The View from the Back of the Band Chris Smith,2014-10-15 Mel Lewis (1929-1990) was born Melvin Sokoloff to Jewish Russian immigrants in Buffalo, New York. He first picked up his father's drumsticks at the age of two and at 17 he was a full-time professional musician. The View from the Back of the Band is the first biography of this legendary jazz drummer. For over fifty years, Lewis provided the blueprint for how a drummer could subtly support any musical situation. While he made his name with Stan Kenton and Thad Jones, and with his band at the Village Vanguard, it was the hundreds of recordings that he made as a sideman and his ability to mentor young musicians that truly defined his career. Away from the drums, Lewis's passionate and outspoken personality made him one of jazz music's greatest characters. It is often through Lewis's own anecdotes, as well as many from the musicians who knew him best, that this book traces the career of one of the world's greatest drummers. Previously unpublished interviews, personal memoirs, photos, musical transcriptions, and a selected discography add to this comprehensive biography.

Rhythmic Illusions Gavin Harrison,1996 Created for drumset players who find themselves in a creative rut, this book and audio package easily breaks down the mystery behind subdivisions, rhythmic modulation, rhythmic scales and beat displacement. The author makes the transition from mathematics to musicality with an easy and systematic approach.

Breaking the Mirror of Heaven Robert Bauval,Ahmed Osman,2012-07-26 Exposes the many cycles of monument destruction and cultural suppression in Egypt from antiquity to the present day • Details the vandalism of Egyptian antiquities and suppression of ancient knowledge under foreign rulers who sought to cleanse Egypt of its “pagan” past • Reveals the real reason behind Napoleon’s invasion of Egypt: Freemasonry • Shows how the censorship of nonofficial Egyptology as well as new archaeological discoveries continued under Antiquities Minister Zahi Hawass Called the “Mirror of Heaven” by Hermes-Thoth and regarded as the birthplace of civilization, science, religion, and magic, Egypt has ignited the imagination of all who come in contact with it since ancient times--from Pythagoras and Plato to Alexander the Great and Napoleon to modern Egyptologists the world over. Yet, despite this preeminence in the collective mind, Egypt has suffered considerable destruction over the centuries. Even before the burning of the Great Library at Alexandria, the land of the pharaohs was pillaged by its own people. With the arrival of foreign rulers, both Arabic and European, the destruction and thievery continued along with suppression of ancient knowledge as some rulers sought to cleanse Egypt of its “pagan”

past. Exploring the many cycles of destruction and suppression in Egypt as well as moments of salvation, such as the first registered excavations by Auguste Mariette, Robert Bauval and Ahmed Osman investigate the many conquerors of Egypt through the millennia as well as what has happened to famous artifacts such as the Rosetta Stone. They show how Napoleon, through his invasion, wanted to revive ancient Egyptian wisdom and art because of its many connections to Freemasonry. They reveal how the degradation of monuments, theft of relics, and censorship of ancient teachings continue to this day. Exposing recent cover-ups during the tenure of Antiquities Minister Zahi Hawass, they explain how new discoveries at Giza were closed to further research. Clearing cultural and historical distortions, the authors reveal the long-hidden and persecuted voice of ancient Egypt and call for the return of Egypt to its rightful place as “the Mother of Nations” and “the Mirror of Heaven.”

Completely different from the rudiments, Gary's system is designed specifically for drumset performance, both for creating time feels as well as for filling and soloing. Also included are sections on accented single strokes, as well as the use of double strokes on the set.
