Islam and Shaikh al Alam Muhammad Ilham Sheikh, 2019-03-10 This book entitled 'Islam & Shaikh al-Alam Shaikh Nur al-Din (Reh.A) (A Great Da'i, Sufi Saint and Poet of Kashmir)' covers all the aspects of Islamic themes in a lucid way and linked these themes with the teachings of the dynamic personality of the great Da'i, Sufi Saint and Poet of the Kashmir valley of the 14th century. i.e. Shaikh al-Alam Shaikh Nūr al-Din (Reh.A). All the teachings of Shaikh in the form of Shruks are derived from the Qurān and Ḥadīth. This book highlights his teachings as basic tenets of Islām. Secondly, this book helps in introducing Shaikh al-Ālam (Reh.A) to the international community as the real Islāmic Scholar, who devoted whole of his life for the cause and propagation of message of Islām. In this way the main objective of this book is to bring the people of Kashmir in particular and whole humanity in general to come closer to Qurān and Ḥadīth with the help of Shaikh al-Ālam's (Reh.A) poetry. This justifies his poetry as the teachings of Qurān and Ḥadīth in Kashmiri Language. May Allah (s.w.t) accept this book and made it beneficial to all of us in remaining steadfast with the teachings of Islam and a means of source of salvation in this world as well as in the hereafter.

The Al-Alam Revolution J. S. Xander, 2021-11-25 When 15-yr old Nili leaves her home in Scotland to attend the famous School of the World she is dreaming of new friends and adventures. Instead, the renowned institute proves to be a School of Culture Clash and she is befuddled by flying chairs, talking sinks and the impersonal technology around her. In the end, important friendships arrive but possibly too late. Nili's journey gets her caught in the violence of her era. When she is accused of crimes she didn't commit she must make a difficult decision to save herself and her dreams. Will Nili's adventure be worthwhile? Will she find her own place in the world's revolution?

Inside Jihadism Farhad Khosrokhavar, 2015-12-03 Jihad is the most organized force against Western capitalism since the Soviet era. Yet jihadism is multifaceted and complex, much broader than Al Qaeda alone. In the first wide-ranging introduction to today's rapidly growing jihadism, Khosrokhavar explains how two key movements variously influence jihadi activists. One, based in the Middle East, is more heavily influenced by Islamic religion and political thought. The other, composed of individuals growing up or living mostly in Europe and Western democracies including the United States, is motivated by secular as well as religious influences. Khosrokhavar interprets religious and lesser-known Arabic texts and the real-world economic and political dynamics that make jihadism a growing threat to Western democracies. Interviews with imprisoned jihadists on what motivated their plots and actions help the readers understand reality as seen by jihadists. The author concludes with recommendations to safeguard democracies from future jihadism.

Islamism and the West Uriya Shavit, 2013-11-26 Offering a unique analysis of Islamist ideology, Islamism and the West attempts to explain how- and why-mainstream Islamist leaders have, for the past century, developed and canonized theories which depict the West as engaged in a sophisticated conspiracy to undermine Muslim identity by cultural means, while morally collapsing and yearning for the spiritual salvation brought by Muslim migrants. This book demonstrates how seemingly triumphalist Islamist writings served, in fact, to legitimize pragmatic concessions undertaken by Islamists – from cooperating with regimes allied with the West, to encouraging Muslim migration to Christian lands. Following the Arab Spring, and with Islamism becoming a dominant force in Middle Eastern politics, Islamism and the West is an essential reading for the understanding of a region in transition Providing new insights on familiar concepts including 'cultural imperialism,' 'liberal democracy,' and 'civilisational decline,' this book will be of use to students of Middle Eastern and Islamic Studies, Political Science, Migration Studies and Cultural Studies.

The Middle East and the Making of the Modern World Cyrus Schayegh, 2017-08-28 Cyrus Schayegh's socio-spatial history traces how a

Eurocentric world economy and European imperialism molded the Middle East from the mid-nineteenth to mid-twentieth century. Building on this case, he shows that the making of the modern world is best seen as the reciprocal transformation of cities, regions, states, and global networks.

Multilingualism, Cultural Identity, and Education in Morocco Moha Ennaji, 2005-01-20 In this book, I attempt to show how colonial and postcolonial political forces have endeavoured to reconstruct the national identity of Morocco, on the basis of cultural representations and ideological constructions closely related to nationalist and ethnolinguistic trends. I discuss how the issue of language is at the centre of the current cultural and political debates in Morocco. The present book is an investigation of the ramifications of multilingualism for language choice patterns and attitudes among Moroccans. More importantly, the book assesses the roles played by linguistic and cultural factors in the development and evolution of Moroccan society. It also focuses on the impact of multilingualism on cultural authenticity and national identity. Having been involved in research on language and culture for many years, I am particularly interested in linguistic and cultural assimilation or alienation, and under what conditions it takes place, especially today that more and more Moroccans speak French and are influenced by Western social behaviour more than ever before. In the process, I provide the reader with an updated description of the different facets of language use, language maintenance and shift, and language attitudes, focusing on the linguistic situation whose analysis is often blurred by emotional reactions, ideological discourses, political biases, simplistic assessments, and ethnolinguistic identities.

