The Bankers' Blacklist Julia C. Morse, 2022-01-15 In *The Banker's Blacklist*, Julia C. Morse demonstrates how the Financial Action Task Force (FATF) has enlisted global banks in the effort to keep bad money out of the financial system, in the process drastically altering the domestic policy landscape and transforming banking worldwide. Trillions of dollars flow across borders through the banking system every day. While bank-to-bank transfers facilitate trade and investment, they also provide opportunities for criminals and terrorists to move money around the globe. To address this vulnerability, large economies work together through an international standard-setting body, the FATF, to shift laws and regulations on combating illicit financial flows. Morse examines how this international organization has achieved such impact, arguing that it relies on the power of unofficial market enforcement—a process whereby market actors punish countries that fail to meet international standards. The FATF produces a public noncomplier list, which banks around the world use to shift resources and services away from listed countries. As banks restrict cross-border lending, the domestic banking sector in listed countries advocates strongly for new laws and regulations, ultimately leading to deep and significant compliance improvements. *The Bankers' Blacklist* offers lessons about the peril and power of globalized finance, revealing new insights into how some of today's most pressing international cooperation challenges might be addressed.

Poverty, Inequality and Growth in Developing Countries Atsushi Maki,2015-06-05 There are many problems regarding poverty, inequality and growth in developing countries in Asia and Africa. Policy makers at the national level and at international institutions such as the United Nations, World Bank, International Monetary Fund and others have implemented various policies in order to decrease poverty and inequality. This book provides empirical observations on Asian countries and Africa. Each chapter provides theoretical and empirical analysis on regional case studies with an emphasis on policy implications. The book will be of use to many who wish to assess and improve policies in developing countries and mitigate poverty and inequality, and stimulate growth, by drawing on relevant empirical research and economic theories. Clearly, there have been numerous policy failures and the book aims to provide a basis for improving policies and outcomes based on relevant empirical observations.

Ailand Gail O. Dellslee,2011-11-20 The first book in the Mij's Testament trilogy takes place in the mid-1960s. A honeymoon cruise goes horribly wrong when the captain insists that his 17-year-old son take over the helm, and the ship gets lost in the Bermuda Triangle. One lifeboat full of 12 people, including the captain and his son, washes up on an island. At first they think it is deserted, but they soon discover that a young woman named Aileen lives there. She claims to have arrived there when she was three years old, but her eloquent vocabulary makes them doubt her story. When she tells them that she was raised by fairies, they question her sanity. After the rations run out, the castaways' survival depends on this unreliable girl. They

attempt to teach her how to function in the civilized world, confident that they will be rescued and that Aileen will come with them when they are. However, Aileen is a stubborn girl, and she resists being forced to behave in ways that are unnatural and illogical. Will they ever be rescued? Or will they have to live like savages for the rest of their lives? And is that so bad?

Dictionary of the Modern Politics of Southeast Asia

Joseph Chinyong Liow, 2022-07-21 The past three decades since the end of the Cold War have been a time of

remarkable change for Southeast Asia. Long seen as an arena for superpower rivalry, Southeast Asia is increasingly coming into its own by locating itself at the forefront of regional integration initiatives that involve not only the states of the region, but major external powers such as the United States, China, India, Japan, and Australia.

Extensively updated and revised in light of these changes and developments, this fifth edition of Dictionary of the Modern Politics of Southeast Asia remains indispensable.

This new edition starts with profiles of each Southeast Asian country, before providing over 500 alphabetically arranged individual entries, each containing detailed accounts and analyses of major episodes and treaties, political parties and institutions, civil society movements, and regional and international organizations. Biographies of significant political leaders and personalities, both past and present, are also provided. Entries are comprehensively cross-referenced, and an index by country directs readers to all entries concerning a particular country. The Dictionary concludes with an extensive bibliography that serves as a guide to further reading. An essential one-stop reference book, this book is an indispensable tool for all scholars and students of Asian politics and international affairs, and a vital resource for journalists, diplomats, policy makers, and

others with an interest in the region.

