

Air Webcam 10

Mathias Broth, Eric Laurier, Lorenza Mondada

Ecological Modelling for Sustainable Development (Penerbit USM) Koh Hock Lye, Teh Su Yean, Shahrul Anuar Mohd Sah, Zary Shariman Yahaya, Anita Talib, 2015-08-21 In view of the current global scenario, which highlighted the importance of sustainable development and sustaining natural resources, the theme selected for the 2nd Regional ECOMOD 2007 Conference was indeed appropriate. This conference has generated overwhelming interest and I am sure the participants have focussed diligently on the serious issues concerning important environmental issues and steps needed to be taken towards a sustainable development and management of our natural resources and environment. As governments in the Asian region introduce new initiatives and development policies to rejuvenate and protect their environment and natural resources, it is imperative that universities and research institutions play a fundamental role in ensuring that the objectives of these policies are realized. Such institutions can complement government proposals by embarking on research that is relevant and valuable to the needs of respective nations and pursuing extensive research so that the outcome and technology generated can be transferred effectively to the end users. This concerted effort by all the researchers from different fields to improve and manage our natural resources should be lauded. I strongly believe that this conference is an extraordinary testimony to our capacity building at regional and local levels. I believe USM has something interesting to share with all of you in this area. Finally, on behalf of the Organizing Committee, I hope readers will find this book of proceedings useful, informative and stimulating.

Studies of Video Practices Mathias Broth, Eric Laurier, Lorenza Mondada, 2014-05-16

The last two decades have seen a rapid increase in the production and consumption of video by both professionals and amateurs. The near ubiquity of devices with video cameras and the rise of sites like YouTube have led to the growth and transformation of the practices of producing, circulating, and viewing video, whether it be in households, workplaces, or research laboratories. This volume builds a foundation for studies of activities based in and around video production and consumption. It contributes to the interdisciplinary field of visual methodology, investigating how video functions as a resource for a variety of actors and professions.

Image Processing and Communications Challenges 10 Michał Choraś, Ryszard S. Choraś, 2018-10-31 Presenting a collection of high-quality research papers on image processing and communications, this book not only discusses emerging applications of the currently available solutions, but also outlines potential future techniques and research directions in these areas. Gathering the proceedings of the 10th International Conference on Image Processing and Communications (IP&C 2018), held in Bydgoszcz, Poland in November 2018, it is divided into two parts. Part I focuses on image processing, offering a comprehensive survey of available methods and discussing current trends in computer vision. In turn, Part II presents novel results on networks, communications and a diverse range of applications, including cybersecurity and cloud computing.

How to Speak Like a Pro Leon Fletcher, 1996-09-29 More than snakes, more than deep water, even more than death, people cite public speaking as their greatest fear. But with more than seventy percent of our jobs requiring the effective presentation of ideas to a group, you need to know “how to speak like a pro.” • Seven tips to control stage fright • How to select your subject, gather ideas, and present information • How to start, organize, and end your speech • The importance of practicing—and the dangers of over-practicing •

How to seem spontaneous, yet be prepared • How to deal with distractions—from hecklers to crying babies • Eight easy-to-follow steps to preparing and presenting a speech and more With handy checklists after each chapter!

Geospatial Intelligence Robert M. Clark,2020-09-01 Geospatial Intelligence: Origins and Evolution tells the story of how the current age of geospatial knowledge evolved from its ancient origins to become ubiquitous in daily life across the globe, weaving a tapestry of stories about the people, events, ideas, and technologies that affected the trajectory of what has become known as GEOINT.

Broadcast Announcing Worktext Alan R. Stephenson,David E. Reese,Mary E. Beadle,2005 Broadcast Announcing Worktext, Second Edition provides the aspiring broadcast performer with the skills, techniques, and procedures necessary to enter this highly competitive field. In addition to the principles of good performance, this text addresses the importance of audience and how messages change to communicate effectively to various groups. Television and radio studio environments, announcer specializations and responsibilities, and developing a broadcast delivery style are just a few of the many topics covered. Factual information is presented in brief, easy-to-digest modules and is enhanced with self-study questions and projects that encourage active reader participation. The self-study provides an immediate check on the comprehension of what was presented, and the projects allow for a practical application of key concepts in the material. The worktext format, with many real-life examples, combines both traditional textbook learning and practical experience. A companion DVD illustrates techniques and concepts in each chapter with audio and visual examples. *Additional practical material in this edition *First time instructor's manual available *Expanded coverage on announcing techniques *Companion DVD with audio and video examples

Statement of Disbursements of the House United States. Congress. House,1996 Covers receipts and expenditures of appropriations and other funds.