Mapping the Acehnese Past R. Michael Feener, Patrick Daly, Anthony Reed, 2011-01-01 Aceh has become best known in our times for its twin disasters—the worst earthquake and tsunami of modern times in December 2004, and a long-running separatist conflict that rent Indonesia for most of its independent history. Although this book emerged from the process of recovery from those traumas, it turns the spotlight on a more positive and neglected claim Aceh has on our attention, as the Southeast Asian maritime state that most successfully and creatively maintained its independent place in the world until 1874. Like Burma, Siam and Vietnam, all better protected by geography, Aceh has its own story to tell of a unique culture struggling for survival through the European colonial era.

Apocalypse in Islam Jean-Pierre Filiu, 2012-03-06 Explores the belief in Muslim countries that the end of the world is at hand, uncovers the role of apocalypse in Islam, and examines the widespread fear of Christian Zionist domination as an impetus to jihad.

Power and Complacency Phillip T. Lohaus, 2021-07 The United States is at a crossroads. Despite a defense budget that dwarfs that of any of the nation's rivals, the marginal return on this investment has decreased dramatically since the end of World War II. Why? Why have America's rivals, despite inferior resources, increasingly set the terms of international competition? How might America's leaders reconsider the application of power to ensure a favorable place on an increasingly crowded global stage? By tracing the geographic and historical development of four global actors--Russia, Iran, China, and the United States--Phillip T. Lohaus illuminates four equally distinct approaches to competition outside of warfare. He argues that while America's actions may have birthed information as a currency of power, the nation's failure to fully grasp the implications of this transition has created critical opportunities for its rivals to increase their power at the expense of the United States. The American way of competition, rooted in a scientific understanding of warfare, may impede effectiveness in the amorphous and unscientific landscape of twenty-first-century competition.

From Rome to Britain, complacency has contributed to the downfall of many empires. Yet the slow bleed of American power may still be stanching by an approach to competition that emphasizes subtlety, diffusion, and ubiquity. America has developed and used these tools in the past--its very survival may hinge on returning to them. Power and Complacency defines the differing perspectives of America's international conflicts and offers possible solutions for reformulating its superpower strengths.

Saudi Arabia and Nuclear Weapons Norman Cigar, 2016-03-10 Nuclear proliferation in the Middle East remains an issue of concern. Saudi Arabia's actions will largely rest on Iran's decisions, and discussions and preparations within Saudi Arabia would suggest that it is ready to react to potential shifts in the region's nuclear powers. Saudi Arabia and Nuclear Weapons uses an inside out approach that emphasises the Saudis' own national interests in relation to the nuclear threat, and their understanding of the role of nuclear weapons in defense, foreign policy and the concept of deterrence. It is the first study with comprehensive use of the local Arabic language military and civilian media to provide this understanding of official thinking and policy. The Saudi case study is contextualised against the prevailing proliferation models, to conclude that the Saudi case shares both commonalities and elements of uniqueness with other proliferation cases, implying the need for a 'multi-causal' approach. Its comparative analysis also suggests potential implications applicable more broadly to the issue of nuclear proliferation. A comprehensive study of Saudi Arabia's attitude to nuclear weapons, this book offers an exploration of nuclear proliferation that would interest students, scholars and policymakers working in Middle East studies, as well as Military and nuclear proliferation studies.

Zionism in Arab discourses Uriya Shavit, Ofir Winter, 2016-04-30 This study presents the debates between and within contesting Arab ideological trends on a conflict that has shaped, and is certain to continue and shape, one of the most complicated regions in the world.

Arab Human Development in the Twenty-first Century Bahgat Korany, 2014-10-01 With its emphasis on the primacy of change, this study arrives at a particularly auspicious moment, as the Middle East continues to be convulsed by the greatest upheavals in generations, which have come to be known as the Arab Spring. Originally prepared as the tenth-anniversary volume of the UNDP's Arab Human Development Report, Arab Human Development in the Twenty-first Century places empowerment at the center of human development in the Arab world, viewing it not only from the vantage point of a more equitable distribution of economic resources but also of fundamental legal, educational, and political reform. The ten chapters in this book follow closely this political economy framework. They look back at what Arab countries have achieved since the early 2000s and forward to what remains to be done to reach full development. Supported by a wealth of statistical material, they cover the rule of law, the evolution of media, the persistence of corruption, the draining of resources through armed conflict, the dominance and increase of poverty, the environment, and religious education. The concluding chapter attempts an inventory of the world literature and different experiences on democratic transition to explore where the region could be heading. This critical and timely study is indispensable reading to development specialists and to Middle East scholars and students alike, as well as to anyone with an interest in the future trajectory of the region.

Beyond Sunni and Shia Frederic Wehrey, 2018-02-01 This collection seeks to advance our understanding of intra-Islamic identity conflict during a period of upheaval in the Middle East. Instead of treating distinctions between and within Sunni and Shia Islam as primordial and immutable, it examines how political economy, geopolitics, domestic governance, social media, non- and sub-state groups, and clerical elites have affected the

transformation and diffusion of sectarian identities. Particular attention is paid to how conflicts over distribution of political and economic power have taken on a sectarian quality, and how a variety of actors have instrumentalized sectarianism. The volume, covering Syria, Iraq, Lebanon, Saudi Arabia and the Gulf, Iran, and Egypt, includes contributors from a broad array of disciplines including political science, history, sociology, and Islamic studies. Beyond Sunni and Shia draws on extensive fieldwork and primary sources to offer insights that are empirically rich and theoretically grounded, but also accessible for policy audiences and the informed public.