Contemporary Muslim Travel Cultures C. Michael Hall, Siamak Seyfi, S. Mostafa Rasoolimanesh, 2022-07-26
This timely volume brings together various issues in Muslim consumer cultures and provides a comprehensive account of Muslim tourism and tourist behaviour. Islam is a major international religion and Muslims are a majority of the population in many countries in Asia, the Middle East and North Africa. The growth of a substantial middle class, the development of Islamic consumer cultures, rising Muslim market consumption in non-Muslim majority destinations and the growing significance of intra-Muslim traffic and rising outbound tourism expenditure in emerging Muslim markets have all contributed to substantial interest in Muslim tourism. However, travel by Muslims is about far more than the Hajj and Umrah, as important as they are as acts of devotion. Instead, although often portrayed in the West as a monolithic religion, Muslim travel and leisure behaviour is very diverse, with different traditions and cultures leading to a range of expressions of tourism-related consumption culture and practices. Drawing on a range of empirical studies undertaken in different social and economic contexts and countries, this book provides a well-balanced portrayal of the Muslim tourism experience and practices. This book makes a substantial contribution to an improved understanding of Muslim travel culture and will be required reading for anyone interested in this fast-growing market.

The Protection of Refugees in Southeast Asia

Sébastien Moretti, 2022-02-15 This book offers a comprehensive and detailed analysis of refugee protection in Southeast Asia from an international law perspective. It

examines both the legal and policy frameworks pertaining to the protection of refugees in the region as well as the countries' response to refugee movements from the Indochinese refugee crisis in the mid-1970s to the most recent developments. It covers important aspects of refugee protection, such as access to territory, non-refoulement, the treatment of refugees, the concept of refugee as applied in the region, burden-sharing and durable solutions to the plight of refugees. The analysis focuses specifically on the main countries of asylum within the Association of Southeast Asian Nations that are not parties to the 1951 Refugee Convention, namely Thailand, Malaysia and Indonesia. Using an international law perspective based on the doctrine of the 'two elements' (practice and *opinio juris*), the author argues that these states have long recognized that people fleeing persecution, armed conflict and generalized violence, namely refugees, should be protected. This in turn demonstrates that they recognize the existence and relevance of the international refugee regime despite their refusal to accede to the Refugee Convention. Offering a different perspective on the links between international refugee law and refugee protection in Southeast Asia, this book will be of interest to researchers and practitioners in the fields of international relations, international refugee law, international human rights law, migration governance and Southeast Asian Studies.

Soviet Foreign Policy and Southeast Asia (Routledge Revivals) Leszek Buszynski, 2013-09-13 This book focuses on the activity of the Soviet Union in Southeast Asia and the effects of Soviet policy on the region from 1969 to the time of first publication in 1986. In particular, Leszek Buszynski examines the rivalry between the Soviet Union and China, Soviet presence in Vietnam,

and the responsive efforts of surrounding regions towards collective security. U.S. policy in the region is a key consideration, particularly in terms of American attempts to placate China and encourage Japan to assist in the defence of the region. With a concluding assessment of regional trends and possible outcomes, this is an important and valuable work for students and scholars with an interest in the history and politics of international diplomacy in Southeast Asia.

Woman between Two Kingdoms Leslie Castro-Woodhouse, 2020 *Woman Between Two Kingdoms* explores the story of Dara Rasami, one of 153 wives of King Chulalongkorn of Siam in Thailand during the late nineteenth and early twentieth centuries. Born in a kingdom near Siam called Lan Na, Dara served as both hostage and diplomat for her family and nation. Thought of as a harem by the West, Siam's Inner Palace actually formed a nexus between the domestic and the political. Dara's role as an ethnic Other among the royal concubines assisted the Siamese in both consolidating the kingdom's territory and building a local version of Europe's hierarchy of civilizations. Dara Rasami's story provides a fresh perspective on both the sociopolitical roles played by Siamese palace women, and Siam's response to the intense imperialist pressures it faced in the late nineteenth century.

International Case Studies on Tourism Destination Management and COVID-19 Simon Hudson, 2022-08-18 *International Cases on Tourism Destination Management and COVID-19* provides students, lecturers and practitioners with an essential real-life resource on how different tourism destinations around the world have been impacted by, and responded to, the COVID-19 pandemic. These 34 in-depth case studies from the Americas, the APAC region, Europe, and the Middle East allow a global perspective, and acts as

a toolkit than can be used to design a better future for tourism destinations that embraces sustainability and collaboration. For each case study, secondary sources such as media articles, industry and government reports, campaign materials, websites and social media channels have been closely analysed. In addition, interviews have been conducted with destination marketers, government officials, tour operators, professional guides, and hotel managers to provide a holistic view for each destination. Each case study is structured around COVID-19 impacts, responses and outcomes, and includes further reading, video links, and discussion questions to challenge students further in their self-study and to encourage in-class discussions. This is an essential resource for tourism students and lecturers across the curriculum, and a fascinating read for anyone in the business of tourism.

