Music and the Play of Power in the Middle East, North Africa and Central Asia Laudan Nooshin, 2016-04-29 What is it about the history, geographical position and cultures of the Middle East, North Africa and Central Asia that has made music such a potent and powerful agent? This volume presents the first direct look at the complex relationship between music and power across a range of musical genres and countries. Discourses of power in the region centre on some of the most contested social issues, most notably in relation to nationhood, gender and religion. Individual chapters examine the ways in which music serves as a forum for playing out issues of power, ideology, resistance and subversion. How does music become a space for promoting - or conversely, resisting or subverting - particular ideologies or positions of authority? How does it accrue symbolic power in ways that are very particular, perhaps unique? And how does music become a site of social control or, alternatively, a vehicle for agency and empowerment, at times overt and at others highly subtle? What is it about music that facilitates, and sometimes disrupts, the exercise and flows of power? Who controls such flows, how and for what purposes? In asking such questions in the context of countries such as Afghanistan, Egypt, Iran, Tunisia and Tajikistan, the book draws on a wide range of relevant theoretical and critical ideas, and many disciplines including ethnomusicology, anthropology, sociology, politics, Middle Eastern studies, globalization studies, gender studies and cultural and media studies. The countries and areas explored share a great deal in historical and cultural terms, including a legacy of colonial and neo-colonial encounters and predominantly Judeo-Muslim religious traditions. It is hoped that the volume will contribute ultimately to a richer understanding of the role that music plays in these societies.

**Rediscovering the Islamic Classics** Ahmed El Shamsy, 2022-11-29 The story of how Arab editors of the late nineteenth and early twentieth centuries revolutionized Islamic literature Islamic book culture dates back to late antiquity, when Muslim scholars began to write down their doctrines on parchment, papyrus, and paper and then to compose increasingly elaborate analyses of, and commentaries on, these ideas. Movable type was adopted in the Middle East only in the early nineteenth century, and it wasn't until the second half of the century that the first works of classical Islamic religious scholarship were printed there. But from that moment on, Ahmed El Shamsy reveals, the technology of print transformed Islamic scholarship and Arabic literature. In the first wide-ranging account of the effects of print and the publishing industry on Islamic scholarship, El Shamsy tells the fascinating story of how a small group of editors and intellectuals brought forgotten works of Islamic literature into print and defined what became the classical canon of Islamic thought. Through the lens of the literary culture of nineteenth- and twentieth-century Arab cities—especially Cairo, a hot spot of the nascent publishing business—he explores the contributions of these individuals, who included some of the most important thinkers of the time. Through their efforts to find and publish classical literature, El Shamsy shows, many nearly lost works were recovered, disseminated, and harnessed for agendas of linguistic, ethical, and religious reform. Bringing to light the agents and events of the Islamic print revolution, *Rediscovering the Islamic Classics* is an absorbing

examination of the central role printing and its advocates played in the intellectual history of the modern Arab world.

**Kuwait and Al-Sabah** Rivka Azoulay, 2020-07-23 The Emirate of Kuwait hardly resembles the city-State it was at the start of the 20th century. The discovery of oil in 1938 rapidly transformed the tiny tribal sheikhdom of the Al-Sabah into a modern oil-producing state where, by the early 1980s, citizens were enjoying one of the highest standards of living in the world. While much has been written on the reasons why and how the Al-Sabah became a ruling dynasty, little is known about the nature of their authority and its relationship to Kuwait's social structure. Rivka Azoulay shows how despite the rapidity of change in the oil-rich, family-run emirate, it is the pre-oil dynamics of social and political life that dictate how society operates. The author shows that Kuwait's ambitious diversification plans to reduce oil-dependence by 2035 require a renegotiation of the regime's pact with society, which threatens the pre-oil alliances upon which the Al-Sabah's regime has been built.

