Death of the Traditional Real Estate Agent: Rise of the Super-Profitable Real Estate Sales Team Todd Walters, Craig Proctor,2015-03-23 We've all heard the stats and stories about

how tough it is to make a profitable living in real estate without high (and often devastating) lifestyle costs, but what do you know about the super successful agents, those netting \$500,000, \$1 million, \$3 million, or more a year selling real estate? What do you really know about how they think, what they do, and how they approach the business, most often rejecting the industry norms that enslave the average agent? The fact of the matter is, if your real estate business depends on you, you don't really have a business; you have a job. In stark contrast, these mega agents have true businesses built on turnkey systems and well-organized teams. There is no stopping this trend. More and more teams will come, garner more market share, and get paid premium fees at the same time working less and playing more than the typical agent. Inside these pages, we'll introduce you to sixteen of these super successful, highly profitable real estate team leaders who share the secrets of their rise to the top 1 percent of the entire industry, how they did it, and how you can copy your way to your own mega-successful real estate business.

Selling Sacred Ground Craig Farestveit, 2019-09-17 Selling Sacred Ground takes an in-depth look at the real estate sales process and whether or not the real estate agent will be relevant or worthy of replacement in the marketplace. With over 5 million homes selling in the US every year, our growing DIY culture is asking if the traditional real estate agent is worth the commissions paid in all of those transactions. After all, traditional

“experts” such as travel agents, stock brokers, and even doctors have been forced to adjust their roles with sites such as Expedia, Charles Schwab, and WebMD available to the public. Whereas most real estate resources are focused on how to get more clients and even more money from those clients, long-term veteran Craig Farestveit addresses how to actually do the job well for clients. A sobering how-to for those considering a career in real estate, *Selling Sacred Ground* looks at what a good real estate agent actually does in the sale of the home, helping those buying or selling decide if an agent is worth the cost and guiding experienced real estate agents to growth in a changing marketplace.

This e-book provides an experienced Real Estate Broker's take on what homeowners really need to know before they choose their Agent. It includes questions to ask, why you should ask them and what answers to look for in an easy to read format. Your home is likely your most valuable financial asset. Yet, most people selling their homes only ask two questions of their Real Estate Agent: 1. What price will it sell for? 2. What commission do you charge? While important, there are many other questions that homeowners should have the answers to before placing their largest financial asset in the hands of a virtual stranger. All Agents are not created equal. This book provides an experienced Real Estate Broker's take on what

homeowners really need to know before they choose their Agent. It includes questions to ask, why you should ask them and what answers to look for in an easy to read format. This book is a must-read before you interview any Agent to sell your property.

Real Estate Agents Vs. Realtors Vs. Brokers Razaq

Adekunle, 2020-12-29 Building a career in real estate can be exciting and challenging. It offers diversity from the clients you meet to the types of property you represent. Many individuals confuse the terms real estate agent, realtor, and broker and it can be a bit challenging to sort out. What you will learn in this book

How to Look for the Good Real Estate Agent - If you wish to sell your house, or planning to buy a house, you would need the help of a good real estate agent to make the process easier on your part. A good agent is someone who listens to what you need and what you wish to achieve. Qualities of a Top Real Estate Broker - The real estate business sees different people playing different roles. These include mortgage brokers, bankers, home inspectors, contractors, appraisers, property managers, and several others. That's not even counting the seller and potential buyers, for any property listed. The various contributions they make are too numerous to list but are all very important. One thing that remains constant: it is the Real Estate Broker who ties it all together. That's right, he or she calls all these different people out where needed, and to get the client's needs met. They facilitate communication between all of the people involved and keep track of the progress.

How to Choose the Real Estate Broker When Selling Your House? - Many times, a seller will select a broker based upon a referral. That is fine if that broker is experienced in your market and is not the husband or wife of friends who just entered the real estate profession. Most

Dangerous Realtor Website Mistakes - As more and more people are using the internet to find information, it's not a surprise realtors are using websites to leverage their business online, especially in the current downturn in the real estate market.

Every advantage over the competition matters. Having a solid website is a great extension of the traditional realtor's offline marketing approach. Not only does a realtor look personable and professional in the eyes of their clients, but also to visitors online who come across their site. Unfortunately, realtors who launch their websites end up with ones that aren't optimal to their businesses. Reasons to Hire a Real Estate Agent or Broker - There are several reasons to hire a professional real estate agent or broker to sell your home. You can opt to sell your property yourself, but a real estate agent or broker can often do a better job for you. In this book, we discuss some of the things homeowners should do to help their Realtor sell their home. At the beginning of the relationship, all too often homeowners do not do their research and as a result they make poor choices. A real Estate Agent can only control certain component parts of the transaction. The rest is up to the homeowner and market conditions.

So You Want to Be a Real Estate Agent: How to Pass Your State License Exam Angela Erickson, Atlantic Publishing Group, 2017 You decided you want to be a real estate agent, which seemed like the hard part. However, the state license exam might be a little harder. Teens that have taken interest in the real estate market can expand their interests through the information provided in this book. The book is full of examples and vibrant photography to make a complex subject interesting and easy to understand. At the end of the book, you will find sample tests, so that every reader will know what they're getting into.