Baptists Worldwide Erich Geldbach, 2022-07-06 The diverse Baptist movement goes back to the separatist wing of English puritanism. The book first describes the history and missionary expansion of this movement. It then lays out its teachings on baptism, eucharist, and ministry, its commitment to religious liberty and human rights, its socio-political involvement as well as the role of women in the church. Finally, exemplary details of Baptist existence in the local congregations and Unions/Conventions from around the world provide insight into the colorful life, work, order, and faith of a global people, held loosely together by its World Alliance. All thirty essays are written by experts in their fields from all continents.

The Routledge Handbook of Asian Linguistics Chris Shei, Saihong Li, 2022-07-28 The Routledge Handbook of Asian Linguistics provides a comprehensive overview of the ways in which Asian languages should be conceptualized as a whole, the distinct characteristics of each language group,

and the relationships and results of interactions between the languages and language families in Asia. Asia is the largest and the most populous continent on Earth, and the site of many of the first civilizations. This Handbook aims to provide a systematic overview of Asian languages in both theoretical and functional perspectives, optimally combining the two in intercultural settings. In other words, the text will provide a reference for researchers of individual Asian languages or language groups against the background of the entire range of Asian languages. Not only does the Handbook act as a reference to a particular language, it also connects each language to other Asian languages in the perspective of the entire Asian continent. Cultural roles and communicative functions of language are also emphasized as an important domain where the various Asian languages interact and shape each other. With extensive coverage of both theoretical and applied linguistic topics, The Routledge Handbook of Asian Linguistics is an indispensable resource for students and researchers working in this area.

Portraits of Global Christianity Gina A.

Zurlo, 2023-03-29 Living in Light of the Global Body of Christ Books on global Christianity have been growing substantially in the last ten years. The importance of studying Christianity beyond White Western history and theology has taken on a special relevance in an increasingly globalized world. The study of Global Christianity is about recognizing the diversity of Christians around the world in terms of their cultures, languages, ethnicities, worldviews, and approaches to the faith. World Christianity is about making global-local connections and providing Christians the opportunity to learn from one another to enhance their faith and broaden their perspectives. Most World Christianity books are written for scholarly audiences only.

However, *Portraits of Global Christianity* moves beyond that sphere and into the lives of Christians who have learned about and continue to experience the global church in their everyday lives. No other global Christianity book on the market provides this kind of self-understanding on the relationship between World Christianity and individual experience. In doing, it aims to make a unique contribution to the field. This book is geared toward a general Christian audience and is written in an accessible style with attractive full-color charts, maps, and graphs to make quantitative data on Christianity and other religions come alive. The reflections and essays in this book in honor of Todd M. Johnson provide readers with concrete examples of how knowledge and experience of Christianity worldwide has fundamentally changed their worldviews, perspectives of the faith, and vocational callings. It encourages readers to reflect on their attitudes toward people who do not look like them or live out the faith like them, to more seriously consider the growth of Christianity in the global South and its impact on their own lives, and seek opportunities to reach across ethnic, class, and gender boundaries for the sake of Christian hospitality, discipleship, and friendship.

Whither South East Asian Management? Chris Rowley, Malcolm Warner, 2013-09-13 This book examines the directions in which various structures and processes of management and business are moving in South East Asia, covering Indonesia, Malaysia, Thailand and Vietnam. It aims to update previous works in the field covering management and business in these countries. It goes on to deal with a wide variety of themes and issues, functional and practice areas, sectors and organisational types. Many key sectors are also covered, such as finance, retailing, telecoms, etc. The types or organisations covered range from multinational companies to state-owned enterprises. The

contributors cover current and ongoing developments of these themes, particularly in the context of globalization. The book also addresses the future directions management may be moving in this important part of the international economy. The authors are all experts in their fields and are all based in universities and business schools in the region, within the respective countries involved. The work is aimed at undergraduate and postgraduate students in business administration especially those on MBA programmes, development economics, management studies and related fields, as well as lecturers in those subjects and researchers in the field. This book was published as a special issue of *Asia Pacific Business Review*.

