Responsibility in Nanotechnology Development Simone Arnaldi,Arianna Ferrari,Paolo Magaudda,Francesca Marin,2014-07-08 This book disentangles the complex meanings of responsibility in nanotechnology development by focusing on its theoretical and empirical dimensions. The notion of responsibility is extremely diversified in the public discourse of nanoscale technologies. Addressed are major disciplinary perspectives working on nanotechnology, e.g. philosophy, sociology, and political science, as well as the major multidisciplinary areas relevant to the innovation process, e.g. technology assessment and ethics. Furthermore, the interplay between such expertises, disciplines, and research programmes in providing a multidisciplinary understanding of responsibility is emphasized.

Justice and Governance in East Timor Rod Nixon,2013-06-17 Focusing on the case study of Timor Leste, this book presents the New Subsistence State as a conceptual tool for understanding governance challenges in countries characterised by subsistence economic and social relations. It examines the ways in which Timor Leste conforms to the typology of the New Subsistence State, taking into consideration geographic, historical and socio-political aspects. The book defines a New Subsistence State as an overwhelmingly subsistence economy corresponding to little or no historical experience of the generation and administration of large surpluses, with minimal labour specialisation, and the predominance, especially in rural areas, of traditional authority relations. It looks at how these features restrict the capacity of the new state to operate effectively in accordance with the modern state model. The book presents a case for prioritising sustainable approaches to public administration in New Subsistence State contexts. It goes on to examine the historical role of village justice systems, and demonstrates how a community justice and mediation program building on existing capacities could prove an economical means of promoting human rights values and reducing the burden on the national courts. The book presents an interesting contribution to studies on Southeast Asian Politics and Governance.

U.S. Strategy Against Global Terrorism A. Tan,2009-11-09 This book examines the various strategies, including Global Counterinsurgency (GCOIN), which have been put forward as alternatives to the Global War On Terror (GWOT), concluding that while a consensus can be found on the key elements of a grand strategy, based on failures in the GWOT, it is far from clear if any GCOIN strategy could work.

Mumbai 26/11: A Day of Infamy B Raman, Mumbai 26/11 saw a mix of commando-style attacks typical of the special forces of an army and indiscriminate killing of civilians typical of the Lashkar-e-Toiba (LeT), the Pakistani jihadi organization. The meticulous planning, the thorough training of the 10 LeT terrorists, who carried it out, and the close co-ordination of the attacks from the command and control of the LeT had the stamp of Al Qaeda and Pakistan's Inter-Services Intelligence, both of which the LeT has a close relationship with. The LeT terrorists attacked a mix of targets—innocent Indian civilians in public places, Jewish people in a religious-cum-cultural centre and members of the Indian and foreign social and business elite in two five-star hotels. The attacks on the Jewish centre and the hotels lasted over 60 hours and were continuously telecast live by the TV channels. The success of the terrorist attacks, mounted from the sea, highlighted once again the serious deficiencies in India's national security apparatus and the role of Pakistan in the spread of terrorism across the world. Have we drawn the right lessons in respect of both? Can the Indian people now expect at least a more robust counter-terrorism policy to prevent another 26/11?

Women, Gender, and Terrorism Laura Sjoberg,Caron E. Gentry,2011-12-01 In the last decade the world has witnessed a rise in women's participation in terrorism. Women, Gender, and Terrorism explores women's relationship with terrorism, with a keen eye on the political, gender, racial, and cultural dynamics of the contemporary world. Throughout most of the twentieth century, it was rare to hear about women terrorists. In the new millennium, however, women have increasingly taken active roles in carrying out suicide bombings, hijacking airplanes, and taking hostages in such places as Palestine, Iraq, Afghanistan, Sri Lanka, Lebanon, and Chechnya. These women terrorists have been the subject of a substantial amount of media and scholarly attention, but the analysis of women, gender, and terrorism has been sparse and riddled with stereotypical thinking about women's capabilities and motivations. In the first section of this volume, contributors offer an overview of women's participation in and relationships with contemporary terrorism, and a historical chapter traces their involvement in the politics and conflicts of Islamic societies. The next section includes empirical and theoretical analysis of terrorist movements in Chechnya, Kashmir, Palestine, and Sri Lanka. The third section turns to women's involvement in al Qaeda and includes critical interrogations of the gendered media and the scholarly presentations of those women. The conclusion offers ways to further explore the subject of gender and terrorism based on the contributions made to the volume. Contributors to Women, Gender, and Terrorism expand our understanding of terrorism, one of the most troubling and complicated facets of the modern world.

