Susan Murray

Fodor's South-West Eugene Fodor, Stephen Birnbaum, Robert C. Fisher, 1974

Bright Signals Susan Murray, 2018-07-26 First demonstrated in 1928, color television remained little more than a novelty for decades as the industry struggled with the considerable technical, regulatory, commercial, and cultural complications posed by the medium. Only fully adopted by all three networks in the 1960s, color television was imagined as a new way of seeing that was distinct from both monochrome television and other forms of color media. It also inspired compelling popular, scientific, and industry conversations about the use and meaning of color and its effects on emotions, vision, and desire. In *Bright Signals* Susan Murray traces these wide-ranging debates within and beyond the television industry, positioning the story of color television, which was replete with false starts, failure, and ingenuity, as central to the broader history of twentieth-century visual culture. In so doing, she shows how color television disrupted and reframed the very idea of television while it simultaneously revealed the tensions about technology's relationship to consumerism, human sight, and the natural world.

The History of Television, 1942 to 2000 Albert Abramson, 2007-09-29 Albert Abramson published (with McFarland) in 1987 a landmark volume titled *The History of Television, 1880-1941* (massive...research--Library Journal; voluminous documentation--Choice; many striking old photos--The TV Collector). At last he has produced the follow-up volume; the reader may be assured there is no other book in any language that is remotely comparable to it. Together, these two volumes provide the definitive technical history of the medium. Upon the development in the mid-1940s of new cameras and picture tubes that made commercial television possible worldwide, the medium rose rapidly to prominence. Perhaps even more important was the invention of the video tape recorder in 1956, allowing editing, re-shooting and rebroadcasting. This second volume, 1942 to 2000 covers these significant developments and much more. Chapters are devoted to television during World War II and the postwar era, the development of color television, Ampex Corporation's contributions, television in Europe, the change from helical to high band technology, solid state cameras, the television coverage of Apollo II, the rise of electronic journalism, television entering the studios, the introduction of the camcorder, the demise of RCA at the hands of GE, the domination of Sony and Matsushita, and the future of television in e-cinema and the 1080 P24 format. The book is heavily illustrated (as is the first volume).

Ethnic Humor in Multiethnic America David Gillota, 2013-07-01 When wielded by the white majority, ethnic humor can be used to ridicule and demean marginalized groups. In the hands of ethnic minorities themselves, ethnic humor can work as a site of community building and resistance. In nearly all cases, however, ethnic humor can serve as a window through which to examine the complexities of American race relations. In *Ethnic Humor in Multiethnic America*, David Gillota explores the ways in which contemporary comic works both reflect and participate in national conversations about race and ethnicity. Gillota investigates the manner in which various humorists respond to multiculturalism and the increasing diversity of the American population. Rather than looking at one or two ethnic groups at a time—as is common scholarly practice—the book focuses on the interplay between humorists from different ethnic communities. While some comic texts project a fantasy world in which diverse ethnic characters coexist in a rarely disputed harmony, others genuinely engage with the complexities and contradictions of multiethnic America.

The first chapter focuses on African American comedy with a discussion of such humorists as Paul Mooney and Chris Rock, who tend to reinforce a black/white vision of American race relations. This approach is contrasted to the comedy of Dave Chappelle, who looks beyond black and white and uses his humor to place blackness within a much wider multiethnic context. Chapter 2 concentrates primarily on the Jewish humorists Sarah Silverman, Larry David, and Sacha Baron Cohen—three artists who use their personas to explore the peculiar position of contemporary Jews who exist in a middle space between white and other. In chapter 3, Gillota discusses different humorous constructions of whiteness, from a detailed analysis of South Park to “Blue Collar Comedy” and the blog Stuff White People Like. Chapter 4 is focused on the manner in which animated children’s film and the network situation comedy often project simplified and harmonious visions of diversity. In contrast, chapter 5 considers how many recent works, such as Harold and Kumar Go to White Castle and the Showtime series Weeds, engage with diversity in more complex and productive ways.

The 12 O'Clock High Logbook Allan T. Duffin,Paul Matheis,2005-09-30 Since its original release The 12 O'Clock High Logbook: The Unofficial History of the Novel, Motion Picture, and TV Series has been a consistent seller among WWII buffs, lovers of aviation, and fans of Hollywood TV and movies. The book, a labor of love for co-authors Allan T. Duffin and Paul Matheis, is a detailed, comprehensive look at a media phenomenon. Army Air Force officers Beirne Lay, Jr., and Sy Bartlett wrote the novel 12 O'Clock High as a somewhat fictionalized record of their experiences in England during World War II. Twentieth Century-Fox optioned the book and produced the 1949 movie version starring Gregory Peck as tough-as-nails Brigadier General Frank Savage. In 1964, prolific producer Quinn Martin (The Untouchables, The FBI) brought 12 O'Clock High to television as a weekly series on ABC, starring Robert Lansing as Savage. Packed with fresh interviews, rare photographs, and behind-the-scenes stories published for the first time anywhere, The 12 O'Clock High Logbook is the definitive history of this unique tale of heroism in World War II.
