Katherine Ramsland

*Family and Friends CPR Student Manual* American Heart Association Staff,2016-09-15 Product 15-1016

**Diabetes and Heart Healthy Meals for Two** American Diabetes Association,American Heart Association,2016-11-07 People with diabetes want heart-healthy recipes, since heart disease strikes people with diabetes twice as often as the rest of the population. But they also want recipes that taste great. In *Diabetes & Heart Healthy Meals for Two*, the two largest health associations in America team up to provide recipes that are simple, flavorful, and perfect for people with diabetes who are worried about improving or maintaining their cardiovascular health. A follow-up to *Diabetes & Heart Healthy Cookbook*, this collaboration from the American Diabetes Association® and the American Heart Association focuses on meals with only two servings. Because so many adults with diabetes are older, two-serving meals are perfect for those without children in the house—or even those living alone who want to keep leftovers to a minimum.

**Pediatric Advanced Life Support Reference Card** American Heart Association,2020-10-21 20-1118

*SNAP* Katherine Ramsland,2012-02-21 Sudden flashes of inspiration have triggered many discoveries and inventions throughout history. Are such aha! moments merely random, or is there a way to train the brain to harness these seemingly unpredictable creative insights? This fascinating overview of the latest neuroscience findings on spontaneous thought processes, or snaps, describes how everyone—not just geniuses—can learn to improve the likelihood of their own eureka moments by adopting certain rewarding attitudes and habits. As the author explains, snaps are much more than new ideas. Snaps are insights plus momentum—they instantly compel or snap us toward action. They often occur after ordinary problem solving hits an impasse. We may feel stuck, but while we’re in a quandary, the brain is rebooting. Then, when we least expect it, the solution pops into our heads. She describes the results of numerous scientific experiments studying this phenomenon. She also recounts intriguing stories of people in diverse disciplines who have had a snap experience. Both the research and the stories illustrate that it’s possible to enhance our facility for snap moments by training ourselves to scan, sift, and solve. In the emerging economy, businesses and individuals need new strategies, and it’s clear that just thinking harder no longer works. People who can snap are often a step ahead: they have a vigilance advantage from exercising brain cells that build mental agility. While snapping is rewarding, fun, and good for improving our mental skills, it’s also much more: people who snap life-changing ideas that affect many others will redirect our future. Written in an accessible, jargon-free narrative that weaves together the latest research with illuminating stories of innovative people, this book teaches us how to cultivate our own inner epiphanies to gain an edge in our imaginations, our careers, our goals—indeed, in every aspect of our lives.

*Preventive Cardiology: A Companion to Braunwald's Heart Disease E-Book* Roger Blumenthal,JoAnne Foody,Nathan D. Wong,2011-02-25 Endorsed by the American Society for Preventive Cardiology! Preventive Cardiology - a new Companion to Braunwald’s Heart Disease - addresses the prevention and risk stratification of cardiovascular disease so that you can delay the onset of disease and moderate the effects and complications. Drs. Roger Blumenthal, JoAnne Foody, and Nathan Wong discuss the full range of relevant considerations, including the epidemiology of heart disease, risk assessment, risk factors, multiple risk factor-based prevention strategies, and developments in genetics and personalized medicine. This authoritative reference gives you the clinically relevant information you need for the effective prevention of cardiovascular disease. Recognize the factors for prevention and risk stratification around cardiovascular disease and effectively delay the onset of disease and moderate the effects and complications, even for individual who are genetically predisposed. Effectively navigate full range of considerations in prevention from epidemiology of heart disease, biology of atherosclerosis and myocardial infraction, risk assessment—established risk factors and emerging risk factors, multiple risk factor-based prevention strategies, and future directions—through genetics, personalized medicine, and much more. Tap into the expertise of prominent leaders in cardiovascular disease prevention with guidance from Drs. Roger Blumenthal—longtime director of the Framingham Heart Study—JoAnne Foody, and Nathan Wong. Gain a deeper understanding of the pathogenesis of disease and the rationale for management through discussions of basic science. Apply current clinical practice guidelines to ensure optimal outcomes in both primary and secondary prevention.

**The American Heart Association Low-Salt Cookbook** American Heart Association,2009-08-26 Dedicated to healthy eating, the American Heart Association has always provided readers with delicious ways to reduce their sodium intake— without sacrificing taste. Now it offers a completely revised and updated edition of the must-have cookbook for anyone trying to decrease the salt in his or her diet. Encompassing everything from appetizers and soups to entrees and desserts, this is a wonderful collection of more two hundred may start with Hot and Smoky Chipolte-Garlic Dip, move on to Grilled Pork Medallions with Apple Cider Sauce or maybe the Cajun Snapper, and finish with a decadent-tasting Denver Chocolate Pudding Cake. Each of the mouth-watering dishes, including fifty brand-new ones, includes a nutrient analysis. The book also provides the latest dietary information and tips on substituting ingredients, avoiding hidden sodium, and dining out while sticking to your low-sodium plan. It shows you how to accomplish your goals—and proves how stylish and flavorful eating heart-healthy can be!