The Migration Apparatus Gregory Feldman,2011-10-19 Every year, millions of people from around the world grapple with the European Union's emerging migration management apparatus. Through border controls, biometric information technology, and circular migration programs, this amorphous system combines a whirlwind of disparate policies. The Migration Apparatus examines the daily practices of migration policy officials as they attempt to harmonize legal channels for labor migrants while simultaneously cracking down on illegal migration. Working in the crosshairs of debates surrounding national security and labor, officials have limited individual influence, few ties to each other, and no serious contact with the people whose movements they regulate. As Feldman reveals, this complex construction creates a world of indirect human relations that enables the violence of social indifference as much as the targeted brutality of collective hatred. Employing an innovative nonlocal ethnographic methodology, Feldman illuminates the danger of allowing indifference to govern how we regulate population—and people's lives—in the world today.

Gangs, Pseudo-Militaries, and Other Modern Mercenaries Max G. Manwaring,2012-10-11 As the first decade of the twenty-first century has made brutally clear, the very definitions of war and the enemy have changed almost beyond recognition. Threats to security are now as likely to come from armed propagandists, popular militias, or mercenary organizations as they are from conventional armies backed by nation-states. In this timely book, national security expert Max G. Manwaring explores a little-understood actor on the stage of irregular warfare—the gang. Since the end of the Cold War, some one hundred insurgencies or irregular wars have erupted throughout the world. Gangs have figured prominently in more than half of those conflicts, yet these and other nonstate actors have received little focused attention from scholars or analysts. This book fills that void. Employing a case study approach, and believing that shadows from the past often portend the future, Manwaring begins with a careful consideration of the writings of V. I. Lenin. He then scrutinizes the Piqueteros in Argentina, gangs in Colombia, private armies in Mexico, Hugo Chavez's use of popular militias in Venezuela, and the looming threat of Al Qaeda in Western Europe. As conventional warfare is increasingly eclipsed by these irregular and “uncomfortable” wars, Manwaring boldly diagnoses the problem and recommends solutions that policymakers should heed.

The World Almanac of Islamism 2017 American Foreign Policy Council,2017-12-18 Now in its third edition, The World Almanac of Islamism is the first comprehensive reference work to detail the current activities of radical Islamist movements worldwide. The contributions, written by subject expert, provide up-to-date assessments on the contemporary Islamist threat in all countries and regions where it exists. Each country study will include valuable metrics for gauging the advance or decline of Islamism. In places where Islamists are not in power, these include year-on-year comparisons of the number of terrorist attacks that have taken place, the level of popular support being received by radical religious organizations and political parties, and applicable government responses to these trends, if any. In places where

they are in power, metrics encompass relevant changes to domestic human rights practices and social conditions, foreign policy rhetoric and action, and the overall stability of the state.

Pakistan Rohan Gunaratna, Khuram Iqbal, 2012-01-01 As made abundantly clear in the classified documents recently made public by WikiLeaks, Pakistan is the keystone in the international fight against terrorism today. After the US-led coalition targeted terrorist groups operating in Afghanistan, these groups, including al Qaeda and the Taliban, relocated to the Federally Administered Tribal Area of Pakistan. From its base in this remote, inhospitable region of Pakistan, al Qaeda and its associated cells have planned, prepared, and executed numerous terrorist attacks around the world, in addition to supporting and waging insurgencies in Iraq, Afghanistan, Yemen, Somalia, and elsewhere. This book is the first detailed analysis of the myriad insurgent groups working in Pakistan. Written by well-known expert on global terrorism Rohan Gunaratna and Khuram Iqbal, a leading scholar in Pakistan, the book examines and reviews the nature, structure, and agendas of the groups, their links to activists in other countries, such as India and Iran, and the difficulties of defeating terrorism in this part of the world. Drawing on extensive field research and interviews with government officials and former terrorists, the authors argue that Pakistan faces grave and continuing pressures from within, and that without steadfast international goodwill and support, the threats of extremism, terrorism, and insurgency will continue to grow. This timely and necessary book argues that if the international community is to win the battle against ideological extremism and operational terrorism around the world, then Pakistan should be in the vanguard of the fight.