**The Future of Islamic Banking and Finance in Indonesia** Romi Adetio Setiawan, 2023-07-20 Sharia-compliance is the *raison d'être* of Islamic banks. All of their instruments and activities should be based on sharia principles, which unfortunately exposes them to greater risks than their conventional counterparts, regulated under the dual banking system in Indonesia. These include inconsistencies between fatwas, unique reputational risks, and inefficiencies in the regulatory framework governing Islamic banks. This book critically examines the less-studied issue of developing an Islamic banking regulatory and supervisory framework that considers the risk pressures faced by Islamic banks' operations in an Indonesian financial sector dominated by conventional banks. The book assesses the extent to which the global financial standards of the Basel Accords have been followed by Islamic Banks in Indonesia, with respect to their regulation, supervision, and risk management, to highlight the unresolved tensions in the multiple regulatory and supervisory institutions. The book proposes a middle-ground approach that accommodates modification of the existing financial regulatory and supervisory system in line with international best practice. The reforms proposed in this book offer a way for financial regulatory and supervisory agencies to further develop modern Islamic law and finance. The book will be a valuable resource for scholars and policymakers interested in the dual banking system in Indonesia.

**Salman's Legacy** Madawi Al-Rasheed, 2018-06-01 King Salman of Saudi Arabia began his rule in 2015 confronted with a series of unprecedented challenges. The dilemmas he has faced are new and significant, from leadership shuffles and falling oil prices to regional and international upheaval. *Salman's Legacy* interrogates this era and assesses its multiple social, political, regional and international challenges. Whether Salman's policies have saved the kingdom from serious upheaval is yet to be seen, but no doubt a new kingdom is emerging. This book offers historical and contemporary insights into the various problems that persist in haunting the Saudi state. Madawi Al-Rasheed brings together well-established historians and social scientists with deep knowledge of Saudi Arabia--its history, culture and contemporary politics--to reflect on Salman's kingdom. They trace both policy continuities and recent ruptures that have perplexed observers of Saudi Arabia. This lucid and nuanced analysis invites serious reflection on the Saudi leadership's capacity to withstand the recent challenges, especially those that came with the Arab uprisings. At stake is the future of a country that remains vital to regional stability, international security, and the global economy.

**Recent Advances in NLP: The Case of Arabic Language** Mohamed Abd Elaziz, Mohammed A. A. Al-qaness, Ahmed A. Ewees, Abdelghani Dahou, 2019-11-29 In light of the rapid rise of new trends and applications in various natural language processing tasks, this book presents high-quality research in the field. Each chapter addresses a common challenge in a theoretical or applied aspect of intelligent natural language processing related to Arabic language. Many challenges encountered during the development of the solutions can be resolved by incorporating language technology and artificial intelligence. The topics covered include machine translation; speech recognition; morphological, syntactic, and semantic processing; information retrieval; text classification; text summarization; sentiment analysis; ontology construction; Arabizi translation; Arabic dialects; Arabic lemmatization; and building and evaluating linguistic resources. This book is a valuable reference for scientists, researchers, and students from academia and industry interested in computational linguistics and artificial intelligence, especially for Arabic linguistics and related areas.

**Philosophy and Jurisprudence in the Islamic World** Peter Adamson, 2019-09-02 This book brings together the study of two great disciplines of the Islamic world: law and philosophy. In both sunni and shiite Islam, it became the norm for scholars to acquire a high level of expertise in the legal tradition. Thus some of the greatest names in the history of Aristotelianism were trained jurists, like Averroes, or commented on the status and nature of law, like al-Fārābī. While such authors sought to put law in its place relative to the philosophical disciplines, others criticized philosophy from a legal viewpoint, like al-Ghazālī and Ibn Taymiyya. But this collection of papers does not only explore the relative standing of law and philosophy. It also looks at how philosophers, theologians, and jurists answered philosophical questions that arise from jurisprudence itself. What is the logical structure of a well-formed legal argument? What standard of certainty needs to be attained in passing down

judgments, and how is that standard reached? What are the sources of valid legal judgment and what makes these sources authoritative? May a believer be excused on grounds of ignorance? Together the contributions provide an unprecedented demonstration of the close connections between philosophy and law in Islamic society, while also highlighting the philosophical interest of texts normally studied only by legal historians.

