In the Wilderness Kim Barnes,1997-02-17 Poet Kim Barnes grew up in northern Idaho, in the isolated camps where her father worked as a logger and her mother made a modest but comfortable home for her husband and two children. Their lives were short on material wealth, but long on the riches of family and friendship, and the great sheltering power of the wilderness. But in the mid-1960's, as automation and a declining economy drove more and more loggers out of the wilderness and into despair, Kim's father dug in and determined to stay. It was then the family turned fervently toward Pentecostalism. It was then things changed. *In the Wilderness* is the poet's own account of a journey toward adulthood against an interior landscape every bit as awesome, as beautiful, and as fraught with hidden peril as the great forest itself. It is a story of how both faith and geography can shape the heart and soul, and of the uncharted territory we all must enter to face our demons. Above all, it is the clear-eyed and moving account of a young woman's coming of terms with her family, her homeland, her spirituality, and herself. In presenting Kim Barnes the 1995 PENJerard Fund Award for a work-in-progress by an emerging female writer, the panel of judges wrote that *In the Wilderness* is far more than a personal memoir, adding that it stands almost as a cautionary example of the power of good prose to distinguish whatever it touches. Indeed, *In the Wilderness* is an extraordinary work, courageous, candid, and exquisitely written.

Cognitive Radio Networks Ahmed Khattab,Dmitri Perkins,Magdy Bayoumi,2012-08-27 This book describes a communication paradigm that could shape the future of wireless communication networks, Opportunistic Spectrum Access (OSA) in Cognitive Radio Networks (CRN). While several

theoretical OSA approaches have been proposed, they are challenged by the practical limitations of cognitive radios: the key enabling technology of OSA. This book presents an unprecedented formulation of the OSA problem in CNR that takes into account the practical limitations encountered due to existing technologies. Based on such a problem formulation, this book presents a framework and protocol details implementing the analytically-optimized solution of this problem. Unlike the state-of-the-art of CRN implementations that typically target software define radios which are not suitable for real systems, this book describes the implementation of distributed OSA, using practical radio transceiver technologies. It provides a thorough characterization of the gains available to theoretical OSA approaches if the practical limitations are taken into consideration. Tackles the cognitive radio networks performance optimization problem, taking into account the practical limitations of today's technologies; Provides thorough performance evaluation in arbitrary, large-scale networks, as well as microscopic, small-scale performance evaluation, using realistic hardware implementation; Presents an empirical study of the gains available over existing techniques by adopting practical approaches; Tackles the cognitive radio networks performance optimization problem, taking into account the practical limitations of today's technologies; Provides thorough performance evaluation in arbitrary, large-scale networks, as well as microscopic, small-scale performance evaluation, using realistic hardware implementation; Presents an empirical study of the gains available over existing techniques by adopting practical approaches;

Self-promotion for women who don't want to feel they're showing off! 'Working in a tough and male dominated environment, I understand the difficulties women face to be heard and judged as equals. Strategies for Being Visible is a wonderful book for emerging female leaders, full of great information and skills to help everyone raise their profiles and achieve more at work.' Colouring Meaning Gill Philip, 2011-02-23 Primarily focused on idioms and other figurative phraseology, Colouring Meaning describes how the meanings of established phrases are enhanced, refocused and modified in everyday language use. Unlike many studies of creativity in language, this book-length survey addresses the matter at several levels, from the purely linguistic level of collocation, through its abstractions in colligation and semantic preference, to semantic prosody and connotation. This journey through both linguistic and cognitive levels involves the examination of habitual language and its exploitations, both mundane and colourful, explaining the phenomena observed in terms of current psycholinguistic research as well as corpus linguistics theory and analysis. The relationships between meaning in text and meaning in the mind are discussed at length and extensively illustrated with worked case studies to offer the reader a comprehensive overview of metaphorical and other secondary meanings as they emerge in real-world communicative situations.

Five Floors Up Brian McDonald, 2022-09-06 Rescue Me meets Blue Bloods in this riveting social

history of the New York City Fire Department told from the perspective of the Feehan family, who served in the FDNY for four generations and counting. Seen through the eyes of four generations of a firefighter family, *Five Floors Up* tells the story of the modern New York City Fire Department. From the days just after the horse-drawn firetruck, to the devastation of the 1970s when the Bronx was Burning, to the unspeakable tragedy of 9/11, to the culture-busting department of today, a Feehan has worn the shoulder patch of the FDNY. The tale shines the spotlight on the career of William M. Feehan. "Chief" Feehan is the only person to have held every rank in the FDNY including New York City's 28th Fire Commissioner. He died in the September 11, 2001 attack on the World Trade Center. But *Five Floors Up* is at root an intimate look at a firefighter clan, the selflessness and bravery of not only those who face the flames, but the family members who stand by their sides. Alternately humorous and harrowing, rich with anecdotes and meticulously researched and reported, *Five Floors Up* takes us inside a world few truly understand, documenting an era that is quickly passing us by.

Kelpie Blue Mell Eight, 2020-12-28 When a beautiful blue horse asks Rin to go for a swim, Rin doesn't realize how much his life is about to change. Blue is unlike anyone else Rin has ever met, and the magic of the fae, and of this particular kelpie, is wondrous, but deadly. Rin learns too late he might be in for a swim he won't survive.