What's Really Wrong with the Middle East Brian Whitaker, 2011-08-20 The problems in the Middle East run deeper than dictatorship. Inspired by the popular uprisings that overthrew the presidents of Tunisia and Egypt, Arabs across the Middle East are demanding change. But achieving real freedom will involve more than the removal of a few dictators. Looking beyond the turmoil reported on our TV screens, Guardian journalist Brian Whitaker examines the 'freedom deficit' that affects Arabs in their daily lives: their struggles against corruption, discrimination and bureaucracy, and the stifling authoritarianism that pervades homes, schools and mosques as well as presidential palaces. Drawing on a wealth of new research and wide-ranging interviews, Whitaker analyses the views of people living in the region and argues that in order to achieve peace, prosperity and full participation in today's global economy, Arabs should embrace not only political change but far-reaching social and cultural change as well. 'A passionate call for political and social change in Arab countries' -- Jeremy Bowen 'A call to arms for Arab citizens' -- International Affairs 'A lively, highly readable and illuminating survey of the countless things that are wrong with the Middle East today' -- Avi Shlaim, Guardian 'This is a writer willing to rattle a few cages... Detailed and well-documented' -- Huffington Post '[Should] be required reading by Arab elites from the Atlantic to the Gulf' Patrick Seale, Al Hayat 'Whitaker spares no criticism of the region's governments' -- Egypt Today 'Outstanding and credible' -- Jordan Times

The Rise of Islamic Capitalism Vali Nasr, 2009-09-15 Leading authority on the Islamic world and influential advisor to the Obama administration Vali Nasr shows that the West's best hope of winning the battle against Islamic extremists is to foster the growth of a vibrant new Muslim middle class. This flourishing of Muslim bourgeoisie is reshaping the mind-set, politics, and even the religious values of Muslims in much the same way the Western bourgeoisie led the capitalist and democratic revolution in Europe. Whereas extremism has grown out of the dismal economic failures of the authoritarian Islamic regimes, Nasr explains, the wealth and aspirations of this Islamic "critical middle" put them squarely at odds with extremism. They have ushered in remarkable transformations already in Dubai, Turkey, and Indonesia, and they are the key to tipping the balance in both Iran and Pakistan. As he writes "the great battle for the soul of the Muslim world will be fought not over religion but over market capitalism."

Stalemate Greg C. Reeson, 2011-09-01 This book argues that the United States is waging an unwinnable war against terrorism—that Muslim extremist ideology is a problem we cannot soon solve, but only manage using all the elements of national power: diplomatic, information, military, economic, intelligence, and law enforcement.

Securitization of Property Squatting in Europe Mary Manjikian, 2013-05-29 Housing is no longer about having a place to live – but about state pressures to conform, norms and policies regarding citizenship, and practices of surveillance and security. Breaking new ground in the field of urban politics and international relations, Securitization of Property Squatting in Europe examines and critiques legislative initiatives and examines governmental attempts to reframe urban property squatting as a crime and a threat to domestic security. Using examples from France, Netherlands, Denmark, and Great Britain, Mary Manjikian argues that developments within the European Union – including terrorist attacks in London and Madrid, the rise of right wing extremist parties, and the lifting of barriers to immigration and travel within the EU – have had effects on housing policy, which has become the subject of state security policy in Europe's urban areas. In Denmark, squatting has often had an ideological, anti-state character. In Paris, housing policy can be viewed as a type of identity politics with squatters as transnational actors who pose a transnational security threat. In Great Britain, the role of the press has created a drive to criminalize squatting. Events in the Netherlands present two competing notions of what housing is – a human right, or an economic good produced by the free market.

Inside Al-Qaeda and the Taliban Syed Saleem Shahzad, 2011-08-15 President Obama may have delivered on his campaign promise to kill Osama bin Laden, but as an Al-Qaeda strategist, bin Laden has been dead for years. This book introduces and examines the new generation of Al-Qaeda leaders who have been behind the most recent attacks. Investigative journalist Syed Saleem Shahzad dedicated his life to revealing the strategies and inner workings of Al-Qaeda and the Taliban. He had access to top-level commanders in both movements, as well as within the ISI, Pakistan's intelligence service. Shahzad's work was praised by US Secretary of State Hillary Clinton for bringing to light the troubles extremism poses to Pakistan's stability. Inside Al-Qaeda and the Taliban explains the wider aims of both organizations and provides an essential analysis of major terrorist incidents, including the 2008 Mumbai attacks. In May 2011, Shahzad was abducted and killed in Pakistan, days after writing an article suggesting that insiders in the Pakistani navy had colluded with Al-Qaeda in an attack on a naval air station. This book is a testament to his fearless reporting and analytical rigor. It will provide readers worldwide with invaluable insights into the new phase of the ongoing struggle against terrorism which threatens to tear apart the fragile fabric of so many countries.

