

Air America Radio 10

Norman H. Finkelstein

Road to Air America Sheldon Drobny, 2004 Tells the story of the obstacles the author and his wife Anita faced as they tried to make their idea for a progressive radio network a reality. Beyond chronicling their odyssey through the worlds of politics, money and media, *Road to Air America* shares the historical background to Air America's liberal voice, and how it led to Drobny's fight against what he sees as the biased agenda of corporate media ownership. Terror on the Air! Richard J. Hand, 2012-10-26 The macabre world of monsters, killers on the loose and revenge from beyond the grave existed not only in the movies, but also on the radio before television's dominance in American homes. One of many distinct genres born of early broadcasting, terror-inspiring radio thrilled millions. Nearly 80 such programs, many of enduring sophistication, aired every week in the late 1940s. This first full-length study of golden age horror radio focuses on six representative programs, starting with *The Witch's Tale* in 1931 and ending with *The Mysterious Traveler* in 1952. Each chapter is a critically and historically informed study of one series. The book ends with a look at the demise of horror radio and its enduring influence. Photographs are included.

Signals in the Air Michael Keith, 1995-01-16 *Signals in the Air: Native Broadcasting in America* is the first book-length study of one of the most unique communications enterprises in U.S. history. It is the remarkable account of how the nation's most exploited minority group overcame adversity by embracing the airwaves. Through their own radio and television stations, American Indians have found a way to keep their cultures and languages from perishing. This book examines the impetus behind the development of Native-run stations and how these stations operate today. It assesses the influence and impact of Native broadcasts in the Indigenous community and seeks to chronicle the formidable challenges confronting Indian broadcasters as they

provide vital programming services to the often impoverished inhabitants of the nation's remote reservations.

Empire of the Air Tom Lewis, 1991 Biographies of three pioneers in the radio field who turned a hobby into radio and launched the modern communications age.

Sounds in the Air Norman H. Finkelstein, 2000-09-12 Return with us now to those thrilling days of yesteryear... In this unique contribution to American social history, Norman Finkelstein explores the Golden Age of radio broadcasting from the Great Depression through World War II. Radio became the common experience that unified a diverse America, providing entertainment, news and information, which unified all Americans. Quoted passages from old programs and commercials provide readers with the flavor of what radio used to be.

Talking Radio: An Oral History of American Radio in the Television Age Michael C. Keith, 2020-07-24 Includes interviews with such well known personalities as Walter Cronkite, Dick Clark, Steve Allen, Art Linkletter, Paul Harvey, Howard K. Smith, Ed McMahon, Bruce Morrow, as well as more than fifty other individuals who were or continue to be actively involved in radio.

Sports-talk Radio in America, 2006 Sports-Talk Radio in America looks at major-, medium-, and small-market stations across the United States that feature an all-sports format, with a focus on the unique personalities and programming strategies that make each station successful. Broadcasters, journalists, and academics provide insight on how and why this media phenomenon has become an important influence of American culture, examining the guy talk broadcasting approach, the traditional sports-emphasis approach, HSOs (hot sports opinions),

localism in broadcasting, how sports talk radio builds communities of listeners, and how reckless, on-air comments can actually build ratings.

Us Against Them Randy Bobbitt, 2010-05-25 *Us against Them* examines the phenomenon of talk radio and the role that it plays in the American political process as well as popular culture. Utilizing historical accounts of the industry's growth, biographies of well-known hosts, and interviews with individuals working in the industry, Randy Bobbitt explores why people choose to listen to political talk instead of music when they turn on their radio.

Lies (and the Lying Liars Who Tell Them) Al Franken, 2004-08-05 Al Franken, one of America's savviest satirists has been studying the rhetoric of the Right. He has listened to their cries of 'slander', 'bias' and even 'treason'. He has examined the Bush administration's policies of squandering our surplus, ravaging the environment, and alienating the rest of the world. He's even watched Fox News. A lot. And in this fair and balanced report, Al bravely exposes them all for what they are: liars. Lying, lying, liars.

Music, Sound, and Technology in America Timothy D. Taylor, Mark Katz, Tony Grajeda, 2012-06-19 This reader collects primary documents on the phonograph, cinema, and radio before WWII to show how Americans slowly came to grips with the idea of recorded and mediated sound. Through readings from advertisements, newspaper and magazine articles, popular fiction, correspondence, and sheet music, one gains an understanding of how early-20th-century Americans changed from music makers into consumers.

Air America , 2006-09-19 Air America Radio, a talk radio network exclusively devoted to liberal, progressive talk, offers a roadmap to the landmine that is American politics today, through an array of eyes and voices unabashedly left of center.

The Road Not Taken: Edward Lansdale and the American

Tragedy in Vietnam Max Boot, 2018-01-09 Finalist for the Pulitzer Prize (Biography) A New York Times bestseller, this “epic and elegant” biography (Wall Street Journal) profoundly recasts our understanding of the Vietnam War. Praised as a “superb scholarly achievement” (Foreign Policy), *The Road Not Taken* confirms Max Boot’s role as a “master chronicler” (Washington Times) of American military affairs. Through dozens of interviews and never-before-seen documents, Boot rescues Edward Lansdale (1908–1987) from historical ignominy to “restore a sense of proportion” to this “political Svengali, or ‘Lawrence of Asia’ ” (The New Yorker). Boot demonstrates how Lansdale, the man said to be the fictional model for Graham Greene’s *The Quiet American*, pioneered a “hearts and minds” diplomacy, first in the Philippines and then in Vietnam. Bringing a tragic complexity to Lansdale and a nuanced analysis to his visionary foreign policy, Boot suggests Vietnam could have been different had we only listened. With contemporary reverberations in Iraq, Afghanistan, and Syria, *The Road Not Taken* is a “judicious and absorbing” (New York Times Book Review) biography of lasting historical consequence.

Hello, Everybody! Anthony J. Rudel, 2008 When amateur enthusiasts began sending fuzzy signals from their garages and rooftops, radio broadcasting was born. Sensing the medium’s potential, snake-oil salesmen and preachers took to the air, at once setting early standards for radio programming and making bedlam of the airwaves. Into the chaos stepped a young secretary of commerce, Herbert Hoover, whose passion for organization guided the technology’s growth. When a charismatic bandleader named Rudy Vallee created the first on-air variety show and

America elected its first true radio president, Franklin Delano Roosevelt, radio had arrived. Rudel tells the story of the boisterous years when radio took its place in the nation's living room and forever changed American politics, journalism, and entertainment.
