control, as a way of understanding continuing tension between states and nonsubject peoples.

[Against the Grain](#) Richard Manning, 2005-02-01 In this provocative, wide-ranging book, [Against the Grain](#), Richard Manning offers a dramatically revisionist view of recent human evolution, beginning with the vast increase in brain size that set us apart from our primate relatives and brought an accompanying increase in our need for nourishment. For 290,000 years, we managed to meet that need as hunter-gatherers, a state in which Manning believes we were at our most human: at our smartest, strongest, most sensually alive. But our reliance on food made a secure supply deeply attractive, and eventually we embarked upon the agricultural experiment that has been the history of our past 10,000 years. The evolutionary road is littered with failed experiments, however, and Manning suggests that agriculture as we have practiced it runs against both our grain and nature’s. Drawing on the work of anthropologists, biologists, archaeologists, and philosophers, along with his own travels, he argues that not only our ecological ills—overpopulation, erosion, pollution—but our social and emotional malaise are rooted in the devil’s bargain we made in our not-so-distant past. And he offers personal, achievable ways we might re-contour the path we have taken to resurrect what is most sustainable and sustaining in our own nature and the planet’s.

[Against the Grain](#) Nancy Cain, 2015-02-03 Revolutionary all-natural recipes for gluten-free cooking—from the owner of [Against the Grain Gourmet](#). Nancy Cain came to gluten-free cooking simply enough: Her teenage son was diagnosed with celiac disease. After trying ready-made baking mixes and finding the results rubbery and tasteless, she pioneered gluten-free foods made entirely from natural ingredients—no xanthan or guar gums or other mystery chemical additives allowed. That led her to adapt many of her family’s favorite recipes, including their beloved pizzas, pastas, and more, to this real food technique. In [Against the Grain](#), Nancy finally shares 200 groundbreaking recipes for achieving airy, crisp breads, delicious baked goods, and gluten-free main dishes. For any of these cookies, cakes, pies, sandwiches, and casseroles, you use only natural ingredients such as buckwheat flour, brown rice flour, and ripe fruits and vegetables. Whether you’re making potato rosemary bread, iced red velvet cupcakes, lemon-thyme-summer squash ravioli, or rainbow chard and kalamata olive pizza, you’ll be able to use ingredients already in your pantry or easily found at your local supermarket. With ample information for gluten-free beginners and 100 colorful photographs, this book is a game changer for gluten-free households everywhere.

[Against the Grain](#) Robert Dana, 2009-09 [Against the Grain](#) is a collection of interviews with nine small press publishers, each one characterized by strength of resolve and a dedication to good books. Each press reflects, perhaps more directly than any large trade publisher could, the character of its founder; and each has earned its own place in the select group of important small presses in America. This collection is the first of its kind to explore with the publishers themselves the historical, aesthetic, practical, and personal impulses behind literary publishing. The publishers included are Harry Duncan (The Cummington Press), Lawrence Ferlinghetti (City Lights), David Godine (David R. Godine), Daniel Halpern (The Ecco Press), Sam Hamill and Tree Swenson (Copper Canyon Press), James Laughlin (New Directions), John Martin (Black Sparrow), and Jonathan Williams (The Jargon Society). Their passion for books, their belief in their individual visions of what publishing is or could be, their inspired mulishness crackle on the page.

[Danielle Walker’s Against All Grain Celebrations](#) Danielle Walker, 2016-09-27 New York Times bestseller • 125 recipes for grain-free, dairy-free, and gluten-free comfort food dishes for holidays and special occasions Named one of the five best gluten-free cookbooks of all time by MindBodyGreen When people adopt a new diet for health or personal reasons, they worry most about the parties, holidays, and events with strong food traditions, fearing their fond memories will be lost along with the newly eliminated food groups. After suffering for years with a debilitating autoimmune disease and missing many of these special occasions herself, Danielle Walker has revived the joy that cooking for holidays can bring in [Danielle Walker’s Against All Grain Celebrations](#), a collection of recipes and menus for twelve special occasions throughout the year. Featuring a variety of birthday cakes, finger foods to serve at a baby or bridal shower, and re-creations of backyard barbecue standards like peach cobbler and corn bread, Danielle includes all of the classics. There’s a full Thanksgiving spread—complete with turkey and stuffing, creamy green bean casserole, and pies—and menus for Christmas dinner; a New Year’s Eve cocktail party and Easter brunch are covered, along with suggestions for beverages and cocktails and the all-important desserts. Recipes can be mixed and matched among the various occasions, and many of the dishes are simple enough for everyday cooking. Stunning full-color photographs of every dish make browsing the pages as delightful as cooking the recipes, and beautiful party images provide approachable and creative entertaining ideas. Making recipes using unfamiliar ingredients can cause anxiety, and while trying a new menu on a regular weeknight leaves some room for error, the meal simply cannot fail when you have a table full of guests celebrating a special occasion. Danielle has transformed her most cherished family traditions into trustworthy recipes you can feel confident serving, whether you’re hosting a special guest with food allergies, or cooking for a crowd of regular grain-eaters.