Asia's Unknown Uprisings Volume 2 George Katsiaficas, 2013-04-01 Ten years in the making, this magisterial work—the second of a two-volume study—provides a unique perspective on uprisings in nine Asian nations in the past five decades. While the 2011 Arab Spring is well known, the wave of uprisings that swept Asia in the 1980s remain hardly visible. Through a critique of Samuel Huntington's notion of a "Third Wave" of democratization, the author relates Asian uprisings to predecessors in 1968 and shows their subsequent influence on uprisings in Eastern Europe at the end of the 1980s. By empirically reconstructing the specific history of each Asian uprising, significant insight into major constituencies of change and the trajectories of these societies becomes visible. This book provides detailed histories of uprisings in nine places—the Philippines, Burma, Tibet, China, Taiwan, Bangladesh, Nepal, Thailand, and Indonesia—as well as introductory and concluding chapters that place them in a global context and analyze them in light of major sociological theories. Profusely illustrated with photographs, tables, graphs, and charts, it is the definitive, and defining,

work from the eminent participant-observer scholar of social movements.

Towards GE15 and Beyond Murray Hunter and Lim Teck Ghee, 2022-11-24 “[W]hen articles are written by astute commentators of the calibre of Hunter and Lim on the historical achievement of Malaysian voters rejecting BN after 61 years of unbroken, continuous rule, and the emergence of the nation’s first alternative governing coalition, they deserve to be collected in a handy publication. After all, they represent the first draft of history, and would serve as the first port of call for scholars in future decades researching the truly historic period of 2018-2021 when posterity beckoned.” Tommy Thomas Former attorney-general of Malaysia “As Malaysians anticipate GE15, we would do well to read these well-researched analyses by two of our best academics to avoid repeating the same follies of the past. With the two main political coalitions becoming interchangeable, Malaysia risks becoming a failed state if a progressive Third Force does not emerge soon to resolve the Malaysian dilemma.” Kua Kia Soong Socialist with Malaysian characteristics “It is common and even fashionable for Malaysians to lament on what’s wrong with the country, blame politicians and the system, and then sink into hopelessness and helplessness. Instead, we need to ask hard questions, examine possible options, decide on viable solutions and team up for collective action. This book by Hunter and Lim is an invitation for Malaysians to stare into the dark forces overshadowing Malaysia’s past, present and future and walk out of the woods of despair.” Wong Chin Huat Professor, Jeffrey Cheah Institute on Southeast Asia

New Futures for BIMSTEC Adluri Subramanyam Raju, Anasua Basu Ray Chaudhury, 2021-11-25 BIMSTEC (Bay of Bengal Initiative for Multi-Sectoral Technical and

Economic Cooperation) represents one of the most diverse regions of the world. Providing a unique link between South Asia and Southeast Asia, it brings together 1.5 billion people and a combined GDP of \$2.7 trillion. It also looks at the Bay of Bengal region as a zone of competition—and possible collaboration—between the littoral countries and major powers involved in the region. Comprehensive and topical, this volume will be an essential read for scholars and researchers of international relations, South Asian studies, foreign policy, diplomacy, Southeast Asian studies, defence and strategic affairs, maritime studies, international trade, regional cooperation, and political studies.

Global Perspectives on Spirituality and Education

Jacqueline Watson, Marian de Souza, Ann

Trousdale, 2013-12-04 In recent decades, and around the world, much attention has been given to the role of spirituality in the education of children and young people. While educationalists share many common goals and values in nurturing the spiritual lives of children and young people, national and regional cultures, religions and politics have impacted on the approaches scholars and practitioners have adopted in their investigations and practices. The different contexts across nations and regions mean that educators face quite distinct conditions in which to frame their approaches to spiritual education and research, and the nature and impact of these differences is not yet understood. This book brings together thinkers from around

the globe and sets them the task of explaining how their research on children's spirituality and education has been shaped by the historical, cultural, religious and political contexts of the geographic region in which they work. The book presents contributions in three sections - Europe and Israel, Australasia, and The Americas- and concludes with a chapter highlighting what is common and what is contextually unique about global approaches to spirituality and education.

The Hong Kong Gambit Phillip Church, 2022-06-10

Perhaps like this author you have a retirement account with savings invested in a diversified portfolio of stocks and bonds across industry sectors and financial markets. At the encouragement of your financial advisor, you may hold some international securities, including assets in emerging market economies like Hong Kong, which has long been one of the investment darlings of U.S. mutual fund managers. You would not be happy to learn, I suspect, that some of your foreign investment savings might be commingled with overseas money generated from illicit commerce, in particular Asian sex trafficking. That's the discovery of three Americans on vacation in Asia who get caught up in, and find themselves forced to thwart, a Hong Kong-based Chinese crime syndicate scheme to take control of Thailand's economy. The Hong Kong Gambit tells a fictional story based on the very real world of international illicit human trafficking that destroys lives of young girls and threatens the economic stability and progress of countries like Thailand.