The Principles and Practice of International Aviation Law Brian F. Havel, Gabriel S. Sanchez, 2014-03-31 This book provides an introduction to, and demystification of, the private and public dimensions of international aviation law. The air transport industry is not governed by a discrete area of the law but rather by a series of disparate transnational regulatory instruments. By combining classical doctrinal analysis with insights from newer disciplines such as international

relations and economics, the book maps international aviation law's complex terrain for new and veteran observers alike.

Finding Our Voice Marc H. Ellis, 2018-06-19 Finding Our Voice is a series of meditations on how to express the deepest sense of who we are in a troubled world. What is the core of our being? How do we find the language to name that core? If the core of our faith is identifying and embodying the prophetic for our time, surviving that naming is as challenging as finding our voice. Often as not, the prophetic lands us in hot water. We feel alone and abandoned. Recognizing others in the same situation is crucial to our ability to hold fast. With others our voice grows more certain and finds a home, even in exile. Soon the community we left is replaced by a new community of fellow travelers. We are not alone.

Sharing Season S M Billups, 2023-03-25 Freshly out of college a librarian accepts a job in a small town where she catches the eye of the town's sheriff and his twin brother who runs the town's largest farm. Beyond Stone and Steel Brian W. Vaszily, 2001-12 The tragedy of September 11, 2001 left us each trying to fill a uniquely unfamiliar void in our spirit with something that will make us whole again. Somehow we need to feel the experience in a way that following the news coverage just doesn't accomplish. Brian W. Vaszily found a way, and shares it with us in this brilliant anthology of thoughts, feelings, desires and dreams that were cut short on that terrible Tuesday. Through imagined characters he does what no news story or survivor's account can—he brings us into the lives of the departed?people so much like our friends, our families, and ourselves?as their final

minutes play out. This uplifting work gently guides the reader beyond the tragedy of stone and steel to reaffirm what is truly important about being alive.

Arrowpoint Suzanne Ellison, 2015-10-19 WELCOME TO TYLER - THE AUCTION'S AT TWO O'CLOCK Tyler's annual crafts fair is in full swing. This year the theme is Native American art. Stroll among the tables and admire the handiwork of America's favorite hometown. Each book set in Tyler is a self-contained story; together, they stitch the fabric of a community. TORN BETWEEN TWO CULTURES Michael Youngthunder is a successful businessman. But he remains tormented by the Winnebago heritage he cannot leave behind.... IS THERE A PLACE IN HIS HEART FOR HER? Renata Meyer loves Michael, but he comes from a world she knows nothing about. And Michael seems unable—or unwilling—to help her bridge the gap. Previously Published

Pointing to the Moon Rochelle Lynn Holt, 2010 Each of us lives an extraordinary life; however, the artists are qualified to share their thoughts in a manner that preserves existence, universally. Two writers, Rochelle Lynn Holt and Virginia Love Long, shared a friendship that was both literary and encompassing of everyday experiences. The writers, however, also revealed their emotions in

poems and collaborative published projects. This memorial, *POINTING TO THE MOON*, is a novel biography in epistolary form. Letters have become a lost art now that e-mail exists! But, once, there was time to reflect in long missives.

The Dark Clouds Shining David Downing, 2018-04-10 In the fourth and final installment of David Downing's spy series, Jack McColl is sent to Soviet Russia, where the civil war is coming to an end. The Bolsheviks have won but the country is in ruins. With the hopes engendered by the revolution hanging by a thread, plots and betrayals abound. London, 1921: Ex-Secret Service spy Jack McColl is in prison serving time for assaulting a cop. McColl has been embittered by the Great War; he feels betrayed by the country that had sent so many young men to die needlessly. He can't stomach spying for the British Empire anymore. He's also heartbroken. The love of his life, radical journalist Caitlin Hanley, parted ways with him three years earlier so she could offer her services to the Communist revolution in Moscow. Then his former Secret Service boss offers McColl the chance to escape his jail sentence if he takes a dangerous and unofficial assignment in Russia, where McColl is already a wanted man. He would be spying on other spies, sniffing out the truth about MI5 meddling in a high-profile assassination plot. The target is someone McColl cares about and respects. The MI5 agent involved is someone he loathes. With the knowledge that he may be walking into a death trap, McColl sets out for Moscow, the scene of his last heartbreak. Little does he know that his mission will throw him back into Caitlin's life—or that her husband will be one of the men he is trying to hunt down.

Becoming Me Kay Rose-Hattrick, 2014-09-10 *Becoming Me* is a fairytale about a girl from Sheffield. She's statistically average, but not necessarily ordinary. Since being a young girl, she has

pondered how she fits into the world, discovering herself along the way, desperate to remember who she was, not who she had become. She had conformed to the programme that her father and the rest of society had expected her to follow, and that made her ill. At forty, she emerged as a dragonfly from her old life, desperate to break free from the system and live a simple life, free of consumerism. Her dream: to be self-sustaining; tend the land and look after animals. After being made redundant from the NHS, moving a three bedroomed house into her van, she escaped to rural Portugal with her husband, never planning to return. Becoming Me is about a girl everyone can relate to, because she's real. She still has her dream and is more determined than ever to fulfil her life's purpose. You will cry and laugh out loud at her life's ups and downs, in a world without mercy.
