Introducing Windows 10 for IT Professionals Ed Bott, 2016-02-18 Get a head start evaluating Windows 10--with technical insights from award-winning journalist and Windows expert Ed Bott. This guide introduces new features and capabilities, providing a practical, high-level

overview for IT professionals ready to begin deployment planning now. This edition was written after the release of Windows 10 version 1511 in November 2015 and includes all of its enterprise-focused features. The goal of this book is to help you sort out what's new in Windows 10, with a special emphasis on features that are different from the Windows versions you and your organization are using today, starting with an overview of the operating system, describing the many changes to the user experience, and diving deep into deployment and management tools where it's necessary.

Settlers of Unassigned Lands Charles McLeod, 2015-01-07 In these seven stories spanning the Midwest to California, Charles McLeod brings us characters estranged from their homelands and locked in conflict with their past and present selves. In "How to Start Your Own Midwestern Ghost Town," an unnamed narrator hatches a plan to capitalize on rural decay. A porn star trying to transition to the mainstream does an interview with a German reporter in "The Subject of Our First Issue Is Art." In the title story, a closeted heroin dealer follows a ghostly girl into an Oakland graveyard. And in "Rancho Brava," the conductor of a focus group about corporate salsa keeps getting interrupted by visitors from the Old West. Alternating between the comic, the tragic, and the neurotic—and often all three at once—McLeod's second collection transports readers from the American mainstream to the dark edges of cities and the heartland's lost, forgotten towns, into the lives of people trying to decipher if

they can escape their pasts, and at what cost.

The Porch Charlie Hailey, 2021-04 There is something spooky and resonant about liminal places like docks, shorelines, decks, and perhaps most commonly porches. Here, Charlie Hailey meditates on porches in a way that is appropriately thoughtful, affecting, rich, and resonant. Porches, in his hands, become portals onto an endless array of large metaphysical questions: what is it to be in a place? How does one place teach us about the world and about ourselves, both as individuals and as a species? What are we-and the things we have built-in this world? In a time when questions of what makes society society and what sustains the individual are so paramount, Hailey's meditations are both a tonic and a series of welcome provocations--

Keynes Hayek: The Clash that Defined Modern Economics Nicholas Wapshott, 2011-10-11 "I defy anybody—Keynesian, Hayekian, or uncommitted—to read [Wapshott's] work and not learn something new."—John Cassidy, *The New Yorker* As the stock market crash of 1929 plunged the world into turmoil, two men emerged with competing claims on how to restore balance to economies gone awry. John Maynard Keynes, the mercurial Cambridge economist, believed that government had a duty to spend when others would not. He met his opposite in a little-known Austrian economics professor, Freidrich Hayek, who considered attempts to intervene both pointless and potentially dangerous. The battle lines thus drawn, Keynesian economics would dominate for decades and coincide with an era of unprecedented prosperity, but

conservative economists and political leaders would eventually embrace and execute Hayek's contrary vision. From their first face-to-face encounter to the heated arguments between their ardent disciples, Nicholas Wapshott here unearths the contemporary relevance of Keynes and Hayek, as present-day arguments over the virtues of the free market and government intervention rage with the same ferocity as they did in the 1930s.

Redefining Anxiety Dr. John Delony, 2020-11-17
Anxiety is real—but it isn't the end of your story. Dr. John Delony knows what anxiety feels like. He's walked that dark road himself, but he found light and hope on the other side of it. Bringing together his own journey and two decades of counseling and research, he walks you through: The four biggest myths about anxiety and the life-changing truth Practical steps you can take today to start getting your life back Long-term strategies for healing to help you move forward John will show you that most of what you've heard about anxiety is wrong. Things like: If you have anxiety, you're broken and need to be fixed Anxiety is a disease that can only be cured with medicine Anxiety is caused by your genetics While mental health is complex, our culture has made anxiety into something it's not. For the majority of people who face anxiety, the truth is simpler than we think: anxiety is an alarm. It's a signal—nothing more and nothing less. Anxiety is simply our body's way of telling us something is wrong. If we stop and listen, we can calm the alarm and move forward into healing and hope.

Unspoken Messages Richard D. Rowland, 2013-11
When someone faces an end-of-life diagnosis, he or she may have all hope of a continued existence and enjoyable quality of life taken away by people employed in this country's traditional medical profession. Discover how you can find hope where none is offered and restore your peace of mind. In part one of *Unspoken Messages: Spiritual Lessons I Learned from Horses and Other Earthbound Souls*, read about spiritual experiences that are far beyond coincidental. You will leave part one convinced that animals are old souls with deep and ancient abilities to communicate with us if only we will open our hearts, minds, and eyes to their means of communication. Part two of *Unspoken Messages* is a guide to be used not only by those experiencing the possibility of an end to their physical existence, but by their loved ones too. It leads you through the life of a person that has lived the fear of death firsthand, traveled the path before you, and ultimately reached a place that is peaceful and filled with promise of an eventual continuation.

The Curator's Handbook Adrian George, 2015-08-11
A step-by-step guide to every aspect of putting on an art exhibition, with tips from a range of influential curators The Curator's Handbook is the essential handbook for curators and curatorial students, mapping every stage of the process of putting on an exhibition, no matter how

traditional the venue, from initial idea to final installation. An introduction explores curatorial work from its origins in the seventeenth century onward and outlines the various roles of the curator today. Twelve chapters then trace the various stages of the exhibition process in clear, informative language and using helpful diagrams and tables, from developing the concept to writing contracts and loan requests; putting together budgets and schedules; producing exhibition catalogues and interpretation materials; designing gallery spaces; working with artists, lenders, and art handlers; organizing private views; and documenting and evaluating a show. With advice and tips from a cast of international museum directors and curators—including Daniel Birnbaum (Moderna Museet, Stockholm); Aric Chen (M+, Hong Kong); Elizabeth Macgregor (Museum of Contemporary Art, Sydney); Hans Ulrich Obrist (Serpentine Gallery, London); Gao Peng (Today Art Museum, Beijing); Jennifer Russell (Metropolitan Museum of Art, New York); and Nicholas Serota (Tate, London)—this volume is a crucial guide for anyone involved in, or studying, the dynamic field of curation.
