Jackson Pollock and Lee Krasner Ines Engelmann,2007 For more than a decade, Jackson Pollock and Lee Krasner devoted their lives to each other, serving in turn as muse, critic, companion, lover, friend and alter ego. Their romance was stormy - their raucous arguments are the stuff of legend - but their talents were prodigious. This book is packed with examples of the contributions both artists made to the world of modern art. Readers will learn how Pollock and Krasners artistry evolved and how they influenced each others success. Recent developments, such as a revealing biopic and the art worlds elevation of Pollock to the status of being the most expensive artist in the world, bring their portrait fully up-to-date. While the author acknowledges historys sensationalisation of their lives, it is the paintings themselves - revolutionary, innovative and daring - that tell the most compelling story.

**Ennion: Master of Roman Glass** Christopher S. Lightfoot,Zrinka Buljević,Yael Israeli ,Karol B. Wight,Lisa Pilosi ,Mark T. Wypyski,2014-12-08 Among glass craftsman active in the 1st century A.D.,

the most famous and gifted was Ennion, who hailed from the coastal city of Sidon in modern Lebanon. Ennion's glass stood out for its quality and popularity. His products are distinguished by the fine detail and precision of their relief decoration, which imitates designs found on contemporaneous silverware. This compact, but thorough volume examines the most innovative and elegant known examples of Roman mold-blown glass, providing a uniquely comprehensive, up-to-date study of these exceptional works. Included are some twenty-six remarkably preserved examples of drinking cups, bowls, and jugs signed by Ennion himself, as well as fifteen additional vessels that were clearly influenced by him. The informative texts and illustrations effectively convey the lasting aesthetic appeal of Ennion's vessels, and offer an accessible introduction to an ancient art form that reached its apogee in the early decades of the Roman Empire.

Urban and Architectural Heritage Conservation within Sustainability Dr. Kabila Hmood,2019-07-03

Urban and Architectural Heritage within Sustainability is interested in the cities of the future, which

How do cities of historical depth deal with modern planning policies and our conservation policies, rehabilitation, restoration, and preservation of historical cities and heritage buildings? How can we explain sustainable heritage and sustainability? Comprised of four sections, this book includes six chapters by noted experts and researchers. Section 1 covers heritage conservation and rehabilitation of architectural and urban heritage. Section 2 investigates current retrofitting strategies and interventions in heritage buildings through the viewpoint of energy efficiency. Section 3 redefines what identity is and explores how new places and spaces offer an eyrie of cultural values. **Grey Funnel Lines** Cyril Tawney, 2015-12-22 Originally published in 1987. In this book we find songs reflecting every aspect of life in the twentieth-century Royal Navy, both upper and lower deck:

war, ship's routine, aviation, submarines, the antics of dockyard personnel, not to mention the matelot's shore-going adventures, both amorous and bibulous. The compiler was well-known as a folk-singer, though he began his career in the Royal Navy. Based on his personal collection of Navy songs, this book proves that the sailor's muse did not desert him with the passing of the sailing ship. It also dispels the notion that the modern Jack Tar, when he produces any songs at all, confines himself to the pornographic. With the songs, Cyril Tawney interweaves a commentary on the Royal Navy setting, providing a backdrop to the sailor's own words. This book is of enduring appeal to all who have served as well as to students of twentieth-century oral tradition.

The Cure for Hate Tony McAleer, 2019-11-05 How does an affluent, middle-class, private-school-attending son of a doctor end up at the Aryan Nations compound in Idaho, falling in with and then recruiting for some of the most notorious neo-Nazi groups in Canada and the United States? The Cure for Hate paints a very human picture of a young man who craved attention, acceptance, and approval and the dark place he would go to get it. Tony McAleer found an outlet for his teenage rage in the street violence of the skinhead scene. He then grew deeply involved in the White Aryan Resistance (WAR), rising through the ranks to become a leader, and embraced technology and the budding internet to bring white nationalist propaganda into the digital age. After fifteen years in the movement, it was the outpouring of love he felt at the birth of his children that inspired him to start questioning his hateful beliefs. Thus began the spiritual journey of personal transformation that enabled him to disengage from the highest levels of the white power movement. This incisive book breaks commonly held stereotypes and delivers valuable insights into how regular people are drawn to violent extremism, how the ideology takes hold, and the best ways to help someone leave hate behind. In his candid and

introspective memoir, Tony shares his perspective gleaned from over a thousand hours of therapy, group work, and facilitating change in others that reveals the deeper psychological causes behind racism. At a period in history when instances of racial violence are on the upswing, *The Cure for Hate* demonstrates that in a society frighteningly divided by hate and in need of healing, perhaps atonement, forgiveness, and most importantly, radical compassion is the cure. This publication meets the EPUB Accessibility requirements and it also meets the Web Content Accessibility Guidelines (WCAG-AA). It is screen-reader friendly and is accessible to persons with disabilities. A Simple book with few images, which is defined with accessible structural markup. This book contains various accessibility features such as alternative text for images, table of contents, page-list, landmark, reading order and semantic structure.
