Guide du Routard Vietnam 2017

Collectif, 2016-09-07 Voilà un pays splendide qui a la forme d'un dragon, un très bon signe en Extrême-Orient. Là, tout n'est que rizières noyées sous le soleil, haies de bambous et chapeaux coniques. Au Vietnam, on ne s'énervé pas, on ne hausse pas la voix, on n'invective pas, même si les « eh you ! » un peu autoritaires vous choquent... Vous retrouverez dans le Routard Vietnam : une première partie haute en couleur avec des cartes et des photos, pour repérer plus facilement le pays dans son ensemble et nos coups de cœur ; des adresses souvent introuvables ailleurs ; des visites culturelles originales en dehors des sentiers battus ; des infos remises à jour chaque année puis des cartes et plans détaillés. Merci à tous les Routards qui partagent nos convictions : Liberté et indépendance d'esprit ; découverte et partage ; sincérité, tolérance et respect des autres.

Global Value Chains Meine Pieter van Dijk, Jacques Trienekens, 2012 Mondiale waardeketens

zijn het complexe netwerk van activiteiten tussen lokale producent en eindgebruiker. Global value chains schetst de invloed van deze waardeketens op lokaal, nationaal en internationaal niveau. Het boek geeft eerst een theoretisch en wetenschappelijk kader. Vervolgens krijgt de lezer een compleet beeld van de betekenis van mondiale waardeketens aan de hand van diverse casestudies, zoals de bierbrouwindustrie in Ghana, de Namibische bio-industrie, de industrie van halfgeleiders in China en Maleisië en het toerisme in Tanzania.

D&B Million Dollar Directory ,1999

Environment and Livelihoods in Tropical Coastal Zones International Rice Research Institute, International Water Management Institute, 2006-01-01 This book focuses on the challenges people face in managing agricultural crops, aquaculture, fisheries and related ecosystems in inland areas of coastal zones in the tropics of Asia, Africa, Australia and South America. These challenges can create conflicts in the use of natural resources between different stakeholders. Through many case studies, the book discusses the nature of the conflicts and identifies what is known and not known about how to manage them. For example, some case studies relate to the trade-offs between enhancing agricultural production by constructing embankments to keep out saline water and maintaining not only the variety of rural livelihoods but also brackish aquatic biodiversity. Other case studies provide the lessons learnt from the conversion of mangrove forests to shrimp farms.
