The Prevention of Tuberculosis (Routledge Revivals) Sir Arthur Newsholme,2015-06-03 First published in 1908, this book presents a study of tuberculosis. It looks first at its causes, before examining how the problem of mortality from illness had already been reduced. The third part of the book then focuses on measures for reducing and annihilating tuberculosis altogether. Being written in the earlier years of the twentieth century, the book will not only be of interest to medical students and practitioners, but also to historians.

Out Here Down Under E. A. Judge,2023-04-24 Out Here Down Under is a collection of documents and papers illuminating the development and character of ancient history as a discipline in the Antipodes. It considers especially the distinctive and extraordinarily popular program, championed by E. A. Judge, of studying classical and biblical corpora together under one discipline, with an emphasis on the interpretation of documentary sources. In twenty chapters, this volume considers such issues as the relationship between British and Antipodean scholarship, the story and legacy of Antipodean scholars of the ancient world, the nature and ideology of ancient

history programs at schools and universities (especially in NSW and at Macquarie), the interaction between biblical and classical disciplines, and the function of history in contemporary Australia. These texts, mostly written by Judge himself throughout his career, appear here with new introductory notes outlining their historical significance for the discipline and Judge's own practice.
