The Encyclopedia of Journalism covers all significant dimensions of journalism, such as print, broadcast, and Internet journalism; U.S. and international perspectives; and history, technology, legal issues and court cases, ownership, and economics. The encyclopedia will consist of approximately 500 signed entries from scholars, experts, and journalists, under the direction of lead editor Gregory Borchard of University of Nevada, Las Vegas.

Discourses of the Arab Revolutions in Media and Politics Stefanie Ullmann,2021-08-23 Drawing on approaches from critical discourse analysis, corpus linguistics, and cognitive linguistics, this book critically examines metaphorical language used in global media coverage and political statements on the events of the Arab Spring. The volume begins by summarising key events of the Arab Spring, tracing the development of protests from Tunisia and Egypt to Libya and Syria as well as the wider impact on the region. Ullmann builds on this foundation to lay out the theoretical frameworks to be applied to an extensive corpus of natural language and actual discourse highlighting Western, Middle Eastern, and North African perspectives which integrate theoretical work on metaphor, blending theory, and semantic prosodies. Methodological considerations on corpus selection and different conceptualisations of politics and mass media, generally and across countries, are discussed, with the final chapters outlining the overarching themes across metaphors in the corpus and how these metaphors were ultimately framed in the mass media and political landscape. This book will be of particular interest to students and scholars interested in critical discourse analysis, language and politics, and corpus linguistics.

The Routledge Handbook of Arabic Translation Sameh Hanna,Hanem El-Farahaty,Abdel-Wahab Khalifa,2019-12-09 Translation-related activities from and into Arabic have significantly increased in the last few years, in both scope and scale. The launch of a number of national translation projects, policies and awards in a number of Arab countries, together with the increasing translation from Arabic in a wide range of subject areas outside the Arab World – especially in the aftermath of the Arab Spring – have complicated and diversified the dynamics of the translation industry involving Arabic. The Routledge Handbook of Arabic Translation seeks to explicate Arabic translation practice, pedagogy and scholarship, with the aim of producing a state-of-the-art reference book that maps out these areas and meets the pedagogical and research needs of advanced undergraduate and postgraduate students, as well as active researchers.

Scholars of Faith Usha Sanyal,2020-06-12 Since the late twentieth century, new institutions of Islamic learning for South Asian women and girls have emerged rapidly, particularly in urban areas and in the diaspora. This book reflects upon the increased access of Muslim girls and women to religious education and the purposes to which they seek to put their learning. Scholars of Faith is based on ethnographic fieldwork in two institutions of religious learning: the Jami'a Nur madrasa in Shahjahanpur, North India, and Al-Huda International, an NGO that offers online courses on Islam, especially the Qur'an. In this monograph, Sanyal argues that Islamic religious education in the early twenty-first century—particularly for women—is thoroughly 'modern' and that this modernity, reflected in both old and new interpretations of religious texts, allows young South Asian women to evaluate their place in traditional structures of patriarchal authority in the public and private spheres in novel ways.

History of Saudi Arabia & Wahabism Anwar Haroon,2014-04-02 At present, the world views Muslims as terrorists and Islam a religion of tyranny especially after 9/11. Thereafter, to my surprise the killing of Muslims right in the mosques and public places around the Muslim countries has become every day affair which I never heard in my life earlier. While so many sects like Wahabi, Qadiyani, Bahai, Ahmadi, Parvezi and many others emerged in the course of past two hundred years through the efforts of Britain. The most cruel and dangerous among them is Wahabi sect formed by Muhammad bin Abdul Wahab Najdi of Saudi Arabia, which declared whoever does not follow them among Muslims, taking their lives, property and their wives is permissible. King Abdul Azeez Ibn e Saud formed armed group by name “Ikhwan” who mercilessly killed thousands of Muslims in Najad. They killed even women, children and old at Taif and throw their dead bodies on the hills. They flattened the graves of the family of Holy Prophet and his companions in the grave yards of Makkah and Madinah. I got serious in finding out the cause of this bloody change and I happened to read the book “Tareekh Najad O Hijaz” written in Urdu language. The book also gives the details about Wahabism. So I translated this book in English and named it “History of Saudi Arabia and Wahabism”. The regime of Saudi Arabia is spending billions of dollars to spread Wahabism in Muslim countries as per http://en.wikipedia.org/wiki/Wahhabi_movement Holy Book Quran in the Verse 5:8 says in this regard: O ye who believe! Stand out firmly for God Almighty Allah, as witnesses to fair dealing, and let not the hatred of others to you make you swerve to wrong and depart from justice. Be just: that is next to piety: and fear Allah. For Allah is well-acquainted with all that ye do May God Almighty Guide Muslims towards Straight Path and Salvation. Amen.

From Behind the Curtain Mareike Jule Winkelmann,2005 Annotation. In the aftermath of 9/11 Islamic seminaries or madrasas received much media attention in India, mostly owing to the alleged link between madrasa education and forms of violence. Yet, while ample information on madrasas for boys is available, similar institutions of Islamic learning for girls have for the greater part escaped public attention so far. This study investigates how madrasas for girls emerged in India, how they differ from madrasas for boys, and how female students come to interpret Islam through the teachings they receive in these schools. Observations suggest that, next to the official curriculum, the 'informal' curriculum plays an equally important role. It serves the madrasa's broader aim of bringing about a complete reform of the students' morality and to determine their actions accordingly.
