Updated as of May 29, 2018 The FAA proposes to amend requirements concerning the registration of aircraft. This proposal is based on the need to increase and maintain the accuracy of aircraft registration information in the Civil Aviation Registry. The proposed procedures would ensure aircraft owners periodically provide information regarding changes in registration. These amendments would respond to the concerns of law enforcement and other government agencies and would provide more accurate, up-to-date aircraft registration information to all users of the Civil Aviation Registry database.