[Living Against the Grain](#) Tim Muldoon, 2017-04-01 2019 Best Book Awards, Finalist: Religion: Christianity 2018 Catholic Press Association Book Awards, Second Place: Children’s Books and Books for Teens By discerning our deepest desires, we discover our truest selves. Today’s popular culture thrives on telling us what we should do and who we should be. We need to have the prestigious job, the perfect relationship, the jam-packed social life, and we need to show it all off on social media. But can achieving those things provide the fulfillment that we all long for? Is there something bigger and better out there waiting for us? Tim Muldoon has counseled countless young adults on this very issue. In [Living Against the Grain](#), Muldoon offers a field-tested strategy for those facing a time of transition to help them discern their deepest desires and discover their true purpose in and for this world. Each chapter focuses on a crucial aspect of decision making, such as traveling the unpaved road, discovering your calling, finding inner freedom, and loving authentically. Throughout the chapters, Muldoon poses reflective questions that make the material both personal and practical. By engaging in the unique discernment process found in this book, you’ll be wholly equipped to find the path you were meant to follow and become the person you were created to be.

[A Life Against the Grain](#) Julian Lincoln Simon, Although he spent thirty-five years of his life as a faculty member at three universities, his autobiography contains almost no discussion of departmental affairs or university politics, topics about which Simon had little or no interest. Rather, after the personal chronology and experiences, the book includes substantive chapters on research methods, population economics, and immigration. It also explains how Julian Simon became the economist he was. He analyzes crucial periods in his life when he developed his ideas on fundamental issues.--BOOK JACKET.

[Going Against the Grain: How Reducing and Avoiding Grains Can Revitalize Your Health](#) Melissa Smith, 2002-04-19 Diets high in grains can lead to a host of health problems such as obesity, diabetes, heart disease, fatigue, and more. [Going Against the Grain](#) outlines the disadvantages and potential dangers of eating various types of grains and provides practical, realistic advice on implementing a plan to cut back or eliminate grains on a daily basis. This book also includes easy-to-follow grain-free recipes and helpful suggestions for dining out.

[Against the Grain](#) Lowery Sims, 2012-10-30 Focusing on some of the most interesting conceptual technical trends in wood working today, [Against the Grain](#) includes approximately 65 vessels, sculptures, furniture, and installations, created since 2000, which provocatively defy categories and celebrate the visual dynamics of wood. The book demonstrates how contemporary creators have engaged the medium of wood in strategies that might be described as “postmodern,” employing mimicry, assemblage, virtuosity, and whimsy (with a serious purpose). Environmental issues also are prominently addressed. Artists represented include Derek Bencomo, Gary Carsley, Hunt Clark, Piet Hein Eek, David Ellsworth, Sebastian Errazuriz, Bud Latven, Mark Lindquist, Thomas Loeser, Sarah Oppenheimer, William Pope.L, Martin Puryear, Marc Andre Robinson, Laurel Roth, Betye Saar, Courtney Smith, Elisa Strozzyk, Alison Elizabeth Taylor, and Ursula von Rydingsvard.

[Going Against the Grain](#) Ann S. Bayer, 2009-03-23 This book is about passion, advocacy, and the willingness of parents to go against the grain. It’s about Hawai’i professionals choosing public education for their children in a state that adheres to a commonly held belief that public schools are failing and private schools are succeeding. University of Hawai’i education professor Ann Bayer interviewed fifty-one parents, including five who chose private schools. Physicians, professors, attorneys, military officers, teachers, legislators, business executives and entrepreneurs, bankers, and administrators of both genders and from a wide range of ethnic backgrounds were among those interviewed. Bayer begins by asking parents why they chose to send their children to public schools. She also asks them to describe the reaction of families, friends, and colleagues to their decision and their children’s school experiences—both positive and negative. From these conversations the concept of what constitutes a good public school emerges as well as the opportunities provided by such schools. Several parents remark that their children have gone on to attend the same colleges and universities as private school graduates. Other chapters examine more closely the prevalent belief in the superiority of Hawai’i’s private schools and its impact on students, parents, and teachers. Bayer argues that it is important to understand this belief system and how both newcomers and longtime residents are exposed to it given its influence on parental decisions about schooling. Finally, she returns to interviews with parents for suggestions on how to improve public education in Hawai’i and to address the question Why should we care about the public school system? Responses spark frank discussions on the broader implications for the civic and economic health of a community fragmented by two-tiered schooling. Candid and insightful, [Going](#)