The Mission and the Kingdom David Commins, 2016-09-29 In the wake of September 11th instant theories have emerged that try to root Osama Bin Laden's attacks on Wahhabism. Muslim critics have dismissed this conservative interpretation of Islam that is the official creed of Saudi Arabia as an unorthodox innovation that manipulated a suggestible people to gain political influence. David Commins' book questions this assumption. He examines the debate on the nature of Wahhabism, and offers original findings on its ascendance in Saudi Arabia and spread throughout other parts of the Muslim world such as Afghanistan and Pakistan. He also assesses the challenge that radical militants within Saudi Arabia pose to the region, and draws conclusions which will concern all those who follow events in the Kingdom. The Wahhabi Mission and Saudi Arabia is essential reading for anyone interested in the Middle East and Islamic radicalism today.

**Bedeviled** Dunja Rašić, 2024-03-01 Ghouls, ifrits, and a panoply of other jinn have long haunted Muslim cultures and societies. These also include jinn doppelgangers (qarīn, pl. quranā'), the little-studied and much-feared denizens of the hearts and blood of humans. This book seeks out jinn doppelgangers in the Islamic normative tradition, philosophy, folklore, and Sufi literature, with special emphasis on Akbarian Sufism. Muḥyī al-Dīn Ibn 'Arabī (d. 1240) wrote on jinn in substantial detail, uncovering the physiognomy, culture, and behavior of this unseen species. Akbarians believed that the good God assigned each human with an evil doppelganger. Ibn 'Arabī's reasoning as to why this was the case mirrors his attempts to expound the problem of evil in Islamic religious philosophy. No other Sufi, Ibn 'Arabī claimed, ever managed to get to the heart of this matter before him. As well as offering the reader knowledge and safety from evil, Ibn 'Arabī's writings on jinnealogy tackle the even larger issues of spiritual ascension, predestination, and the human relationship to the Divine.

**The Making of Salafism** Henri Lauzière, 2015-11-17 Some Islamic scholars hold that Salafism is an innovative and rationalist effort at Islamic reform that emerged in the late nineteenth century but gradually disappeared in the mid twentieth. Others argue Salafism is an anti-innovative and antirationalist movement of Islamic purism that dates back to the medieval period yet persists today. Though they contradict each other, both narratives are considered authoritative, making it hard for outsiders to grasp the history of the ideology and its core beliefs. Introducing a third, empirically based genealogy, *The Making of Salafism* understands the concept as a recent phenomenon projected back onto the past, and it sees its purist evolution as a direct result of decolonization. Henri Lauzière builds his history on the transnational networks of Taqi al-Din al-Hilali (1894–1987), a Moroccan Salafi who, with his associates, participated in the development of Salafism as both a term and a movement. Traveling from Rabat to Mecca, from Calcutta to Berlin, al-Hilali interacted with high-profile Salafi scholars and activists who eventually abandoned Islamic modernism in favor of a more purist approach to Islam. Today, Salafis tend to claim a monopoly on religious truth and freely confront other Muslims on theological and legal issues. Lauzière's pathbreaking history recognizes the social forces behind this purist turn, uncovering the popular origins of what has become a global phenomenon.

**The Syrian Jihad** Charles R. Lister, 2016-01-02 The eruption of the anti-Assad revolution in Syria has had many unintended consequences, among which is the opportunity it offered Sunni jihadists to establish a foothold in the heart of the Middle East. That Syria's ongoing civil war is so brutal and protracted has only compounded the situation, as have developments in Iraq and Lebanon. Ranging across the battlefields and international borders have been dozens of jihadi Islamist fighting groups, of which some coalesced into significant factions such as Jabhat al Nusra and the Islamic State. This book assesses and explains the emergence since 2011 of Sunni jihadist

organizations in Syria's fledgling insurgency, charts their evolution and situates them within the global Islamist project. Unprecedented numbers of foreign fighters have joined such groups, who will almost certainly continue to host them. Thus, external factors in their emergence are scrutinized, including the strategic and tactical lessons learned from other jihadist conflict zones and the complex interplay between Al-Qaeda and the Islamic State and how it has influenced the jihadist sphere in Syria. Tensions between and conflict within such groups also feature in this indispensable volume.
