For of a sudden, through a break in the traffic, a scudding figure had sprung into sight. It was the figure of a man in a gray frock-coat and a shining 'topper,' a well-groomed, well-set-up man, with a small, turned-up moustache and hair of a peculiar reddish shade. As he swung into sight, the distant whistle shrilled again; far off in the distance voices sent up cries of 'Head him off!' 'Stop that man!' . . . (Excerpt)

*How Not to Age* Michael Greger, M.D., FACLM, 2023-12-05  
Instant New York Times Bestseller Uncover the evidence-based science to slowing the effects of aging, from the New York Times bestselling author of the *How Not to Die* series When Dr. Michael Greger, founder of NutritionFacts.org, dove into the top peer-reviewed anti-aging medical research, he realized that diet could regulate every one of the most promising strategies for combating the effects of aging. We don't need Big Pharma to keep us feeling young—we already have the tools. In *How Not to Age*, the internationally renowned physician and nutritionist breaks down the science of aging and chronic illness and explains how to help avoid the diseases most commonly encountered in our journeys through life. Physicians have long treated aging as a malady, but getting older does not have to mean getting sicker. There are eleven pathways for aging in our bodies' cells and we can disrupt each of them. Processes like autophagy, the upcycling of unusable junk, can be boosted with spermidine, a compound found in tempeh, mushrooms, and wheat germ. Senescent “zombie” cells that spew inflammation and are linked

to many age-related diseases may be cleared in part with quercetin-rich foods like onions, apples, and kale. And we can combat effects of aging without breaking the bank. Why spend a small fortune on vitamin C and nicotinamide facial serums when you can make your own for up to 2,000 times cheaper? Inspired by the dietary and lifestyle patterns of centenarians and residents of “blue zone” regions where people live the longest, Dr. Greger presents simple, accessible, and evidence-based methods to preserve the body functions that keep you feeling youthful, both physically and mentally. Brimming with expertise and actionable takeaways, *How Not to Age* lays out practical strategies for achieving ultimate longevity.

 Joseph Conrad (1857-1924), was a Polish author who wrote in English  
 after settling in England. Conrad is regarded as one of the greatest  
 novelists in English, though he did not speak the language fluently  
 until he was in his twenties. He wrote stories and novels, often with a  
 nautical setting, that depict trials of the human spirit in the midst of an  
 indifferent universe. He was a master prose stylist who brought a  
 distinctly non-English tragic sensibility into English literature.