Wars of Terror Gabriele Marranci, 2020-07-13 Analyzing the role of rhetoric and ideology in the western 'war on terror' and Islamic 'jihad' in the aftermath of 9/11, Gabriele Marranci shows that we are not experiencing a 'clash of civilizations' but a clash among 'civilizers' who believe they have the power to define how to be human. Seeing themselves as 'under attack' from a globalizing world that threatens to dilute their identity and very existence, both sides employ a civilizational rhetoric to support its recourse to political violence. Examining why some individuals are radicalized to take violent action while the majority are not, the author compares the case of self-identified crusader Anders Breivik with an example from his own fieldwork. He shows that emotions such as indignation, sense of injustice and reaction to the killing of civilians play an important role in underpinning violent acts – as do the views presented by the 'civilizers' on the other side. Over time, this leads to ever-greater escalation as one side calls for more jihad and the other for greater anti-terrorism measures, drone attacks and bombings. Based on twelve

years of research and fieldwork in western countries as well as South and Southeast Asia, Wars of Terror shows the impact labels, stigma, conspiracy theories and stereotypes have in maintaining this ongoing global conflict. A fascinating anthropological study which makes a vital contribution to our understanding of one of the most important issues of our time.

Cycle of Fear Leon Goldsmith,2015-05-15 In early 2011 an elderly Alawite shaykh lamented the long history of oppression and aggression against his people. Against such collective memories the Syrian uprising was viewed by many Alawites, and observers, as a revanchist Sunni Muslim movement and the gravest threat yet to the unorthodox Shi'a sub-sect. This explained why the Alawites largely remained loyal to the Ba'athist regime of Bashar al-Asad. But was Alawite history really a constant tale of oppression and was the Syrian uprising of 2011 really an existential threat to the Alawites? This book surveys Alawite history from the sect's inception in Abbasid Iraq up to the start of the uprising in 2011. The book shows how Alawite identity and political behaviour have been shaped by a cycle of insecurity that has prevented the group from achieving either genuine social integration or long term security. Rather than being the gravest threat yet to the sect, the Syrian uprising, in the context of the Arab Spring, was quite possibly a historic opportunity for the Alawites to finally break free from their cycle of fear.

The Principles of Islamic Marketing Baker Ahmad Alserhan,2016-03-03 The Principles of Islamic Marketing fills a gap in international business literature covering the aspects and values of Islamic business thought. It provides a framework and practical perspectives for understanding and implementing the Islamic marketing code of conduct. It is not a religious book. The Islamic Economic System is a business model adopted by nearly one quarter of the world's population. Baker Alserhan identifies the features of the Islamic structure of International Marketing practices and ethics. Adherence to such ethical practices elevates the standards of behaviour of traders and consumers alike and creates a value-loaded framework for meaningful cooperation between international marketers and their Muslim markets. His book provides a complete guide for an organization when managing its entire marketing function or when customising part of its offering to suit Muslim customers. It addresses the challenges facing marketers involved in business activities with and within Islamic communities, the knowledge needs of academic institutions, and the interest of multinationals keen on tapping the huge Islamic markets. Along the way, Baker Alserhan provides insights into key elements such as, distribution channels, retailing practices, branding, positioning, and pricing; all within the Muslim legal and cultural norms. This second edition brings the book up to date and features a number of new case studies and two additional chapters on Maqasid Al Shariah and the Islamic economy, and a strategic perspective on Islamic marketing and branding.

Eight years on, Joseph Daher analyzes the resilience of the regime and the failings of the uprising, while also taking a closer look at the counter revolutionary processes that have been undermining the uprising from without and within. Joseph Daher is the author of Hezbollah: The Political Economy of the Party of God, and founder of the blog Syria Freedom Forever.
